Mr Dan Newman (Scarborough Centre): On a point of order, Madam Chair: I just took a break for a couple of minutes and I was watching on television when the member for Hamilton Centre rose to withdraw an amendment, I believe it was. The box that's on his desk has the NDP markers on the back and the rear angle of the camera picks that up. I wanted to bring that to your attention, because I know you of all people would want to enforce the rules of this House —

The First Deputy Chair: Absolutely. That's my job here.

Mr Newman: — and to ensure that that NDP marker is removed from the box.

The First Deputy Chair: Yes, that's correct. I would ask the member for Hamilton Centre to position the box. Either put it on the chair or turn it so that the NDP symbol cannot be seen by the camera.

Mr Wildman: If I could have an explanation of your ruling, this means that there's a demonstration on TV?

The First Deputy Chair: That's an interesting point. Let me confer with the table.

Although I don't think the Speaker specifically referred to TV cameras and the images projected on those, the spirit, and perhaps the words, although I don't have them in front of me, is that the members should not bring into the House any visible signs that can be seen as demonstration, so I am upholding the ruling that that would be considered as a demonstration in the Legislature and should be removed or placed out of sight.

1650

Mr Wildman: In respect of you personally and of your high office, Chair, we will not appeal your rulings.

The First Deputy Chair: Are we ready?

Ms Annamarie Castrilli (Downsview): A point of privilege.

The Chair: It has to be a real point of privilege. Otherwise I will explain what it is.

Ms Castrilli: It is a real point of privilege. Pursuant to standing order 28(a), which says, “When a voice vote has been taken on any question, a division may be required by five members standing in their places,” it is, as you know, due to an accident, not possible for me to stand in my place at every occasion. I don’t ask for a ruling at this stage, but I wonder if you might consider that section and give me some advice as to what could be done, because I do think the privilege is breached.

The Chair: We’ll get back on that. I can think of many solutions, but I want to be sure I give you the right one.

Ms Castrilli: That’s fine, Chair. I don’t require an immediate answer.

Mr Pouliot: On the same point, Chair: There is a human dimension attached to this. Obviously if someone from time to time is experiencing a condition which does not — surely a reasonable alternative is that you can signal with your hand, for instance. This is not reinventing the atom, sir.

The Chair: That’s what I just said. We’ll find a solution and it will be agreeable to everyone.

Mr Christopherson: On a point of order, Mr Chairman: To avoid duplication, I'd like to withdraw this particular amendment, as the only difference between this and the previous amendment is a different version of the abbreviation, so I would withdraw this amendment.

The Chair: Cornelius Parkway?

Mr Christopherson: Correct. There are two different versions. They have a different abbreviation and I am withdrawing the second one, as it would be a duplication and we don't want to have that.

The Chair: "I move that section 24 of the bill be amended by adding the following subsection:

“(4) Despite subsection (1), no regulation that may affect the residents of Cornelius Parkway living in the urban area shall be made unless the following conditions have first been satisfied:

“1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Cornelius Parkway living in the urban area.

“2. The minister has considered all written submissions made by members of the public” —

Mr Christopherson: On a point of order, Mr Chairman: Perhaps you can help me, Chair. I believe we've already done it once and my point was to pull out the second one.

The Chair: No, the one we did previous to that was Corley Avenue.

Mr Christopherson: Corley Avenue? And you didn't do Cornelius Parkway once?

The Chair: No.

Mr Christopherson: This is the first time. So the second one is the one that will be pulled, Chair.

The Chair: When you raised it on a point of order we hadn't done it yet, so we will withdraw the next one.

Mr Christopherson: Then it is this second one that reads P-k-y, as opposed to the first one which is P-k-w-y, that's withdrawn, so at the appropriate time —

The Chair: So P-k-w-y is withdrawn?

Mr Christopherson: P-k-w-y is kept. Actually, it doesn't matter which one, as long as one of them is withdrawn, Chair.

The Chair: Normally, it's P-k-w-y. I read it properly anyway.

“1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Cornelius Parkway living in the urban area.

Ms Castrilli: May I argue my point of privilege again and demand an immediate answer?

The Chair: Order. I'd like to have your attention for a minute. Yes, we had a point of privilege. Maybe some of the members were not here at that time. The member for Downsview, Mrs Castrilli, has a leg that needs to be cared for. It's difficult for her to get up. The only solution would be for her to raise her hand, but it's only for her. The name of anyone who is sitting and wants to raise their hand, I won't count that. It's only for her. She's allowed to raise her hand. I ask for unanimous consent. Is it agreed? Agreed. It only applies for her, just to raise her hand. Thank you.

Mr Tony Clement (Brampton South): You are a distinct society. Congratulations.

Ms Castrilli: I'm indebted to the House. Thank you very much.

The Chair: Thank you. I believe it was done in excellent spirit. I will continue.

Mr Bisson: Mr Speaker, I rise on a point of privilege: Last night in this chamber, I guess somewhere around 3 o'clock yesterday morning, we were in the process of voting on or having amendments read such as what you're doing right now and I want to bring it to your attention, because this is the first time I've seen you since you arrived here, since last night the member for Scarborough East on a number of occasions through the reading of the amendments, whenever it came to the point of the government member having to vote no as they've been doing on these amendments, kept on referring to these amendments as "Crozier motions".

The Acting Chair: What's the point of privilege?

Mr Bisson: The point of privilege I rise on, Mr Chair, is, as you know, the standing orders are quite explicit, that members of this chamber are not to impute motive and are not to engage in calling members by names or —

Interjections.

The Acting Chair: Order. It's my understanding that this was ruled on last night, this point of privilege.

Mr Bisson: But, Chair, I want to raise it because it is the first time that you have been here and I want to make sure you are aware that the members here were treating you without respect. I think that quite frankly that is not in order in this chamber, that we should always be treating all Chairs with respect in this chamber.

The Acting Chair: I thank the member, but that has been dealt with.

Mr Christopherson: On a point of order, Mr Chair: I wish to withdraw this particular amendment, as it’s dealt with in the next amendment and we don’t want duplication.

Hon David H. Tsubouchi (Minister of Consumer and Commercial Relations): On a point of order, Mr Chair: Earlier on in the day I made a similar request of the sitting Chair. The honourable members, when they are withdrawing various amendments, could certainly assist us — and they had agreed at the time; the House leader was there — by allowing us to know what the name of the street or the location is when they are withdrawing the amendment, and they had agreed to that at that time. It really helps us a bit in keeping our notes.

The Acting Chair: I understand that commitment was made, Minister. If you could mention the name of the street, then, in withdrawing.

Mr Christopherson: Certainly. I’d be pleased to. The amendment that I’m withdrawing refers to Coronet and then goes on. The amendment following says, more appropriately, Coronet Road.

The Acting Chair: Thank you. That is withdrawn.

Mr Klees: On a point of order, Mr Chair: At the outset of you reading this particular amendment, I said “Dispense” on three occasions. Now, the first two times, I believe as the record would show, you did not respond. My question to you is, did you not hear those first two times when I said “Dispense,” or were you ignoring me?

The Acting Chair: When I heard “Dispense,” I then asked the question of “Dispense?”

Mr Klees: And so for the first two times, Mr Chair, you did not hear me, although I did say it quite clearly?

The Acting Chair: The first time I heard you say “Dispense,” I said “Dispense?”

Mr Klees: And so there were clearly two times, I believe as the record would show, when I said very clearly, “Dispense.” My question to you, Mr Chair, is, is it possible that, just as you did not hear my two times when I called “Dispense” today, perhaps you also did not hear the two members of this House who yesterday, when you ruled that you did not hear them say “No” — is it possible that you did not hear the two members who clearly said in this House that they said “No”?

Interjections.

1830

The Acting Chair: Order. For the record, yesterday the ruling of the Chair was challenged. The Speaker reviewed that challenge and I think his words were very clearly that, as I had reported to him, the “No” I heard was after I had said “Carried.” That matter has then been dealt with.

Mr Klees: Yes, but my point of order specifically —

The Acting Chair: Your point of order has been dealt with. To the member, with all due respect, I’ve dealt with your point of order. If you have anything new to add to it, why, feel free.

Mr Klees: I would like to add something new, because I’m not sure that you understood my point of order.

The Acting Chair: Yesterday’s business is done. If you want to deal with the “Dispense” that you had today and have anything to add to it, I’d take it under consideration.

Mr Klees: So clearly, then, with regard to today’s business and the issue of “Dispense,” you did admit clearly that you did not hear my first two requests for a dispense. Is that correct?

The Acting Chair: No, I did not. I said that the first “Dispense” I heard, I then responded to it.

Mr Klees: So there were clearly two requests for a dispense that you did not hear, Mr Chair.

Mr Bisson: On a point of order, Mr Chair: Standing orders 13(a) and (b) are in my view quite clear. When a Speaker or a Chair makes a decision — in this case if we make a decision chaired by the committee of the whole — we are able, as members, to appeal that decision to the Speaker. Clearly yesterday your decision was challenged. The Speaker reviewed it and upheld your decision.

The point of order I’m making is that the decision now being made, this member is now trying to circumvent the process and to rechallenge the decision of the Chair. The standing orders are quite clear that you cannot —

The Acting Chair: To the member for Cochrane South, the Chair would appreciate it if — I don’t believe you have a point of order. That’s been dealt with and you are just prolonging it, I think. I don’t think it’s helpful.

This is an NDP motion:

"I move that section 24 of the bill be amended by adding the following subsection:

"(4) Despite subsection (1), no regulation that may affect the residents of Cotton Down Way" — the Chair recognizes the member for Cochrane South.

Mr Bisson: On a point of order, Mr Chair: I realize you were reading very quickly through this amendment, but you failed to mention a couple of key parts of the amendment.

The Second Deputy Chair: I'm sorry, what did I miss?

Mr Bisson: After the first sentence, "I move that section 24 of the bill be amended by adding the following subsection," you didn't read the "public consultation." I'd like that to be in the record.

The Second Deputy Chair: Oh, that is a point of order. I asked about that some time ago, two or three days ago, because I was reading these — and I am trying to expedite them, you're absolutely right — but I asked about that, and I was told that the public consultation wording in there is, in fact, one of those things that goes in the margins that the lawyers later on can put in or out or do whatever they want with. I was told I didn't have to read it, so I don't.

If you'd like to appeal my ruling, that is my ruling. It is a point of order, but I don't have to read it, so — occasionally, my mistake, I will read it. So, if you want, I'll have to have it taken out of the record or whatever.

Mr Bisson: It is just that, Speaker, you had read it for the last three amendments and this time I thought you had forgotten, and I wouldn't want you to make a mistake.

The Second Deputy Chair: If I make a mistake, if you bring it to my attention, I'll do everything in my power to correct it.

Mr Bisson: Well, I really appreciate that, Speaker. We're starting off on a good foot, you and I, today.

The Second Deputy Chair: I'm not sure about that.

— "living in the urban area shall be made unless the following conditions have first been satisfied:" —

I'm in jest, and I apologize.

Mr Bisson: That wouldn't be nice to do that, because you are my friend.

The Second Deputy Chair: We are both members of this Legislature and I have a job to do and part of my job is to move on and reading these several motions and so on. I realize that it may be your duty to slow it down as much as possible and on the other side, of course, they would like to speed it up and dispense with everything, and we're kind of taking the middle road. I'm sure you wouldn't want to obstruct me in getting my work done. Fine. I do apologize for making that comment in jest. I withdraw it and I take it back.

Mr Bisson: I understand. Thank you very much.

The Second Deputy Chair: I'm going to start off where I stopped:

— "living in the urban area shall be made unless the following conditions have first been satisfied:

"1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Cotton Down Way living in the urban area.

"2. The minister has considered all written submissions made by members of the public that his office received within 30 days after the notice was given.

"3. If 10 or more persons requested a public hearing within 30 days after the notice was given, a public hearing has been held and the minister" —

The Chair recognizes the member for Lake Nipigon, on a point of order? Oh, I'm sorry. I heard you speaking and I also was hearing myself speaking and I thought I would stop because one of us was obviously in error. I will start up where I left off:

— "has considered all oral submissions made at the hearing.

"4. The minister shall give three weeks' notice of a public hearing, in the same manner as the notice under paragraph 1.

"5. The notice under paragraph 1 shall,

"1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Country Club Drive living in the urban area.

"2. The minister has considered all written submissions made by members of the public that his office received within 30 days after the notice was given."

Mr Bisson: Point of order, Chair.

The Second Deputy Chair: "3. If 10 or more persons requested a public hearing within 30 days after the notice was given, a public hearing has been held" —

Mr Bisson: Point of order, Chair. Yoo-hoo, Bert. Point of order.

The Second Deputy Chair:— “and the minister has considered all oral submissions made at the hearing.”

The Chair recognizes the member for Cochrane South on a point of order.

Mr Bisson: Thank you very much. Can you tell me what amendment you're on, because I think there's a mistake here.

The Second Deputy Chair: Oh, I'm sorry if I made a mistake. I'm on Country Club Drive.

Mr Bisson: Country Club Drive. Is it possible you've read the same amendment twice?

The Second Deputy Chair: Yes. I could have made any number of mistakes. I'm fallible.

Mr Bisson: Can you doublecheck? You might have read it twice.

The Second Deputy Chair: How many should I take back? Just the last one, two, three or the last 800 or 900?

Mr Bisson: There should be one Country Club Drive amendment, and either you've read it twice or I've moved the paper incorrectly.

The Second Deputy Chair: The last one was Council Crescent.

Interjections.

Mr Bisson: Pardon? I didn't hear it with the heckling, Speaker. Sorry.

The Second Deputy Chair: The last one I read was Council Crescent.

Mr Bisson: Then I stand corrected, Speaker. You were probably on the right amendment.

The Second Deputy Chair: I can understand that. I've made mistakes too in my lifetime. Now are we ready to proceed?

Mr Bisson: I didn't hear that.

The Second Deputy Chair: You were standing on a point of order. That was a point of order, and I think that I ruled on it. Now you're still standing, and I'm wondering why.

Mr Bisson: Which part of —

The Second Deputy Chair: Member for Cochrane South, I don't want to be trifling. I don't want to make a mockery of it. You have a problem that I don't have, and I want to get it settled and straightened out.

Mr Bisson: If we can clarify, because I believed you had read the same amendment twice, and obviously I was in error and you were not, and that's where we're at.

The Second Deputy Chair: No. If I make any mistakes, please let me know.
1930

Hon Mr Tsubouchi: Mr Chair, on a point of order: I just want to draw to your attention that when the member for Cochrane South was addressing the Chair, he addressed him by his first name when he was calling him, and I don't think it's very appropriate for this chamber.

The Second Deputy Chair: If he did, and he may have, I'm sure that he'll withdraw that —

Mr Bisson: I will, Speaker. I was trying to get your attention. You weren't responding to “Chair,” so I tried “Yoo-hoo, Bert.” I apologize. I shouldn't have done that.

The Second Deputy Chair: I'm very, very sorry. If I didn't hear anything, I'll correct it and go back, and if there's anything I can do to fix that up —

Mr Bisson: I won't use “Yoo-hoo, Bert” any more. I'll use “A Chair.” Thank you.

The Second Deputy Chair: “A Chair.” I'll take that in the very best sense.

I left off at the word “hearing.”

Mr Klees: On a point of order, Mr Chair: In the interests of this House, I think it's very important that we note that the member for Cochrane South just reminded you that he spoke a number of times to get your attention and you didn't hear him. I'd like to point out that in this chamber it's very possible for members to try to get the attention of the Chair and for the Chair not to hear them. I think it goes back to the point yesterday when in fact there were two members in this House who made the statement that they voted no and were not heard by the Chair presiding at the time. I think it's very important that that be recognized.

The Second Deputy Chair: That is a point of order, but it has been ruled on. I would like to proceed.

The Second Deputy Chair: I'll try my very best to correct any mistakes that I make, and if I left out the word “that,” then I — do you want me to read it over again? I'll just instruct that it be put in. Okay?

Mr Bisson: Thank you very much, Chair.

The Second Deputy Chair: I left off with “satisfied.”

“1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Country Lane living in the urban area.

Hon Mr Sampson: Courtney Park Drive is in Mississauga. I'm wondering whether I can inquire from the NDP whether they're encouraging that Mississauga now be merged with the city of Toronto. Is that part of their amendment? I thought people were against the largest city, but clearly they're asking that these two cities be merged.

It's right in my sight lines and I'm afraid I'm going to stop partway through, because I don't always hear you and

you're standing. I'll be thinking that you're rising on a point. Can I have your assurance you're not going to rise on a point of order within the next three or four paragraphs anyway?

Mr Bisson: I can guarantee you, unless there is a big error, I will not be rising on a point of order. I'm just standing here.

The Second Deputy Chair: If I make an error, I know that you will be correcting me, and I wouldn't want it any other way.

I'll read it all over again.

This is an NDP motion:

Interjection.

The Second Deputy Chair: Order. I'm sorry. I don't want to go on about this, but the member for Lake Nipigon is in the same sight line as the member for Cochrane South. I see somebody standing, I hear somebody talking and it's very disturbing. It's upsetting to me. It almost verges on being irritating.

Mr Flaherty: Sit down or leave.

The Second Deputy Chair: No, I want to be very clear about this. I don't mind the member for Cochrane South standing; he has that right. But it's when I have the same sight line between a person talking and a person standing, I have to both hear and see, and I'm trying to read this as well. I want to expedite this and get these —

Interjections.

The Second Deputy Chair: Order. I want to be very clear about this. These motions would not be before this committee if they weren't very, very important. This is the Ontario Legislature and the most important work in the whole of the province is done here, so let us be serious. Let's not be trivial, let's not be trifling, let's not make a mockery. Let's get down and do the work that is before us. 1500

“(4) Despite subsection (1)” — the Chair recognizes the minister from Markham on a point of order.

Hon Mr Tsubouchi: I was just wondering, on the last vote or division, whether the member for Cochrane South was merely standing, or was he voting? His explanation before, as he is now, is he’s merely standing. Was he voting or merely standing?

The Second Deputy Chair: That is a point of order. There were five members standing besides him, so it was superfluous.

Interjection: He certainly is superfluous.
The Second Deputy Chair: No, not “he,” “it.” I’d finished off at the colon after “satisfied.”

“1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Courtwright Road living in the urban area.

The Second Deputy Chair: I’m marking my place. I want to be very clear on this. I need order and attention. When I’m going through, I have 249 words, I have some 23 punctuation marks, and I have 50 numbers. I have to do them on each one of these. I think I should be able to do one a minute — it’s only 60 seconds — and I have never achieved that yet. I don’t set that as a goal for myself, but I have to have order and decorum in this House.

Hon David Johnson: Mr Chair, could I add that through all of those words and punctuation marks and numbers, you do a fabulous job.

The Second Deputy Chair: I do appreciate that, Minister, but it is my job just to do this as carefully and as fairly and as equitably as I can.

Interjections.

“(4) Despite subsection (1), no regulation that may affect the residents of Courville Coachway living in the urban area shall be made unless the following conditions have first been satisfied” —

Interjection.
The Second Deputy Chair: The member for Cochrane South, I think that I’m a very, very patient man. Out of courtesy I’ve let you stand in your place, and you continue to talk. I’ve been accused of not recognizing you when you want to stand on a point of order. I’m afraid that I will have to ask either that you don’t talk or that you don’t stand.

Mr Bisson: What was I saying?
The Second Deputy Chair: I have absolutely no idea. I left off at the colon after “satisfied.”

“1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Courville Coachway living in the urban area.

“2. The minister has considered all written submissions made by members of the public that his office received within 30 days after the notice was given.

“3. If 10 or more persons requested a public hearing within 30 days after the notice was given, a public hearing has been held and the minister has considered all oral submissions made at the hearing.

“4. The minister shall give three weeks’ notice of a public hearing, in the same manner as the notice under paragraph 1.

“5. The notice under paragraph 1 shall,
“i. include a copy of the proposed regulation,
“ii. tell members of the public where and how to obtain, without charge, a copy of this act together with background material,
“iii. advise members of the public of their rights under paragraphs 2, 3 and 4,

“iv. advise members of the public where their written submissions and requests for a public hearing should be sent.”

“I move that section 24 of the bill be amended by adding the following subsection:
“Public consultation

“(4) Despite subsection (1), no regulation that may affect” —

What I have before me is the amendment for Cove Drive. I have made a mark where I’ve stopped after the word “affect,” and there’s a mark on this very similar to the ones I make when I’m interrupted, but it’s already on here

after the colon after "satisfied." The only reason I bring this to the attention of this committee is that I try to be accurate. If at some time I come up against this again, I guess I won't be able to guarantee that the mark is the one where I stopped. It's not part of the original amendment because it's in blue ink and it's very similar to mine, and I know it's not mine because I haven't gotten as far as that. I stopped when I saw it.

Are you on a point of order?

Mr Bisson: No.

The Second Deputy Chair: I've said once before that out of courtesy I've let you stand, but I can't have you

Mr Marchese: I ask that it be withdrawn, Mr Chair.

The Second Deputy Chair: It’s done.

Mr Marchese: I would like to withdraw the following motion that has the designation of “Coxwell Bl.” By way of explanation, the one that follows is much clearer, in terms of saying “boulevard,” than this one.

The member for Dovercourt. I had problems a little while ago with people standing and talking. I guess what I’m saying is that one isn’t all that bad, under the conditions we are in, but when you do both — I have a very difficult job. I’m trying to read, I’m trying to hear, I’m trying to see when people rise on points of order. If you’re standing, please don’t talk, and if you’re talking, please don’t stand unless you want my attention. Does that make any sense?

Mr Tony Silipo (Dovercourt): On a point of order, Mr Chair: I appreciate the full explanation because at the beginning of your point I thought you were indicating that it was difficult for members to talk and stand at the same time. That’s something I think I am capable of doing, but I appreciate your point. I was simply at that point indicating that I wanted you to read the amendment.

The Second Deputy Chair: I don’t want to be trifling or anything. I want to be very serious about it. I know you wouldn’t have brought these in front of us if they weren’t serious amendments. I’m trying to do the best job I can, but I want to emphasize that I’m reading a motion that consists of about 249 words, about 23 numbers and about 50 punctuation marks and I’m trying to do it accurately and to

the best of my knowledge. Actually, I’ve made mistakes, heaven knows I’ve made a lot of mistakes, and I appreciate anybody who brings them to my attention when I do. I don’t mean to lecture, I don’t want to be that way, but when you’re standing and talking — I want to say this to the member for Dovercourt. I have a lot of respect for you in this House. If I’ve said anything that would indicate that those two — you’re a very bright and able representative of your riding and I want to make that clear.

Mr Peter Kormos (Welland-Thorold): Mr Chair, on a point of order: I attended at the east entrance just a few minutes ago. Here we are, it’s 10 after 10 on Saturday night and this Legislature is going to be open all evening. Will the Chair please assure me and other members of this assembly that the east doors will remain open so that members of the public can continue to attend here and observe these proceedings and sit, as these spectators are, in protest of Mike Harris’s and Al Leach’s megacity hearings, even though Mike Harris happens to be skiing in Whistler, BC, as his backbenchers are sitting here sweating it out?

The Acting Chair: Member, take your seat, please.

Interjections.

The Acting Chair: Order. You’re not in your seat.

Mr Garry J. Guzzo (Ottawa-Rideau): You’re right, I’m not.

Interjections.

The Acting Chair: Order, please, all of us. To the member for Welland-Thorold, I would just say, to the best of my knowledge, there’s no reason why those doors wouldn’t remain open, and if that’s the case, I would ask some officer or official of this place to tell me otherwise.

Mr Kormos: Thank you, Chair.

The Acting Chair: You’re welcome.

I realize it's late and members are tired, but I know that members want to conduct themselves in a way that the public would expect. I've got the opposition members quiet, I would ask the government members to join them.

NDP motion, subsection 24(4):

"I move that section 24 of the bill be amended" —

Mr Steve Gilchrist (Scarborough East): Point of order, Mr Chair: I would like to draw to your attention that this amendment and in fact every amendment we've dealt with

in this sequence is quite contrary to the precepts of Beauchesne's and Erskine May, given that the most important principle to this amendment being introduced is that in fact correspondence should be sent out to what this amendment calls "residents," and then, of a particular street. The problem, Mr Chair, is that both under Erskine May and under Beauchesne's, it is absolutely impossible to introduce amendments which are vague.

The problem with the use of the word "resident" is that it is not defined in this bill, it is not used anywhere else in this bill. Also, it is not used in the Municipal Act itself. The term 'resident' obviously could be applied any number of ways. You and I may have in our minds that it means voters or it means adults voters or it means voters that own property. It could be any possible number of definitions.

Interestingly enough, under the Education Act there have been needs over the years to redefine what a resident is for the purposes of the tax assessment. The problem you face here, Mr Chair, is that there is no similar definition in this bill. Because the word was not used earlier in this bill, and we have passed the stage in the legislation where definitions may be inserted, we cannot now go back and rethink what resident might be.

I would respectfully suggest that this amendment is out of order because it is vague, it does not say who those residents are that would be entitled, and more than that, you cannot even assume that it means electors who would normally be entitled to receive any notice from a municipality consistent with the sort of notice being sent out here. Electors in municipalities need not be resident; they only need to own property within the jurisdiction.

Because it neglects to define it, this bill is inconsistent with the standard which is currently in place in the Municipal Elections Act. It is defined in the municipal election act and it is undefined in this statute, and Mr Chair, we have no choice: Under Beauchesne and under Erskine May, since no two of us in this room probably have the same idea of what the word "resident" means, and who would be entitled to receive that notice legally if these amendments were subsequently passed, I must respectfully ask you to rule this amendment out of order.

Mr Howard Hampton (Rainy River): On a point of order: although I doubt very much that this is a point of order. The member opposite seems to want to introduce great mystery into the meaning of a word. Now, after this is passed into legislation, someone may want to go hire a lawyer to argue that resident has a particular meaning or that resident has an extraordinary meaning or that resident has an unusual meaning. I expect, no matter how we might try to define the word resident here and now, those arguments are going to take place in any case.

What the member is talking about is a legal issue which might arise after this passes into law or might not arise after

this passes into law. What this member wants to talk about are what if's, maybe's, possibilities; that has nothing to do with whether or not this is in order. That has nothing to do with whether or not this amendment is relevant to the bill. This member wants to be a lawyer in practice. We are not in practice here. We are not applying this law.

The matter he wants to deal with may happen in a courtroom someday and it may happen in a courtroom someday, whether we try to define the term "resident" or whether we do not define the term resident, as he seems to want to do here. What he has, is the possibility of a legal problem somewhere, sometime. That is not at all an issue before the House now, nor will it ever be. I don't think the member has a point of order. He has a legal fantasy.

0010

Mr Tony Silipo (Dovercourt): Mr Chair, I just want to add to this point before you rule that the member opposite is trying to make a lot out of the word "resident," in this motion, as if this is a notion that is somehow strange to people in trying to understand what is meant by "resident."

Perhaps I could make the point this way: If you were to ask people like Peter and Mary Jansen what the word "resident" means, if you were to ask Joe Di Donato what the word resident means, if you were to ask people like Elio Pagliei what the word "resident" means, they will tell you, because they are four residents of Cafon Court, people that I actually talked to last night and who have no qualms and no hesitation about being residents now of a street in Metropolitan Toronto that, if this bill passes, will have an incredible responsibility not just on their own behalf, but in fact on behalf of the rest of the residents of Metropolitan Toronto.

With the amendment that was passed last night that has this concept of residents in it, we know that those individuals will have to be consulted before the government proceeded with any regulations under this act. Now, of course, we still don't know what is going to happen to this piece of legislation before we're finished with it here, but we have to work on the assumption that if this does pass, then there will be an issue of interpreting the word "resident."

Let me just say that there is enough precedent, both in the courts of this land and this province and throughout the practice, to leave no doubt in anybody's mind that when we are talking about residents, we are talking about people that in fact live on those streets. Whether they rent, whether they own, that is irrelevant. If there is an issue that's outstanding that somebody wants to question, that's up to the courts to determine and that's up to anybody that wants to question. The test here is not whether there is a definition for every word or every term in the legislation. There is no such requirement. There is no such requirement: that every term be defined.

Good common sense comes into play, something which of course the members opposite seem to conveniently forget from time to time. There is no issue about this amendment being vague. This amendment is very clear. It sets out a process whereby the government would have to inform residents who live on the various streets set out in the amendments before they could proceed with putting in place any regulations under this act that would affect them as residents. It's quite clear. It's quite straightforward.

There is nothing vague about it except for, perhaps, in the member's mind.

Mrs Lyn McLeod (Fort William): I wonder, over the course of the next many days, how many new ways government members will attempt to find in order to challenge the order of amendments which the Speaker has clearly and repeatedly found to be in order. Mr Chair, I think the intent of this is absolutely clear. This amendment seeks to give to the residents, those who live on Dalecrest Drive, exactly the same rights and privileges that the government has seen fit to extend to those who live on Cafon Court.

Ms Frances Lankin (Beaches-Woodbine): I want to address this point of order seriously, although I see it as a series of attempts by the government to get themselves out of dealing with the very many important amendments that have been put forward.

I want to tell you that I believe there is a very, very high test that must be met for an amendment in fact to be found to be vague. In fact, in this Legislature, while we are looking up the exact precedent, it appears that 1904 was the last time that an amendment was ruled out of order for its vagueness. I state to you first of all that the test is a very high test.

Secondly, I would point out to you that in virtually every piece of legislation that has passed through the Legislature you will find at the beginning of that a list of definitions. I would assert that not all words that are referred to in the legislation will be set out and defined. So there are many words of common usage that you will find in legislation in which intelligent people would in fact look to the common sense application of that word and the common usage of that word.

I would suggest that for the definition, if not spelled out, you might revert to other sources of definitions, like the dictionary, and I happen to have the Oxford Dictionary here. The definition for "resident" is "a permanent inhabitant," and it gives you some examples, "of a town or neighbourhood" and of course, in this case, we're talking of a street.

The second argument that I would like to put to you is that there must in fact be an element of timeliness as we move with respect to arguments that are raised. This member has on a number of occasions, raised points of order with respect to the orderliness of the amendments. He has raised the argument of vagueness before and may I say that I think in fact his argument may be untimely at this point, given that the majority government in this House, by not stating any objection to the residents of Cafon Court being consulted — and the passage of the amendment yesterday when they did not state any objection to the passage of the amendment — have passed into this bill which will then be considered on third reading and, I would assume, would pass on third and final reading. They have passed already an amendment into this bill containing "residents," so for that reason as well, I would believe that it would be inappropriate for you to rule that the point of order is indeed in order.

Mr Gerry Phillips (Scarborough-Agincourt): Just to say whether this is in order or not, I think we all recognize that we have been dealing with this amendment for some time. It is clear that we have set out in this amendment a process for consultation. I think the public that are watching the

now recognize what the government is trying to do, for what it is: to now raise that somehow or other this is out of order when, in one case, they actually supported this resolution.

Secondly, I think it clearly spells out a process for consultation, and what the government is attempting to do is to once again deny people in Metropolitan Toronto an opportunity to have a say and an input into their future.

I remind people of the importance of this amendment: Mike Harris, when he was in opposition, promised that he would keep the city of Scarborough. He's getting rid of it. And 75% of the people said they don't want the megacity and now he's proceeding with it. What this amendment now proposes is a way of consultation.

Interjections.

Mr Phillips: The public probably hears some noise now. It is the government members angry that there is now going to be a process in place for some consultation on the final bill.

Mr Chair, as I say, we've been dealing with this amendment for some time. It is clear now that the government is attempting to find some straw to slow the process down and would remind the public: The government itself supported one of these amendments yesterday.

Mr Rosario Marchese (Fort York): I find that this is a very desperate but pitiful attempt to thwart and slow down the democratic process in fact. He argues that somehow the word "resident" is either vague and or it needs to be defined. I know the residents of Montrose Street have no problem understanding who they are. I know that the residents of Shaw Street and Crawford Street and Grace and Clinton and Manning and Palmerston and Markham and Bathurst, they all understand who they are.

It's people who live in those homes or people who rent those homes. It includes people who are citizens and non-citizens alike. It includes people who own property, who do not own property. It includes them all; it is a very inclusive term, and they know who they are. By the way, they will all be affected by the outcome of this particular bill that you are trying to force down our throats here in Metro. There is a great deal of clarity by the residents, and I see this attempt again to slow you down, Mr Chair, and to prolong this quite unnecessarily. This in order, and I hope you would rule that out of order as immediately as you can.

0020

Mr Peter Kormos (Welland-Thorold): I have great sympathy for the member bringing this plea to you to rule this amendment, and I presume every subsequent amendment, as being irregular or somehow out of order because of the failure of any amendment to define "resident." I understand that. I understand the difficulty that he has as a member of his caucus who has aspirations, no two ways about it. I understand, he has aspirations. He's an eager, capable person, in his own mind, and I understand why he would want to bring forward this plea to the Chair.

His concern, as I understand it, is that the amendment doesn't define "resident." Chair, I'm going to tell you something: I confess, I have not read all 12,000, and far be it for me to suggest that there isn't an amendment, perhaps 12,499, that indeed does define "residents" and any objection would be premature, but that's not the point.

I've got to caution people sitting here that you can't respond to me nor can you gesture, but if you remember that Dalton Trumbo book where you blink twice, okay. Up there in the back — Don, don't nod your head or don't raise your arm, but blink twice if you're a resident of Toronto. He did, Chair. Marilyn, blink twice if you're a resident. She's a resident. Blink twice — they're a resident of Toronto. These are people who are property owners —

Interjection: Where is the dignity in this place?

Mr Kormos: The dignity in this place escaped in June 1995.

My colleague from Beaches-Woodbine — and here we are 21 minutes and 37 seconds into this debate, but it's an important debate.

Mrs McLeod: It's not a debate. You can't debate.

Mr Kormos: It's a quasi-debate, Mrs McLeod, because we're on a point of order. It's a point of order.

Mr Wayne Wettlaufer (Kitchener): Then speak to the point of order.

Mr Kormos: Here we are 21 minutes and 58 seconds — 22 minutes into the debate on this point of order —

Mr Gilchrist: Mr Chair, how about getting him to speak to the point of order?

Mr Kormos: — about the issue of whether or not the failure to define "resident" somehow renders these amendments incapable of being considered by this assembly.

One of the considerations you ought to take into mind, Chair, is the timeliness of this. Here we go. He's waited until we get to the d-a's — well, the d, sub a. Granted, that's only the third letter of the alphabet and the beginning of that list. Where are we now? Are we at one sixth-plus through the number of amendments, the member for Beaches-Woodbine?

Ms Lankin: One sixth, I think.

Mr Kormos: The people from Dalecrest Drive watching this and listening to this now, the residents of Dalecrest Drive — that doesn't confuse you, Chair. I understand that you understand when I refer to the residents of Dalecrest Drive, know what residents are, and the member for Beaches-Woodbine has referred to that useful tool. When somebody has difficulty with plain language, they can refer to a dictionary. They're available in most libraries; not for long, because those are the libraries that this government is shutting down in towns across Ontario in places like Welland, Thorold and Pelham. Those are the libraries that this government is shutting down. They're available in most schools but not for long, because libraries and schools are among the first things that are going to go as this government de-funds education across the province of Ontario and Bill 104 is going to be part and parcel of that de-funding. But I tell you, at the moment, dictionaries are available, and the Oxford English Dictionary, along with Webster and countless others, will permit this member and anybody else considering this legislation to know what the word "resident" means.

Having said that, I should refer you, Chair, to Beauchesne's Parliamentary Rules and Forms. The member with his point of order speaks to the failure of this amendment by virtue of its vagueness. That's the thrust of his objection. That's the body of it. Well, I refer you to Beauchesne to tell you what it says about the standard that an amendment has to meet. I refer you to what is section 570 in

Beauchesne's Parliamentary Rules and Forms, 6th edition, published by Carswell Co Ltd, 1989 and that's on page 175, Chair. I know you have it with you. The annotation number 570: "An amendment cannot be ruled out because of its vagueness."

Again, Chair: "An amendment cannot be ruled out because of its vagueness."

Chair, there's no vagueness here. A resident is a resident is a resident. Residents of the six cities of Metropolitan Toronto are eagerly awaiting the passage in each and every one of these amendments so that they can have a little bit of democracy in the process too. We know that the residents of Cafon Court —

The Acting Chair: I think the member has made his point.

Mr Kormos: — we know that they have had access to democracy. Let's give some same access to residents of others.

Chair, I would urge this on you: I would urge you to rule against this point of order and do it in a way that is so dismissive, so scathing, with such disregard for the argument of the author of the point of order — you might even take a strip off his hide in the course of doing it — so that he feels compelled to call upon the Speaker by way of challenging the Chair. Chair, I want you to reject this point of order with such venom and vigour that the member compels you to call upon the Speaker by way of a challenge. Thank you, Chair.

The Acting Chair: I found that exchange interesting and in keeping with the nature of this place. As Chair, I believe I cannot rule on a legal issue or potential legal issue; that is for the courts. Nor is it for the Chair to determine the legal meaning of the word "resident" or if there are residents on the street mentioned in this motion, so I find the motion in order.

Mr Gilchrist: Mr Chair, with the greatest of respect, I appreciate your ruling but I must respectfully challenge it and ask you to summon the Speaker. Thank you.

The committee rose and requested a ruling of the Speaker.

0048

The Acting Chair: Mr Speaker, the committee of the whole has risen to report that a ruling of the Chair has been appealed.

The Speaker (Hon Chris Stockwell): Thank you. Please be seated.

The member for Scarborough East.

Mr Gilchrist: Thank you, Mr Speaker. I appreciate your helping us out on this issue.

The point on which I rose was to suggest that, in reading the amendment, one of the most pivotal points on which the entire script revolves is in fact the word "residents." As you're aware, the — whatever — 1,500 amendments we have processed so far and the thousands yet to come each are delineated by street within the boundaries of Metropolitan Toronto, and outside, for that matter. In every case, it talks about the residents of that street.

The problem arises that the word "resident" is not defined anywhere in the bill. It is not used in the body of the bill itself. It is also not defined in the Municipal Act, which this act seeks to open up, nor is it mentioned in any

of the other subsidiary acts: the City of Toronto Act, the City of Scarborough Act etc.

The fact of the matter, Mr Speaker, is that under a variety of authorities, starting with Erskine May, amendments to bills being put in committee are out of order if they are vague. The same is said in Beauchesne, and I'll quote. Section 698 — and the member for Welland Thorold might want to refer to that section because he quoted earlier from an incorrect section — is about the admissibility of amendments in committee. It says, "(3) An amendment is out of order if it is offered at the wrong place...if it is tendered to the committee in a spirit of mockery or if it is vague...."

Mr Speaker, I would draw your attention to a ruling by Speaker Bosley in the federal Parliament on April 30, 1985, during the processing of C-15. The Speaker was called upon to make a ruling on a number of amendments quite similar to this one. In particular, the Speaker suggested that motions 42 through 49 standing in the name of Mr Axworthy introduced into the bill two definitions which were not in the original bill and were not foreseen when the bill was given second reading. Mr Axworthy argued that "cultural heritage" and "national identity" were not defined in the clause but, notwithstanding that, they were commonly known idioms, speech, and as such, there was no need to put a definition in the bill. Clearly, something like "cultural heritage" means very different things to different people, as would "national identity."

In his ruling, the Speaker disallowed those amendments. He ruled that they were out of order. He ruled that since they were not foreseen when the bill was adopted by the House at second reading, these motions could not be accepted in committee.

In earlier conversations we have had, various challenges, you yourself have said there are only two authorities to which you can refer: Beauchesne and Erskine May. You said Perly's was not an authority. With the greatest of respect, I would suggest that also allows us to infer that the Oxford Dictionary or Webster's or anything else is not an authority to which you could refer.

Let me go further, because this is a very earnest and a very serious challenge. In fact, in the arguments made by members opposite against my original point of order, we had two different members in a row stand up and give two totally different definitions of what their understanding of "residents" was. One member stood up and recited the names of the adults living in certain homes. Another member stood up and cited a definition that said everyone that lives there. Clearly, in the absence of any definition in the original act, in this new bill or, quite frankly, provided for in the amendments themselves, "residents" could mean adults, it could be adults eligible to vote, it could be anyone living there, but more importantly, Mr Speaker, it adds another element of confusion.

As you are well aware, in municipalities the case right now is that to be an elector, and so I make the point that you can't infer that "resident" means "elector," anyone who owns property is eligible to vote and to receive any official notices relating to the sort of regulation that this amendment proposes to communicate. So you don't have to live on a particular street; you need to own property on a particular street. The suggestion here again is that only

some people who currently receive notices, who are currently treated as a group within the context of all municipal correspondence or all correspondence from this government related to property matters and voting matters, will in fact be differentiated. It does not speak to all of those people.

My final point I will leave for your consideration is that in their amendment, they themselves have improperly or perhaps imprudently put in their own qualification, which adds to the confusion. It says "the residents of" — fill in the street — "living in the urban area." Now, Mr Speaker, the only inference is somehow you could have residents who aren't living in the urban area who would not be entitled to receive the correspondence, who would not be allowed to comment. How can you, on the one hand, say you are a resident of a street and still have to define that it is in the urban area, as opposed to saying "any resident"?

The bottom line, Mr Speaker, in all of this is that both the authorities, which you quite correctly told us earlier in these proceedings are the only authorities which can be cited, in both cases make a very clear point. I don't want to belabour the point here now, but I could cite literally another half dozen previous rulings on exactly this point where concepts, where words which were not part of the original bill cannot be introduced at a later stage if there is any vagueness, if there is any confusion.

Mr Speaker, my submission to you is, a word like "resident" is burdened with a variety of possible interpretations. It is vague. It does undermine the specificity that amendments must have when they are brought forward and considered in this House. I would ask you to rule this amendment and any similar amendment out of order for that reason. Thank you.

Mr Hampton: Speaker, the member opposite is trying to create legal confusion which might be of interest to a court. In fact, what he's talking to you about, what he's addressing here is not a point of order; it's a point lawyers might argue about, might argue about in a court of law someday.

Speaker, we might choose here to give the term "resident" a particular definition. We might choose to give it a narrow definition; we might choose to give it a broad definition. Whatever choice we make, it's very likely that someday a lawyer or lawyers may go to court and argue for a host of different meanings for the word "resident." I expect lawyers will do that. That's what lawyers get paid to do, to argue for a narrow interpretation, a broad interpretation. That might happen some day down the line.

The possibility that a lawyer might choose to take that issue to court or any one of 100 other issues to court and argue about the meaning of those words is not, I would submit, the matter for a point of order here. The fact of the matter is the word "resident" has a fairly common and accepted meaning. The fact of the matter is that, as has been pointed out by one of my colleagues, someone could resort to the Oxford Dictionary to discern what that fairly common meaning is.

There's nothing vague about the word "resident." There's absolutely nothing vague about it. The fact of the matter is the meaning of the word "resident" is not vague at all. And the use of the word "resident" in this section of the bill does not lead to vagueness either.

Now I want to take issue with this member's point that amendments can and should be ruled out for vagueness. I don't concede, as I've already argued, that there's any vagueness here. I don't in fact believe that there's any vagueness at all. I think there's a fairly good understanding of this word and a fairly good understanding of what it means in this section of the bill. But if you should find that there is vagueness, I would also point out to you that there is authority in *Beauchesne* that amendments should not be ruled out for vagueness.

So, in my humble opinion, the member is not only wrong in asserting that there's something vague about the word "resident" as employed in this section of the bill, he's also wrong about the precedent. I would refer you to page 175 in *Beauchesne*, section 570: "an amendment cannot be ruled out because of its vagueness." I would point that out to you. I think that is just as sufficient precedent as anything the member opposite may think he has discovered.

0100

Mr Mike Colle (Oakwood): Mr Speaker, just consider one thing. If you were to accept the member from Scarborough East's interpretation of how amendments can be instituted on the vagueness qualifier, this government was arguing that they had the ability to be vague in the argument they had about their amendments on the community councils. They said, basically, we'll set them up in a vague form so a new council can set up whatever they think is appropriate.

Also, another amendment they had in terms of the creation of neighbourhood committees is they are another example that essentially what the government is doing is putting forth somewhat of a vague concept: a neighbourhood committee, to be defined either by regulation or by performance of the act, the carrying out of the act. So if you were to restrict a piece of legislation on the grounds of vagueness, you can see how impossible it would be for any government to pass any detailed type of legislation. I think what really refutes this point of order by the government is their own amendments that they put forth just the other day on community councils, which are purposely vague, and they've admitted that. Even in their own legislation they referred to neighbourhood councils, and nobody really knows exactly what they're going to do. They're going to be defined by the community at large, going to be defined later in the bill.

Mr Phillips: Mr Speaker, I think we have to remember the intent of this motion, and it's under the heading of "public consultation." What are we trying to achieve with the amendment? It's not to limit the public consultation just to the electors or just to those people who may vote in a provincial election but to the residents of an area, and the residents may or may not include electors. I think that the definition "the residents" is exactly what's implied, and that is the people that live there. It's consistent with public consultation. As I say, if the mover of the amendment had wanted to limit it to just people who were eligible to vote, we could have said that. But no, with significant regulations that are going to impact on a neighbourhood, we should not limit ourselves to people being able to comment on them and be aware of them. As it says here, the intent of this is so that those residents will be able to get a copy of the proposed regulations; the intent is to tell the members

of the public where and how to obtain without charge a copy of the act; advise members of the public of their rights under the paragraphs; and advise members of the public where their written submissions and requests for public hearings should be sent.

Mr Speaker, in your ruling I'm sure you'll take into consideration the intent of the motion, which is broad public consultation involving all of the residents of a community. Whether they are or not on the voter's list is in many respects irrelevant to their ability and their right to comment on regulations affecting their neighbourhood. I would find it very strange if we were not able to include in the public consultation process all the residents. Therefore, Mr Speaker, I would respectfully suggest that the motion very much is in order.

Mr Silipo: Speaker, the issue that's before you in terms of whether this amendment should be ruled out of order because it's vague as Mr Gilchrist would argue I think you need to look at in the context of the amendment as it's presented and the approach that's obviously been taken traditionally to this. That is, that it's not your role to determine the legality of terms. That's the role of the courts. It is your role to establish in determining whether this is vague or not, whether it presents a framework, a proposal that on its face makes sense. I suggest to you that the amendment as it is structured, on its face, makes ample sense because you yourself have found it to be in order when it was challenged earlier on the allegation that it was trifling. In fact I think we even heard some arguments at that point from government members that it was vague and I think you dealt in your ruling in part with that, although perhaps not directly on the question of vagueness at that stage. But the amendment as presented sets out a structure, a scheme whereby before regulations under this act are enacted, there has to be a process of notice and a process of consultation with residents of various streets.

The term "residents" is a broadly used term, it's a common term that people understand. There's nothing in precedent or in the rules of this House that every term used in a piece of legislation has to be defined. And when the terms are not defined, again, the courts refer to common usage when they are called upon to interpret. But the question is, if they are called upon to interpret them, it is not the role of the legislation to necessarily define every term, nor is it the role of the Speaker to ensure that every piece of legislation has every term defined. I think it would be really stretching this, Mr Speaker, for you to be asked to find that that would have to happen. To find that this is vague you would have to find at the end of the day that the term "resident" needs to be defined and because it's not defined this is vague. It isn't required that it be defined, it isn't vague, because it's a commonly used term which is another basic reference point in the way that legislation is structured and eventually interpreted when challenged in the courts.

And just to conclude on one point with respect to why the reference to the urban areas, if somehow that makes the point for the member opposite; I'm sure he would have been equally arguing if that wasn't included that a street like Yonge Street for example, which runs inside the urban area as defined in this legislation, and outside, that there might be some confusion if we didn't have the term "in the

urban area" in here. Or, equally a street like Queen Street, which is commonly found not just in Toronto but indeed in a number of municipalities across the province, that somehow that might relate to that. The term "in the urban area" which is defined in this act, clearly confines the application of this particular amendment.

But I just want to conclude by reiterating again the broader point that you cannot find this amendment to be vague because for you to find so you would have to be stretching your role to in effect put yourself in a position of playing a role of a judge, which is not your job.

Mr John O'Toole (Durham East): Mr Speaker, it's my pleasure to get up and support briefly the member from Scarborough East's argument with respect to the term "resident." I'd ask everyone here to think about what that term means. When I looked at the proposed NDP amendments, and I re-read and it said "no regulation that may effect the residents of a particular street," in thinking of it I thought of my days when I lived in Toronto while attending the University of Toronto, and I was a resident; I was a resident of a fraternity or whatever kind of arrangement it was. Think about the term. Is there an age appropriateness to this? Is it all teenagers? Is it boarders within the residence, people residing in campgrounds? You could also go on add nauseam on the thing and I think it is vague enough that it really needs to be completely defined. It's important to recognize that indeed the importance to clearly define in the definitions sections all the words that are specifically directing the ministry or the staff to take certain actions. They have to be defined, as they are in the Planning Act, which you know a lot of this is defined in the Planning Act where people have to be notified of certain changes.

But I suggest respectfully to you, Speaker, that the term "resident" is vague, and in conclusion I would ask every member here and every person watching and listening here today to think about what would be the appropriate age in your mind. Would it be 12 years old or eight years old or six years old? The residents.

I think it's important to dwell on. The "residents" is so broad that it is vague. It needs to be defined, and if it does, then I conclude that the amendment itself is vague enough that it is out of order.

0110

Mrs McLeod: I'll be very brief, but I do feel as though I should rise and make some measure of apology to the member for Scarborough East, because I had suggested earlier that he was looking simply for novel ways of challenging a ruling which you have repeatedly made that the amendments before us are indeed in order, and that, given the lateness of the date and the lateness of the hour, his point of order could hardly be taken seriously. But I accept the fact that he has said to you that it is a serious point of order that he raises.

Given that I believe the member for Scarborough East is parliamentary assistant to the Minister of Municipal Affairs, if that's correct, if he has serious concerns about the definition of "residents" as it applies to the residents of Dalecrest Drive named in this particular amendment, then he would have similar concerns about the definition of "residents" as they apply to the residents of Cafon Court,

who are of course named in the government-approved amendment which will be accompanying this bill.

Since I accept the seriousness of his proposal and therefore of his concern, I would respectfully suggest that the parliamentary assistant seek to withdraw this bill until there can be the clarification that he seeks.

Mr David Tilson (Dufferin-Peel): I'm rising to support the member for Scarborough East with respect to his point of order that this amendment is vague, and he is basing that on authority from the 6th edition of Beauchesne's, page 207, which talks about an amendment being out of order "if it is offered at the wrong place in the bill, if it's tendered to the committee in a spirit of mockery or" — and I think this is the point that he's relying on — "if it is vague or trifling." I think the issue that's he's emphasizing with respect to his submissions to you is that it is vague.

The whole purpose of this amendment, as I understand it, is to give notice to the residents of the various streets in these series of amendments. It's important who one gives notice to, and that is the design of the amendment.

If you look at the different wordings that are used with respect to subsection (4), it talks initially of the residents of the particular street living in the urban area, and that carries on on the first subpoint.

Then in the second subpoint, it refers to members of the public. It doesn't even refer to residents living in the urban area. It says that the following conditions must be satisfied, and the first has to do with residents living in the urban area.

Then it says, "The minister has considered all written submissions made by members of the public." I quite frankly don't know what that means. Does that mean members of the public living on the particular street? Does it mean members of the public in the urban area? Does it mean members of the public living anywhere in the province? It doesn't say that. It simply says "members of the public."

Then in subsection (3) it reverts to yet another description. It talks about "10 or more persons" requesting a public hearing within 30 days. We've now moved to another description. We've moved from residents living in the urban area to members of the public to 10 or more persons.

With due respect to the members of the New Democratic Party who drafted this amendment, it is a very poorly drafted amendment. I would suggest that it is vague. There are other pieces of legislation both in the province and in the federal government that talk very specifically of what a resident is. Why do they do that?

For example, the income tax, who are we going to tax? When do you become a resident to be specifically taxed with respect to living in our country? There's a section in the Income Tax Act that says how long you have to live here to be a resident. There are other sections. To qualify for health coverage, you have to live in the province of Ontario — the health minister's not here — I don't know how many number of days it is, but you have to be a resident in the province for a certain number of days, and if you don't, you don't get health coverage.

There are other qualifications. The Minister of Education is here and we talked earlier of —

Mr Kormos: That is going to help us.

Mr Hampton: Careful, this is not his forte.

The Speaker: Order.

Mr Tilson: We talked about the qualification of a residency for attending certain schools, and that is defined in the Education Act. So every piece of legislation talks about that qualification. This piece of legislation, the amendments that have been put forward by the members of the third party, does not do that. Yes, the member for Durham East is quite correct, there are all kinds of possibilities as to who are residents. He talked about students residing in an area for a particular period of time. He talked about infants. Infants are residents. I know that sounds silly, but —

Ms Lankin: I guess if they ask to appear at the public hearings you would have —

The Speaker: The member for Beaches-Woodbine.

Mr Tilson: The member says, yes, if they ask to appear, but is that the intent? Is everyone from all ages given the right to attend? You haven't said that.

The description as to who are residents clearly is not in this piece of legislation. People from other countries who may be visiting as tourists, may be coming for a short period of time —

Interjection: There you are.

Mr Tilson: The member says, "There you are." But I'll tell you, it's very important as to who qualifies for this specific amendment. I would submit that that has not been done, and I think the members in the New Democratic caucus say, "Well, these are matters for our courts," that these matters should be dealt in a court of law. Surely, when we're creating legislation in this place, we try to be a little bit specific to provide guidance as to who you're going to give notice to, who is a certain individual, who qualifies for this specific piece of legislation. Do we allow everyone around the world to qualify? That's absolutely silly.

There is a certain responsibility on all of us, whatever government it is, in preparing legislation to be very specific as to who we're talking about. This amendment doesn't do that. I submit it is vague, and for the reasons given by the member for Scarborough East, I would submit that it be ruled that all of these and this amendment, the succeeding amendments dealing with the same subsection and the previous amendments dealing with this same section, are all vague and should be struck out as being vague.

The Speaker: Again, I don't want to cut anyone off. Points of order are very important. I will hear them. Again, I've heard a very broad cross-section from each caucus. If you could just be succinct and to the point, I'd greatly appreciate it.

Ms Lankin: Mr Speaker, there are three basic points that I want to address. You've heard the arguments already about the fact that once the legislation is passed there may well be differences of interpretation that are resolved through a legal process. I won't go over that.

I would say what I've heard from a number of members in this debate about whether or not they think the amendment is a good amendment or not, and had there been time for debating those amendments, there may well have been further amendments that come from that, but under the time allocation process, as you know, we were unable to pursue that. Whether or not it is wise to have definitions of many more terms that may be found in this legislation or other

legislation does not make the term vague or does not make that a point of order. It speaks to the appropriateness of the debate and whether members support particular amendments and/or bills that come before the Legislature.

The two main points that I do want to address with you are that the member for Scarborough East himself referred to a ruling in the Parliament of Canada by Speaker Bosley in which Speaker Bosley himself talked about certain terms that have common usage. I would think that "residents" would fall very, very nicely into that description of a term that has common usage. In fact, if you look to a dictionary definition of "resident," it is not a complicated term, it is not one that is open to a lot of interpretation. It's simply in the Oxford Dictionary referred to as "a permanent inhabitant" and it gives examples, "of a town or of a neighbourhood." In this case, we've been actually more specific as opposed to being vague by saying it is a resident of a particular street in the urban area. So we have actually given it greater definition. We're talking about permanent residents on a particular street in the urban area.

The second point I want to raise with you is one of timeliness. I pointed out earlier that the government majority in fact, by not objecting to the term "residents" in an amendment with respect to the residents of Cafon Court, have passed an amendment to this bill already which contains the exact same wording. I believe that is a second argument for you to look at.

0120

Mr John L. Parker (York East): I will endeavour to keep my remarks brief. I just have a few points to make, drawing in some respect on points that have been made already. I think it's important to bear in mind that the term in question, "residents," is pivotal to this entire suggested amendment. It's not an incidental term to the amendment; it is the key term to the thrust of the entire amendment.

If there's any vagueness to that term, then the entire provision falls. If we can't pin down with some certainty, with some clarity what is meant by the term "residents" in this case, then the entire effect of the amendment is of no effect. So it is absolutely certain that we be clear as to what we mean by this term. It is therefore hard to understand why it is not given a definition within the amendment or why a definition of some authority in the act or elsewhere is not referred to. We are left to surmise what is to be understood by the term "residents."

We're told that this is for the courts to decide. An element that is so central to the effect and the meaning of the provision is not something that this Legislature should leave to the courts to decide. The courts look to this House for some guidance as to what is to be meant by the term. The courts must take their guidance from this House, and it is the responsibility of this House to provide that guidance. What we have here is something that entirely fails to provide that guidance.

Apart from the points that have been made already, I note that the term is referred to in the plural in this suggested amendment. We're not clear on how many residents are to be included. Is it all the residents of the street? Is it some of the residents of the street? One thing we do know is that it's not a single resident of the street. If only one resident of the street is affected and the other residents of the street are not affected, then this provision does not

apply, because this provision does not apply to any resident of the street; it applies to residents, plural, of the street.

After having done that, it is then qualified, having opened the category up to residents, there is then a qualifying provision that says "residents...living in the urban area." The point has been made, well, Queen Street, there are Queen Streets in various places around the province. Yonge Street extends beyond the urban area, but the qualifying term "living in the urban area" does not qualify the street; it qualifies residents.

In this particular case, Dalecrest Drive is entirely within the urban area. So the expression "residents of Dalecrest Drive living in the urban area" is either a redundancy or it's a qualifier that confuses the term "residents." Again, I emphasize that the term "residents" is the pivotal term in the entire provision, and for that to be so seriously vague undermines the effect of the entire provision.

The point has also been made that there are terms in the bill that are left for greater definition in due course. The term "community council" was used as an example. It's not the same thing. It is one thing for a bill to use a general term for which greater particularity is to be developed in the fullness of time, either by regulation or, as is suggested in this bill, by the municipal council itself after incorporation in 1998. That is a general term, not a vague term. This is not a general term. This is simply a vague term that we are talking about here, not the same thing at all.

For all of those reasons, and for the other reasons that have been put forward already by my friend from Scarborough East and my friend from Dufferin-Peel, I recommend that you rule in favour of the submission.

Hon John Snobelen (Minister of Education and Training): Mr Speaker, I too would like to stand in support of this point of order from the member for Scarborough East, although I want to point out very clearly to the Chair that I am in no way supporting his choice of shirts this morning.

But I do think this is a serious matter. I think it has been pointed out by the member for Dufferin-Peel that there are a number of interpretations of "resident" in a number of different acts, that there has been a lot of litigation in the past about residency, and there have been a variety of different challenges.

I cannot find the logic in the argument made by some of our colleagues on the other side that somehow this should be left to the direction of the courts. I certainly agree that the courts can make whatever ruling on legislation that they deem, but this amendment does not charge the courts with doing anything.

This amendment is very specific: It charges the minister of the crown responsible to make certain contacts, and it makes those contacts so vague as to leave it unclear whether the minister has kept up with the amendment, has in fact stayed within the limits of the legislation or not. The minister in question can make contact with some of the public and it could be said that he has not upheld this particular amendment. So it is a critical point because a minister of the crown could not know whether he was complying or not complying, and surely that should be contained in the legislation.

Mr Gilchrist: On a final point of order, Mr Speaker.

The Speaker: It may be your final point, member for Scarborough East.

Mr Gilchrist: Just to respond to some of the comments that have been made earlier. I really think what you have heard here is proof positive of the different definitions that people have, the different interpretations that can be made of this. This is not something that is subject to some legal challenge in the future. We are being asked to make a judgement on this right now.

Let me give you just one other ruling. I know it's an awesome responsibility for the table and for the Chair to try and maintain a knowledge of all these previous rulings. You had mentioned precedent — again, in Ottawa in July 1977 the Honourable James Jerome ruled on certain amendments put forward by Mr Mazankowski, which sought to make certain operations of Air Canada subject to public hearings and, again, because the motion introduced elements and terms that were foreign to the original bill, and for only those reasons, the Honourable Mr Jerome ruled that those amendments were out of order.

We have an absolute inability to rationalize what exactly is meant by "residents." Again, the point was made earlier, we can't use dictionaries. We can't use other things. In fact, I find it incredibly interesting that the member opposite read from the Concise Oxford Dictionary, and its definition of "resident" and "residence" is almost completely different. It speaks of just "to dwell in" or "dwelling at a specified place, especially for the performance of duties," so presumably we are residents of this building.

I remember when the squatters took over certain vacant buildings on Toronto Island. Would they have been considered residents to whom legal notice would have had to be sent? Would the residents of a motel and a hotel, the people in there, would they be required — but, again, we have precedent. We have Beauchesne. We have the conversations you have heard in this House in the course of speaking to this point of order.

With the greatest of respect, Mr Speaker, this is an extraordinarily vague word. It introduced a new concept and, therefore, as specified in Beauchesne and Erskine May, is completely out of order.

The Speaker: I appreciate your submissions. If I could just take a 10-minute recess to review and I'll report back.

The House recessed from 0128 to 0145.

The Speaker: I'd like to thank the members again for their submissions. Let me start by saying, and I've said this on a number of occasions in the past: A Speaker cannot rule on a legal issue or potential legal issue; that is, simply put, for the courts to decide. Nor is it for the Speaker to determine the legal meaning of the word "resident," or if there are residents on the street mentioned in the motion.

From a procedural point of view, a committee encounters vagueness when it is presented with a proposition the meaning of which it cannot reasonably determine. I do not believe the motion at hand falls into that category.

The effect and impact of the motion, if it is passed, is, I think, straightforward and easy to determine. It has a link to the framework of the bill and is, therefore, not vague from the view of the ability of the committee to ascertain its essential meaning. It is my view that an informed reader of this motion can reasonably understand what is meant and

what a "resident" is. For these reasons, I find the motion in order and uphold the ruling of the Chair.

House in committee of the whole.

Mr Colle: On a point of order, Mr Chairman: A constituent of mine, Anita Kragnc, is here celebrating her 30th birthday, and she's here on this historic occasion to support the fight.

Mr Garry J. Guzzo (Ottawa-Rideau): She may well be here on her 35th too.

The Acting Chair (Tony Martin): A New Democratic Party motion, subsection 24(4):

"I move that section 24 of the bill be amended by adding the following subsection:

"Public consultation

"(4) Despite subsection (1), no regulation that may affect the residents of Dalecrest Drive living in the urban area shall be made unless the following conditions have first been satisfied:

"1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Dalecrest Drive living in the urban area.

"2. The minister has considered all written submissions made by members of the public that his office received within 30 days after the notice was given.

"3. If 10 or more persons requested a public hearing within 30 days after the notice was given, a public hearing has been held and the minister has considered all oral submissions made at the hearing.

"4. The minister shall give three weeks' notice of a public hearing, in the same manner as the notice under paragraph 1.

"5. The notice under paragraph 1 shall,

"i. include a copy of the proposed regulation,

"ii. tell members of the public where and how to obtain, without charge, a copy of this act together with background material,

"iii. advise members of the public of their rights under paragraphs 2, 3 and 4,

"iv. advise members of the public where their written submissions and requests for a public hearing should be sent."

Shall the motion carry? All those in favour please say "aye." All those opposed please say "nay." In my opinion, the nays have it. The vote is deferred.

Mr Wettlaufer: On a point of order, Mr Chairman: In the many years leading up to my election I always felt that the dignity of this place was something to be respected and preserved forever. Mr Chair, prior to the ruling and during discussion on the last point of order, the member for Welland-Thorold got up and imputed motive to the member for Scarborough East. In addition to that, he said, and I believe I'm quoting word for word, that the member for Scarborough East is very talented in his own mind.

I think this reflects very negatively on the dignity of this place, that one member would say such about another member. You know, Mr Chair, that the member for Welland-Thorold has been called to order a number of times in this legislative day, which is still Wednesday, and I wonder how many times he is going to be called to order before he will finally be named because of the fact that he is calling the dignity of this place into question.

The Second Deputy Chair (Mr Bert Johnson): That is not a point of order, but I see several demonstrations in this chamber. I'll give the members a couple of minutes, if they're close by, to stop them. I'll have the security check the button on the man in the gallery in the second row, left lapel, and if it's fine, it's fine; if it's a political statement, it's not fine.

Mr Phillips: It's a rotary pin.

The Second Deputy Chair: That's good; it's just that I can't see it from down here.

Mr Kormos: I'll give you another minute. There was a ruling earlier that there are no demonstrations in this chamber.

Mr Kormos: Chair, if I may, I watched on television the ruling regarding wearing insignia of a partisan nature or reflected a particular political position and I was very careful, and am very careful, not to do so. I'll be pleased to accept direction from the Chair, and I say that with all due respect. I'm wearing a pin that reflects my moral position and moral beliefs, which has no partisan quality and does not speak to any matter currently before the House.

The Second Deputy Chair: Could you be a little more specific?

Mr Kormos: The button says, "Question authority." I would seek unanimous consent for permission to wear a button that questions authority. Is that appropriate, sir?

The Second Deputy Chair: Is there unanimous consent for him to continue with that? There is not?

Mr Kormos: So the Chair is compelling me to remove this to comply with the orders?

The Second Deputy Chair: Yes, I am. Would you like to challenge that?

Mr Kormos: No, but I'll challenge authority day after day after day, and I'll question it as well. Thank you kindly, Chair.

The Second Deputy Chair: Somehow or other I'm not surprised. Are we ready to proceed?

This is an NDP motion:

"I move that section 24 of the bill be amended by adding the following subsection:

"(4) Despite subsection (1), no regulation that may affect the residents of Daleena Drive living in the urban area shall be made unless the following conditions have first been satisfied:

"The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Daleena Drive living in the urban area.

"The minister has considered all written submissions made by members of the public that his office received within 30 days after the notice was given."

Mr Ted Chudleigh (Halton North): Dispense.

The Second Deputy Chair: Is there unanimous consent? No.

There is not unanimous consent.

"If 10 or more persons requested a public hearing within 30 days after the notice was given, a public hearing" —

Mr Hampton: On a point of order, Mr Chairman: Is there some reason why you're not reading in the numbers? They are a part of the amendment.

The Second Deputy Chair: I'm sorry. The Chair recognizes the member for Rainy River on a point of order.

Mr Hampton: Yes. Is there some reason why you're not reading in the subsection numbers? They are a part of the amendment.

The Second Deputy Chair: Yes. Would you take your seat, please, and I'll explain. That is not a point of order because it has already been ruled on. I'd like to clear it up for you. That was ruled that they were not part, that they could be changed and they weren't. There were two members of your caucus whom I told that I would read as a courtesy to them. The members were from Dovercourt and London Centre. They made their request and I was particularly understanding or something at the time, so I did that as a courtesy to them. With all respect, sometimes I didn't know if they were really following, and in fact now I understand the member for Fort York is doing that following, so we seem to get along well without them. Is that okay? That's my ruling.

Ms Lankin: On a point of order, Mr Chair: Given that you ruled that was not a point of order, I would simply like to give you my request that you please read the number so that I can follow them.

The Second Deputy Chair: Out of courtesy, I do not mind doing that if you're using them. If you're following them, if they have some benefit to you, by all means I will extend that to you.

I left off at the word "hearing" in the third paragraph — "has been held and the minister has considered all oral submissions made at the hearing.

"4. The minister shall give three weeks' notice of a public hearing, in the same manner as the notice under paragraph 1.

"5. The notice under paragraph 1 shall,

"i. include a copy of the proposed regulation,

"ii. tell members of the public where and how to obtain, without charge, a copy of this act together with background material,

"iii. advise members of the public of their rights under paragraphs 2, 3 and 4,

"iv. advise members of the public where their written submissions and requests for a public hearing should be sent."

This is an NDP motion:

"I move that section 24 of the bill be amended by adding the following subsection:

"Public consultation

"(4) Despite subsection (1), no regulation that may affect the residents of Dalehurst Avenue living in the urban area shall be made unless the following conditions have first been satisfied:

"1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Dalehurst Avenue living in the urban area."

Ms Lankin: On a point of order, Mr Chair: Would you please ascertain whether or not there's a quorum.

The Second Deputy Chair: I certainly will. Will the table check if there's a quorum.

Clerk at the Table (Mr Todd Decker): A quorum is not present, Chair.

The Second Deputy Chair ordered the bells rung.

Clerk at the Table: A quorum is now present, Chair.

The Second Deputy Chair: Thank you. We'll proceed.

"2. The minister has considered all written submissions made by members of the public that his office received within 30 days after the notice was given."

Mr Hampton: On a point of order, Chair: A number of the members were not here when you started the reading. They've since joined. They were not here, so I think it would only be fair —

Interjections.

The Second Deputy Chair: It's a point of order. Order.

Mr Hampton: I think it's only fair to begin so they understand the full import of this amendment.

The Second Deputy Chair: That is not a point of order. If that was your wish, you might ask for unanimous consent. But that is not a point of order. Are you challenging the Chair on your point of order?

Mr Hampton: No, Chair, a separate point of order.

The Second Deputy Chair: You're standing up on another point of order?

Mr Hampton: Yes.

The Second Deputy Chair: The Chair recognizes the member for Rainy River on a point of order.

Mr Hampton: My point is this, Chair: When you began to read this amendment there was not a quorum present in the House, and I believe the Clerk recorded that. There now is a quorum —

The Second Deputy Chair: Please take your seat. That is not a point of order. But I might explain it to you that it's not my duty to make sure that there is a quorum. At all times when I'm reading I have to read 249 words in this and 23 numbers. I have to deal with 50 punctuation marks. It's virtually impossible for me to also count the members at the same time as I'm reading to see if one or two go in or out. The way it has always been done, as I understand this House, is that some member if they notice that, they stand up and do it. We check and if it's not right, then I stop. But I don't go back. The real duty here is to read this into the record, not necessarily to make sure that there are at least 129 other people to hear it, that sort of thing.

Mr Phillips: On a point of order, Chair: I notice the clocks say 2:01 here and I do believe the rest of the province is now at 3:01. I'm wondering what your instructions were to the Hansard how this will be recorded.

The Second Deputy Chair: I think that is a point of order and I'm going to do everything I can to correct it, because as I understand it, it's supposed to be 2 o'clock that the clocks are put forward. So I'm going to do mine right now if I can have a moment.

Mrs McLeod: Mr Chairman, it is 2 o'clock on Sunday morning and it's Wednesday in the Legislative Assembly.

The Second Deputy Chair: Just give me minute, I'll deal with the rest of the problems. I want to get my own.

Interjections.

The Second Deputy Chair: Would you please give me a moment. Order.

Interjection: A point of order.

The Second Deputy Chair: No. I'm sorry, I'm on a point of order here. There are certain things I have control of as Second Deputy Chair; there are certain things I don't have. I can correct nearly everything that I have the ability to do, and I'll instruct that all of the other clocks be done. I have already done my own. Is there something else that you would like me to do, because I think that is a point of order.

Mr Phillips: No, Mr Chair. I'm not worried about the clock; I'm just worried about your instructions to Hansard about how this will be recorded. I guess my concern is, I don't want the public thinking that we simply adjourned for an hour there. I'd just like to make sure that you've instructed them to properly record that this wasn't a blank hour in the Legislature but it was the clocks moving ahead.

The Second Deputy Chair: Yes, I understand, and I think that it is a proper —

Interjections.

The Second Deputy Chair: Order. Would the member for Fort York come to order, please.

Mr Marchese: On a point of order, Mr Chair.

The Second Deputy Chair: No, I'm dealing on a point of order and I have another one even before you. I want to finish with this one. I'll do everything I can with it. I see that we have excellent help in this building and they've already corrected that clock. I think they've done the electronic one. Is there anything more I should say into the

record to correct it on Hansard? You're completely satisfied now?

Mr Phillips: Thank you.

Mr Chudleigh: On a point of order, Chair: I'd just like to point out that the hour we've just moved ahead did not cost the Ontario taxpayers \$10,000 as the other hours have.

The Second Deputy Chair: That is not a point of order.

Interjection.

The Second Deputy Chair: Please take your seat. I realize that it is important; you wouldn't be up if it wasn't —

Mr Hampton: Actually it's a point of privilege, Chair.

The Second Deputy Chair: It'll have to wait because I have someone else from your caucus who has already indicated to me that they wanted the floor. The Chair recognizes the member for Fort York on a point of order.

Mr Marchese: Chair, I just wanted to congratulate you for acting so quickly in moving that clock. You did very well.

The Second Deputy Chair: That is not a point of order and I had almost absolutely nothing to do with it. But thanks anyway.

Mr Hampton: On a point of privilege, Chair: The privilege is this: I would not want members of the public to garner the wrong impression from some of the comments that are sometimes made by government members. The fact of the matter is that this assembly has a budget of about \$92 million or \$93 million. The fact is — and this goes to the impression the public creates and it's an impression they would have of all of us — if we sit all night nothing is added to those costs —

Interjections.

The Second Deputy Chair: Order. I want to address my comments to the member for Rainy River. Privilege of course is a very serious thing in this House and we don't either accept it or earn it easily. That is not a point of privilege. That is entering into debate and is out of order.

Hon Mr Snobelen: On a point of privilege, Chair: I want to take this moment, because I've been reflecting on the comments of the members present here, to point out that while there has been some criticism of this particular Chair for speaking faster than the opposition members can think, I want to say that both parties have now congratulated you on temporal matters and I wanted to make that a point of reference.

The Second Deputy Chair: That is not a point of privilege. That is entering into debate and that is out of order. We're ready to proceed.

I left off on paragraph 2, after the period after the last word in the sentence "given."

The Second Deputy Chair: That is a point of order, and yes, there was one member who was tardy. It is not my wish to put anything over on him. He made it in time and I recognized that, and there were five standing to take that.

Mr Shea: Being very clear then, you are saying at least you are being reasonable with what might be interpreted as tardiness.

Mr Shea: May I just repeat that one more time? You are being charitable and reasonable with what might be interpreted as tardiness.

I just want to tell you why I'm watching the clock. I'm not usually a clock watcher, but that clock went awfully fast, if you remember, between 1:10 and 3:10, and my shift is 1:10 to 3:10, so my shift was over 20 minutes ago. The air is dry in here and my throat is getting a little sore, but I thought that rather than wait for the other person we'd just go on. Is that okay?

Mr Marchese: It's perfectly okay.

The Second Deputy Chair: I'll go on as long as I can, but I run out of steam every once in a while.

This is an NDP motion:

"I move that section 24 of the bill be amended by adding the following subsection" —

Mr Ron Johnson (Brantford): Dispense.

The Second Deputy Chair: Is there unanimous consent to dispense? No. There's not unanimous consent. I think it's unparliamentary for a person to ask to dispense while not being in their proper place. I'll check if you want me to.

I'm advised that it's the same as a voice vote, that it's not a violation, but I'm frowning on it. I'd just like to warn the member that we're trying to conduct things here as well as we can in a very parliamentary manner. I'm doing the best I can and I ask that everybody do the same, as long as we're trying to do the same thing.

The First Deputy Chair (Ms Marilyn Churley): Good morning.

NDP motion, subsection 24(4).

Mr Ron Johnson: Dispense.

The First Deputy Chair: Dispense?

Ms Lankin: Point of order, Madam Chair: Each Chair will have to rule on this, but the previous Chair who just vacated the chair ruled on the practice of members who were not in their seats calling “dispense,” and I just point out to you that this is what happened. You may rule differently, but that is the ruling we just got.

The First Deputy Chair: Did he rule that it was in order?

Ms Lankin: He’s sitting there beside you.

The First Deputy Chair: Good point. Generally when people are addressing the Chair and they’re on their feet, under the rules they must be in their seats. We discussed this last night. However, on the voice vote, and I would consider this the same, I am not disturbed by it. So there you go — inconsistency.

NDP motion —

Mr Ron Johnson: Dispense.

Ms Lankin: Madam Chair, on a point of order: We’ve had a number of discussions in the chambers with respect to points of order on vagueness. As you know, it’s been raised by the member for Scarborough East on a number of occasions with respect to amendments. I just want to point out the dictionary definition of the word “dispense.” It could be either to “distribute; deal out...or administer” or it could be to “grant a dispensation...from an obligation...” or “give exemption from (a rule).” I just say to the member that he is being very vague in his language.

The First Deputy Chair: A number of government members have already helped tell me that that is not a point of order, but thank you for your definition anyway.

Interjections.

The First Deputy Chair: Member for Beaches-Woodbine, are you provoking the member for Brantford again?

Mr Ron Johnson: Yes, absolutely. It's terrible. I can't stand it. I'm going to leave.

The First Deputy Chair: "5. The notice under paragraph 1 shall,

"i. include a copy of the proposed regulation,

"ii. tell members of the public where and how to obtain, without charge, a copy of this act together with background material,

"iii. advise members of the public of their rights under paragraphs 2, 3 and 4,

"iv. advise members of the public where their written submissions and requests for a public hearing should be sent."

Shall the motion carry? All those in favour of the motion please say "aye." Those opposed please say "nay." In my opinion, the nays have it. Deferred vote.

Mr Colle: On a point of order, Madam Chair: I know the member for Brantford keeps on talking about the cost of democracy, but I notice he's quoted in his own Expositor, talking about "Let's vote on the casino," says MPP." He says, "I think it's an important enough issue that perhaps a referendum is necessary."

The First Deputy Chair: I don't think this is a point of order, member for Oakwood.

Mr Colle: He said the public should be —

The First Deputy Chair: Member for Oakwood, you don't have a point of order. It may be important information, but it is out of order.

Ms Lankin: On a point of order, Madam Chair: I need a ruling from you. The government actually doesn't have a quorum of awake members right now. Does that count?

The First Deputy Chair: Thank you. It is not my job to ascertain whether members of the Legislature are awake, asleep or alive or dead. I have to make sure that there are 20 bodies in this House and that is my job. So you are not calling quorum. You perhaps should not provoke me any more. I'm coming very close to being out of order myself, I believe.

Hon Mr Snobelen: On a point of order, Chair: If I could speak to that point of order —

The First Deputy Chair: I ruled it out of order.

Hon Mr Snobelen: I think the test is if you can fog a mirror, you're still alive.

The First Deputy Chair: Let's get dignified here again. After all, we do have members of the public sitting in the gallery watching, and I'm sure there are hundreds of people watching on TV. We must maintain the dignity of the chamber, so let's get back to our important amendments here.

Mr Ron Johnson: Pay Hoy just spent a thousand bucks.

Mr Pat Hoy (Essex-Kent): On a point of order, Madam Chair: I believe it's correct in this House to refer to members by their riding and not by their name.

The First Deputy Chair: Absolutely.

Mr Hoy: The member opposite has not been doing that.

The First Deputy Chair: That is a point of order. It gives me an opportunity to remind all members, and you already know this, that you should refer to each other by your riding.

Mr Ron Johnson: Essex-Kent, a thousand bucks. Keep spending it.

The First Deputy Chair: This is very repetitious.

Mr Ron Johnson: You got that right.

The First Deputy Chair: Well, this is within the rules, and you are out of your seat. I'm not talking about "Dispense"; I'm talking about, after every vote, you yell across the floor each and every time. I'm going to ask you to contain yourself. Thank you.

Mr Ron Johnson: Essex-Kent, a thousand bucks.

The First Deputy Chair: Member for Brantford, I am now going to ask you to please return to your own seat. Thank you.

Mr Phillips: On a point of order, Madam Chair: We are all trying to deal with these amendments. Mr Ron Johnson of Brantford is out of control, and I have no idea why, but I would really urge you to try and get him in some semblance of control. I don't think the people of Brantford appreciate his misbehaviour here.

Mr Ron Johnson: Point of order on the same point, Madam Chair: What I am saying, you'll notice, after each individual amendment is I'm indicating that \$1000 is being spent by the Liberal member and by his colleagues in the New Democratic Party.

The First Deputy Chair: As I have said previously, all members — or I should say almost all, if not all, members — in this House indulge in heckling, sometimes very loud. I am fairly tolerant. I am not at all talking about the context; heckling is out of order, period. The context, in my view, from my position in my job, is not the issue unless you insult somebody. But, member for Brantford, when you are as repetitive as you are after each and every vote, it cannot be tolerated.

I would ask you to please contain yourselves and let's get back to the amendments at hand.

NDP motion, subsection 24(4):

Mr Ron Johnson: On a point of order, Madam Chair: The member for Essex-Kent just spent \$1,000.

The First Deputy Chair: That is not a point of order.

Mr Phillips: Madam Chair, I must —

The First Deputy Chair: Please take your seat. Member for Scarborough-Agincourt, if it's okay with you, I'm going to read to the member instead of coming to your point of order. You did have the floor, if you want to.

Mr Phillips: Just that I'm interested in the decorum in the House. For whatever reason, the member for Brantford is out of control and I just think it's important that you get him in control.

The First Deputy Chair: I have the standing order here and I'm going to read it specifically in relation to the member for Brantford. This will apply to anybody in the House when things get out of control. I'm going to read some of the sections to you. This is standing order 15(a):

"If a member on being called to order for an offence against any standing order persists in the offence, the Speaker may direct the member to discontinue his or her speech, and if such member refuses to resume his or her seat, the Speaker shall name the member to the House."

The next thing I am going to read to you is (b):

"When a member is named by the Speaker, if the offence is a minor one, the Speaker may order the member to withdraw for the balance of the sessional day; but if the matter appears to the Speaker to be of a more serious nature, the Speaker shall put the question on motion being made, no amendment, adjournment or debate being allowed, 'that such member be suspended from the service of the House', such suspension being for any time stated in the motion not exceeding 14 calendar days."

Now (c), and very importantly:

"When a member has been named by the Chair when the House is meeting in committee, the Chair shall forthwith suspend the proceedings of the committee and report the circumstances to the House and the Speaker shall then proceed as in clause (b), as if the offence had been committed in the House itself."

I've read this because, member for Brantford, as I said earlier, I think I and the other two Chairs have been very tolerant around heckling. I will continue to be so. Although it's out of order, it is the standard practice of this House. However, member for Brantford, you have crossed the line. I'm not going to name you at this point but I want you to be aware that this is something I really do not wish to do but at a certain point I will have no alternative.

Mr Ron Johnson: On a point of personal privilege, Madam Chair: Is in fact asking for a dispense inappropriate?

The First Deputy Chair: No, that is well within the rule. Thank you.

Mrs Boyd: On a point of order, Madam Chair: It's 10 after 5 in the morning and it is already very warm in this chamber. I understand that the temperature is supposed to be about 19 degrees today. It's supposed to be a very warm day.

Mr Tilson: Is it going to rain?

Mrs Boyd: I don't know about that, but I wonder if we could do anything about getting air conditioning working in this building under these circumstances.

The First Deputy Chair: Thank you for that point of order. I will ask. I'm sure that it will be looked into.

Mr Wettlaufer: Anybody who knows anything about the heating system of old buildings like this should know that it takes a great deal of energy and a great deal of cost to turn the heat up and down, especially in the spring and the fall of the year. With the cold spell that is coming on in the next couple of days, I would say that it would be a waste of time and waste of money to do this, to turn the air conditioning on, and I think the people should grin and bear it.

Mr Len Wood: You're out of shape.

Mr Wettlaufer: Unfortunately, the member for Cochrane North doesn't understand the simple heat.

The First Deputy Chair: Thank you for that point of order. It is my understanding from talking to the Clerk that although the member for London Centre used the term "air conditioner," what they are doing in fact is opening and closing windows: the air conditioner. So as to your concerns about that, you can rest assured that is not what's happening.

By the way, it wasn't a point of order, but I'm glad that it was pointed out because it was getting very warm.

See you in a few hours, have fun.

The Acting Chair (Mr Michael Brown): I have an NDP motion:

"I move that section 24 of the bill be amended by adding the following subsection:

Mr Phillips: Point of order, Mr Chair: You just joined the Chair. For whatever reason Mr Ron Johnson, the member for Brantford, has been out of control for the night. The previous Chair warned that she would name him and expel him from the House. Now he's running around the House. The public can't see him now that he's moved to another chair. I just urge you to get him under control.

I think the public expects some decorum in the House. We're dealing with a serious matter, and the previous Chair deliberately and carefully warned the member to get himself under control. I would just urge you to act quickly to save the embarrassment to the House. I suspect he'll get up slightly out of control again.

The Acting Chair: As members know, all members must act in accordance with the standing orders.

Mr Ron Johnson: On the same point of order, Mr Chair: I'm merely indicating to the public and to the House that the Liberal Party is spending \$1,000 per amendment.

The Acting Chair: That's not a point of order.

Mr Phillips: Point of order, Mr Chair: The member for Brantford makes my point. He has no facts, he's in error and he is embarrassing himself and the House.

The Acting Chair: That's not a point of order either. Thank you.

Mr Parker: Point of order, Mr Chair: We've been at this charade for four days now and the Liberal Party has failed to make a contribution of any substance whatsoever in connection with this bill or this procedure.

The Acting Chair: That is not a point of order.

Hon Mr Snobelen: On a point of privilege, Mr Chair: If I could, a little while ago I rose in the committee and suggested that the Chair at the time had been accused by members of both opposition parties of speaking faster than they could think. It's been pointed out to me that that might have been an inference that somehow the thinking would be too slow by the opposition and that's not, of course, what I wanted to infer. I wanted to infer that the Chair was speaking faster than they could listen.

Some of my colleagues have pointed out that that whole statement presupposes that there is thought actually happening and that that might be inaccurate at any point in this chamber. So I'd like to make that very clear on the record today.

The Acting Chair: Thank you. That's not a point of privilege.

An NDP motion, subsection 24(4):

Mrs Boyd: Just one smart-ass remark after another.

Hon William Saunderson (Minister of Economic Development, Trade and Tourism): On a point of order, Mr Chair: The lady, the member for London, might want to withdraw her last remark about a "smart" something. It's not becoming to what's going on in the chamber.

Mrs Boyd: On a point of privilege, Mr Chair: I am a member; I am not whatever my gender — a lady in this chamber, and it is not appropriate for the minister to be responding and naming people by a gender-related term. We are all equal in this chamber, if nowhere else. I would ask him to withdraw that. I am happy to withdraw my remark.

Hon Mr Saunderson: If my remark offends you I will withdraw it.

The Acting Chair: Thank you.

"I move that section 24 of the bill be amended by adding the following subsection — "

Mr Wettlaufer: On a point of order, Mr Chair: I just want to add to what the Minister of Economic Development, Trade and Tourism said. I'm sure he meant nothing when he referred to the member for London as a lady.

The Acting Chair: The member has withdrawn it.

Mr Parker: Point of order, Mr Chair: You were dealing with Davis Drive in the urban area. There is no Davis Drive in the urban area. The only Davis Drive in Ontario is in Newmarket. What does that have to do with Bill 103? I'm

wondering why the NDP didn't withdraw this amendment as it's so clearly out of order.

The Acting Chair: The amendment is in order.

Is it the pleasure of the committee that the motion carry? All those in favour will say "aye." All those opposed will say "nay." In my opinion, the nays have it. The vote will be deferred.

Mr Wettlaufer: On a point of order, Mr Chair: The member for York East brought up on a point of order a street that is not in Toronto. I would like to know if we have certified that all the streets that have been mentioned in these amendments are actually located in Toronto. If they are not, then what was to prevent the third party from presenting in their amendments streets in the city Kitchener and naming them as Toronto? I think it's very important because it is frivolous if these streets are not located in the city of Toronto.

The Acting Chair: The Chair has ruled on this point of order on a number of occasions that it is in order.

Mr Wettlaufer: Mr Chair, not all the streets are in Toronto. Some of them are in Etobicoke, North York, Scarborough —

The Acting Chair: Thank you for your assistance.

I have an NDP motion —

Mr Wettlaufer: Point of order, Mr Chair: I'd like clarification, and if I can't have the clarification from you, I would like to appeal.

The Acting Chair: Are you challenging the Chair? The member for Kitchener, could you help me. Are you challenging the ruling?

Mr Wettlaufer: Yes, I am challenging the ruling.

The committee rose and requested a ruling of the Speaker.

1606

The Acting Chair: Mr Speaker, the ruling of the Chair has been appealed by the member for Kitchener.

The Speaker: Thank you. The member for Kitchener.

Mr Wettlaufer: Mr Speaker, earlier this evening in one of your rulings you referred to common knowledge as being justification for ruling in the manner you did. I'm aware that you also ruled earlier on this legislative day about another street, but that was another amendment. This is a different amendment.

It's common knowledge that Davis Drive is located in Newmarket and is not located within the boundaries of Metropolitan Toronto, the boundaries which were used in Bill 103. This, to me, indicates that there are other streets which have been used in amendments which would indicate that we have frivolous action, perhaps vexatious action, on the part of the third party in its amendments. Without proof that these streets referred to in these amendments are located within the boundaries of Metropolitan Toronto, they could have also taken streets from Kitchener, Waterloo, Ottawa or any other city in this province and included them in these amendments. Mr Speaker, I submit to you that this amendment is out of order.

Mr Wildman: I won't prolong this, and I apologize for your being brought in here at this hour. You ruled earlier. With regard to the possibility of us having brought forward in a vexatious manner streets from other communities to be included among these amendments, I would just indicate to you that we are all honourable members in this House.

The Speaker: I've ruled on this before. Your amendment is still in order.

House in committee of the whole.

Mr Wettlaufer: On a point of order, Mr Chair: The Speaker has indicated that he has ruled on this before. I would suggest that every amendment and every vote is different. If the Speaker is using this ruling to apply to every amendment —

Interjection: Are you challenging the Speaker?

Mr Wettlaufer: No, I'm saying that if the ruling —

The Chair (Mr Gilles E. Morin): Order, please.

Mr Wettlaufer: I'm not challenging —

The Chair: No, no. Just take your seat, just for one second. Are you debating the Speaker's ruling?

Mr Wettlaufer: I'm requesting something.

The Chair: No, no. If you are debating the Speaker's ruling, it's a no, no.

Mr Wettlaufer: I'm requesting something from the Speaker's ruling.

The Chair: I'll listen to you again.

Mr Wettlaufer: If the Speaker has ruled that his ruling applies to all amendments, then I request that we have one vote to apply to all amendments.

The Chair: It was quite obvious that the Speaker made a ruling previously and made a ruling on this last amendment and that was it. I will continue on, and if you find

again that there is something that you reject, then you can always appeal my ruling to the Speaker.

Hon Al Leach (Minister of Municipal Affairs and Housing): On a point of order, Mr Chair: There were only four members in their seats on that last.

The Acting Chair: Did a fifth one not make it up?

Hon Mr Leach: He wasn't in his seat, Mr Chair.

The Acting Chair: Were you not in your seat?

Hon Mr Leach: He was not in his seat. Standing order 28(a). He was not in his seat.

Mr Mario Sergio (Yorkview): Do you want to play games? I was here.

The Acting Chair: That's close enough. That's satisfactory. I accept his position.

"1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Dunblaine Avenue living in the urban area." —

Hon Mr Leach: On a point of order, Mr Chair: I have to challenge your ruling on that because the member was obviously not in his seat.

The Acting Chair: I was trusting that he's an honourable member and would state to me where he was standing.

Hon Mr Leach: So are the three people who said no the last time.

The Acting Chair: You are challenging the Chair?

Hon Mr Leach: Yes.

The Acting Chair: Thank you very much.

The committee rose and requested a ruling of the Speaker.

0925

The Speaker (Hon Chris Stockwell): Minister of Municipal Affairs.

Hon Mr Leach: Mr Speaker, when the opposition members stood to defer the vote on Dunbar Road, there were only four members standing in their place. They were the member for Windsor-Walkerville, the member for Lawrence, the member for Lake Nipigon and the member for London Centre. There were no other opposition members standing in their place, and in accordance with 28(a), "When a voice vote has been taken on any question, a division may be required by five members standing in their places." That was observed by many members on this side of the House.

The Speaker: The member for Lawrence.

Mr Joseph Cordiano (Lawrence): My recollection is that the member for Yorkview was standing in the general

vicinity of his place. From the corner of my eye, I could see that —

Interjections.

Mr Cordiano: That's right.

The Speaker: Order, please. I heard the Minister of Municipal Affairs and I'd like to hear the member for Lawrence.

Mr Cordiano: As incredible as it may seem, the member was standing in the vicinity of the fourth row, near his seat. Now, I suppose one could —

The Speaker: Member for Nepean, if you could go back to your seat it would be very, very helpful, as well as the rest of the members who aren't in their seats. Thank you.

Mr Cordiano: I make this point, Mr Speaker: The member was not sitting in his seat, but then of course we're talking about the requirement to be standing; we're not talking about a requirement to be seated in his seat. So he was standing in the general vicinity of his seat, and I think that's the point to be made here. That's the requirement, that the member be standing, and as it was, he was standing.

The Speaker: The member for Lake Nipigon.

Mr Gilles Pouliot (Lake Nipigon): Good morning, Mr Speaker. I personally see no need to disturb the highest authority in the House on such a bagatelle, on such a trivia.

Directly to the point of order, the member was standing proud at his post on this motion, like he did on dozens of previous amendment motions.

Mr Sergio: Mr Speaker, I was watching carefully the Chair reading the final words of the motion, and he was about to call for the vote. I was about to step out and I was just about here. When I heard him calling the vote, I stopped right here. All right? That's what it was.

Mr Gravelle: Mr Speaker, I think what's also very important here is that the Chair — the member for Northumberland — counted five and announced that the vote would be deferred. I think out of respect for his — he certainly should be trusted to do the head count. He did the head count. He counted five and announced that the vote was deferred. He obviously considered the member for Yorkview to be in his place. So it seems to me that this is a somewhat frivolous gesture here to bring you out for this when it's very clear that their own member —

Interjections.

The Speaker: Chief government whip, I would ask you to withdraw that statement. I find it very offensive.

Mr David Turnbull (York Mills): I'm not in my seat.

The Speaker: I am giving you one chance to withdraw that comment. I suggest you go back to your seat and withdraw it. One chance.

Mr David Turnbull (York Mills): I withdraw it.

The Speaker: Chief government whip, you either go back to your seat and withdraw that comment or I will name you.

Mr David Turnbull (York Mills): I withdraw it, Mr Speaker.

The Speaker: I have heard the submissions. I thank the members for their submissions. I heard the report from the committee Chair and I support the committee Chair's ruling.

House in committee of the whole.

The First Deputy Chair (Ms Marilyn Churley): Member for London Centre.

Mrs Boyd: On a point of order, Madam Chair: Before the previous Chair leaves the House, I'd like to express our appreciation for the clarity and speed with which he went through a very great number of motions. Thank you.

Mrs Margaret Marland (Mississauga South): Point of order, Madam Chair: The Speaker just said that he was confirming the ruling of the Chair. Would you confirm for us what that ruling was, because it isn't clear?

The First Deputy Chair: Obviously, I was not the Chair in this chair at the time. If you'll give me a moment, I'd be happy to.

The ruling of the Speaker —

Mrs Marland: Of the Chair.

The First Deputy Chair: — was that Mr Sergio was in his place at the time of the voice vote for the deferred vote.

NDP motion:

"I move that section 24 of the bill be amended by adding the following subsection:

The First Deputy Chair: Order, please.

“iii. advise members of the public of their rights under paragraphs 2, 3 and 4,

“iv. advise members of the public where their written submissions and requests for a public hearing should be sent.”

Shall the motion carry? All those in favour please say “aye.” Those opposed please say “nay.” In my opinion, the nays have it. The vote will be deferred.

Mr Dwight Duncan (Windsor-Walkerville): On a point of order, Madam Chair: Mr Newman from Scarborough has been making sheep noises all morning from a place other than his seat. We have had calls now. Our office has had calls from Scarborough, from Sudbury and from Ottawa with respect to that noise. My understanding of the standing rules is that this kind of noise is not permitted even though it may be a sign of his own loneliness, but I would suggest that if he's going to heckle, he

ought to be in his own seat and the Chair ought to enforce those rules.

Interjections.

The First Deputy Chair: Order. I am not accepting any more points until it's quiet.

Mr John R. Baird (Nepean): On a point of order, Madam Chair: I would like to make reference to my colleague the member for Scarborough Centre, who has been here just about 24 hours a day, working hard. What he is doing is pointing to the fact that the NDP are calling the shots over the Liberals in this House, and that accounts for his noises.

The First Deputy Chair: Okay. I don't need an explanation for what any of the noises are about.

Mr Pouliot: On a point of order, Madam Chair: Directly to this point of order, we shouldn't be too harsh on Mr Newman; Mr Newman is just being Mr Newman.

Interjections.

The First Deputy Chair: Order, please. I would like to take this opportunity to tell all members of the House that the decorum of the place, in my view, from watching a little on TV over the course of the evening and now coming into the chamber, is getting a little bit out of hand. I know people are probably a little bit tired. Would I be right in suggesting that people are a little tired? I am speaking for myself too.

Mr Terence H. Young (Halton Centre): We are not tired.

The First Deputy Chair: Okay, if you're not tired, there must be some other reason. If you're not tired, there is no excuse whatsoever for this kind of behaviour. I would ask, therefore, that people try to maintain decorum in this place and try to keep any rude noises under control, keep yourselves under control, and I would ask that the heckling be kept under control. Thank you very much. We'll now proceed.

Interjection: Good ruling, Chair.

The First Deputy Chair: Okay. Thank you all for your feedback on my ruling and for obeying me instantly on my request for people not to heckle.

Mrs Boyd: On a point of order, Madam Speaker: The next one is spelled differently but seems to be the same street that we just passed. Dune Grassway is put together rather than separately, so I'm withdrawing that one.

The First Deputy Chair: Okay, we'll withdraw that one.

Mr Baird: On a point of order, Madam Chair: And this is a genuine point of order.

The First Deputy Chair: I don't know if there is such a thing, but go ahead.

Mr Baird: Would it be possible to have a team from the clerks branch and one of your colleagues, a fellow deputy or the Second Deputy Chair, go through these amendments? What we're seeing time and time again are amendments with incredible spelling errors, amendments with serious amendments, amendments with blank spaces there. Clearly these amendments, which under the time allocation motion had to be submitted to the Chair by 2 o'clock on Wednesday that were being put are not in order. I understand normally in committee the committee Chair, together with the advice of the clerk, would consider the amendments and then just rule large numbers of them out of order. What we're seeing is every second or third amendment they've made a mistake; they have not done their homework.

The First Deputy Chair: Because of the one-hour time allocation on passing these amendments, you will recall that the rest of the amendments which were not dealt with during that one hour were deemed to have been moved. Therefore, nobody but the mover of the amendment, because they had been deemed to be moved, can withdraw those amendments. I thank you for your suggestion, but under our rules that cannot be done.

Mr Baird: Can I ask who the mover of the amendments is, which member?

The First Deputy Chair: It's not an individual. These are NDP amendments. As you know, all parties, in this case NDP, Liberal and Tories, present amendments, but there's

no particular person within those parties who make the amendments. So there can't be a person I can designate.

Hon Chris Hodgson (Minister of Natural Resources, Northern Development and Mines): Point of order: In a similar vein, Madam Chair, it's my understanding that with unanimous consent the committee of the whole could agree to a process in the interests of time, which has been stated for part of the reason why they withdraw a number of these amendments, that the NDP caucus could sit down with the Clerk's table and withdraw ahead of time a number of these amendments that have been mistakenly admitted.

Interjections.

The First Deputy Chair: Order, please. We can do practically anything in this House with unanimous consent —

Interjection: We have.

The First Deputy Chair: — and yes, you're quite right; that's almost true. Is there unanimous consent? No, there's not unanimous consent.

Interjections.

The First Deputy Chair: Order, please.

Mr Pouliot: Spend, spend, spend. The debt goes up —

The First Deputy Chair: Member for Lake Nipigon, order, please.

Mr Pouliot: They give a tax cut instead of paying the debt.

Mr Baird: Point of order.

The First Deputy Chair: Do you have something new to add?

Mr Baird: Yes. I was wondering, is it in order for a political party to move an amendment? Does not the nature of an amendment require that a member of this Legislative Assembly put the amendment? Can a group put the amendment, or does it not have to be a member to put the amendment? If it was a member, is that member not required to be here when that amendment is put?

The First Deputy Chair: Member for Nepean, let me be clear again. These amendments had to be filed with the Clerk by 2 o'clock on whatever day that was.

Mr Cordiano: Wednesday last.

The First Deputy Chair: Wednesday last. Therefore, any amendments that are deemed to have been moved, obviously they were filed with the Clerk but not moved by a specific person, so no, they have been deemed to be moved after being brought on time to the Clerk's office.

Mr Baird: Could I ask an interpretation? I appreciate your ruling and I don't challenge it. Who are they filed by? Who is eligible to file an amendment?

The First Deputy Chair: I can tell you that I was one of the people who filed these, as well as the leader of our party and several other members of the NDP caucus who all brought, you will recall, the boxes which were carted down to the Clerk's office. Those amendments at that time by several of us were brought and filed with the Clerk.

Okay, are we ready to go?

1010

Mr Sergio: Point of order, Madam Chair: For the sake of just adding to what the member for Nepean has said, we had a ruling from the Speaker yesterday that if they still continue to have any problem, especially with the way the amendments were introduced, they should have said so

when the amendments were introduced, not in the middle as we deal with them.

On the other matter: We just couldn't deal with the amendments of the third party, that perhaps they should sit down at the table and do away with a number of the amendments, because you, Chair, deal with each amendment as they come by and we wouldn't know in advance which one to pull or not to pull.

The First Deputy Chair: Thank you for adding to the point of order.

Mr Christopherson: On a point of order, Chair: I would just point out that given that the member for Nepean did not raise anything specific about these amendments but rather the overall usual business of committee of the whole, that if after almost two years he's still not familiar with those basic rules, I'm sure the table would be prepared to provide him with some classes to assist him.

Interjection: They keep them in the dark.

The First Deputy Chair: Let's calm down here. I've already ruled on this and I think it's pretty clear now, member for Nepean, that we will proceed under the rules with these amendments.

You're through with your point of order, aren't you? Yes.

Mr Sergio: I'm tired sitting down, so you don't mind if I stand up, do you?

The First Deputy Chair: You don't have the floor, then. You don't have the floor, you're not rising on a point of order and I can hear you loud and clear.

Mr Sergio: Thank you.

The First Deputy Chair: NDP motion, subsection 24(4).

Mr Cordiano: Don't you have any cabinet documents to read?

The First Deputy Chair: Member for Lawrence.

Interjection: Four up.

The First Deputy Chair: Sorry, the motion lost.

Interjection: What?

The First Deputy Chair: The vote lost.

Interjection: You guys didn't get up.

The First Deputy Chair: Sorry about that. It's a deferred vote. I was right.

Interjection: The motion lost.

The First Deputy Chair: Order, please.

1040

Mr Cordiano: Point of order: Can we get clarification on that?

The First Deputy Chair: Certainly.

Interjections.

The Deputy Speaker: Order. I saw four people and what happened is that you stood in sections, frankly. You stood up, sat down, and then you stood up. At no time were there four people at the same time on their feet and I'm afraid to say that you can't do it in sections. Okay, thank you. So the vote has lost.

Mrs Marland: Madam Chair, on the same point: I think it's interesting, and I'd like your ruling on this, that the member for Lawrence would want clarification on the vote because when his member was in the chair and there was a snap “carried” announced and we lost, the request wasn't for clarification, it was for time to vote. So it's rather significant that the question is raised by the Liberal Party.

The First Deputy Chair: Member for Mississauga South, to all members, the vote has been called. I saw four members up and that's all I am dealing with here. That is not a point of order.

Mrs Boyd: Madam Chair, I have a point of order: I'm curious as to who the new member of the Legislature is.

The First Deputy Chair: Are you suggesting there's a stranger in the ranks?

Mrs Boyd: Not exactly a stranger, but sitting in a member's chair. Thank you.

The First Deputy Chair: Okay, thanks.

The First Deputy Chair: It is, it's James, and of course, we're not allowed —

Hon Noble Villeneuve (Minister of Agriculture, Food and Rural Affairs, minister responsible for francophone affairs): Madam Chair, on a point of order: Earlier, about an hour ago, there was a discussion about the filing of all of these amendments. I can recall well having been in your position in the last Parliament, and it was always a joy to deal with colleagues. Of course, impartiality is of utmost importance. At that point, I believe you mentioned that you had filed some of these amendments, along with your party leader. I have a little difficulty when the person in the chair refers to their party leader while in the chair. I’m simply asking possibly some clarification, because if indeed you, Madam Chair, as a member of the NDP, filed some of these amendments, I think it would be out of order for you to be in the chair when these amendments are being tabled.

I simply ask for some clarification, because we do not have at this particular time Instant Hansard. I was under the impression that the House was sitting with all of the attributes that we normally have. I understand that the Instant Hansard has not been available since Thursday. It will be printed for historical and other purposes later. However, I’m simply at a loss here when the Chair refers to her party and her party leader while in the chair and then we are moving some of the documents that apparently were filed by yourself.

Mr Sergio: On the same point of order, Madam Chair: We have said before that the Speaker has rendered his decision already and has said that if you have a problem with the way the amendments have been introduced, you should have said so at the beginning, when the amendments were introduced. Therefore, to come back time and time again, if any member of the House had any problem with any of the amendments, they should have said so when the amendments were introduced and not in the middle of the presentation of the amendments.

Mr Bud Wildman (Algoma): Point of order, Madam Chair: I think all of us recognize that this is an extraordinary situation and that all of us are tired, particularly those who have been serving in the chair, and that on occasion some may make a slip. I would hope that all of us could take that into account.

Having said that, in terms of what the member for the united counties and East Grenville said about Instant Hansard, I was unaware that Instant Hansard wasn't available but I suspect it may be because of the complaints that certain Conservative members have raised about the cost of keeping this place in operation. I guess they've decided not to continue running the place the way it normally would.

Hon Mr Villeneuve: Point of order, Madam Chair: I understand my colleague from Yorkview, but this is something that has just come upon reflection of some of your statements during the last hour and with all due respect I would ask your ruling. There may be a further request for clarification.

Mr Baird: Madam Chair, I'd like to speak to that same point. I would at the outset say to you, Madam Chair, I know you to be an honourable person and I think it's important in the political process to be honest about that. I brought up a point of order and I requested to ask who the amendments were made by. You correctly pointed out, and I accept that ruling, that the amendments were deemed to have been made under the terms of the time allocation motion. They had to be filed with the Clerk by 2 o'clock on Wednesday, and all such amendments were, as you've ruled, deemed to be have been made by the terms of the motion that was passed by this House.

1110

Under the terms and conditions of that motion, they were deemed to have been made by the person who filed them. Obviously, groups can't file them; they have to be filed by particular members. Staff can't move amendments; constituents, other non-parliamentary players can't move. They have to be moved by members of this place.

Instant Hansard is unavailable but I did consult the video Hansard record and I checked that. I asked you at 1005, "Could I ask who the mover of these amendments was?" You made the explanation which I've just outlined. Then, at 1007, I asked you, "Who are they filed by?" Because the person who filed them is deemed to be said. Your direct quote was, at 1008, "I can tell you that I was one of the people who filed them, as well as the leader of our party, as well as several other NDP members of the caucus."

I would ask that if those amendments were filed by someone who knew they would be in the chair, are they eligible for consideration, and are the ones we've considered in this place since Wednesday at 7 pm eligible for

consideration? I would request your honest view on that, Madam Chair.

The First Deputy Chair: Thank you for your points of order. I'm going to confer with the table officers, but before I do that I would say that although there isn't Instant Hansard available, member for Nepean, if you say that you have seen it in the video, then I accept your word that that's what I said. If I did say that, you are quite right, it is inappropriate when we are in this chair to in any way be partisan. If I did say "our leader," then of course it was inappropriate. I should have said "the NDP leader." There is no question on that. That is on the first point. I'm not quite sure what you are asking that you want me to do about that. I can apologize for the slip. That's the first point.

The second point I want to confer with the table officers about. I think I know the answer to this, but I want to confirm that I've got it right, if you'll just give me a moment.

To that point: I was correct in my own judgement of this; it's been confirmed. I'll go back again to what I said earlier and what you spoke to, and that is that these amendments have been deemed to have been moved. There is no name attached to those amendments — my name or no name is attached to them. It's from the NDP and they were tabled before 2 last Wednesday. Yes, I did in fact walk with the boxes into the Clerk's office, but there is nothing out of order with my doing that, and I should think that the ex-Deputy Chair would remember that. You will recall on many occasions, as I now do when I am sitting in the chair when the House is in session, sometimes bills are called that I am the critic for — say, the environment — and I have made some amendments, in that case in my name, and then later I end up in this chair in an impartial manner making rulings and chairing the debate.

I would say that when I am in this chair and when I am in the chair of the Legislature, like the other deputy chairs, and you will remember as well, I do my utmost to be impartial and I try to deal fairly with all members in this House. I would also add that since these amendments are deemed to have been passed, it's pretty routine what we're doing here.

Mrs Boyd: Deemed to have been put.

The First Deputy Chair: Deemed to have been put. I'm saying there is nothing out of order here.

Hon Mr Villeneuve: Thank you very much for your explanation. However, when it was admitted that you yourself had filed, I think I must ask for a ruling from our Speaker to further clarify the situation. Thank you very much, Madam Chair.

The First Deputy Chair: Okay.

The committee rose and requested a ruling of the Speaker.

1140

The First Deputy Chair: Mr Speaker, the committee of the whole has risen because there has been an appeal of a ruling that I made. The appeal was by the member for S-D-G and East Grenville.

The Speaker: Thank you very much. The Minister of Agriculture.

Hon Mr Villeneuve: Mr Speaker, thank you for your indulgence. Some certain matters were discussed during the

presentation of the amendments to Bill 103, and as you know and I know, we are all honourable members in this place. Our colleague who was in the chair, chairing committee of the whole, was asked by my colleague from Nepean regarding how the amendments came about and who presented them and where they were drawn up.

As you know, Speaker, we do not have the benefit of Instant Hansard, so we had to wait and run the tape, so I will have to attempt to quote as best I can from what we derived from the tape, which was in the area of 1005 to 1007.

The Speaker: Do your best on that.

Hon Mr Villeneuve: The question was from my colleague from Nepean, "Who were they filed by?" referring to the amendments to Bill 103, and the reply, as best as I can make out, from the Chair of the committee was, "I can tell you that I was one of the people who filed them, as well as the leader of our party, as well as several other members of the NDP caucus." I had the privilege of occupying your chair in the last Parliament as well as the chair of the committee of the whole, and yes, the honourable member who was in the chair at that time did apologize for having left a perception of being politically partisan in referring to "our party" while in the chair, and I accept that.

However, the fact is that the same person has admitted to being one of the people who filed the amendments, and for an hour we did present amendments prior to going into what we are into, the presentation of the amendments, and therefore I am simply asking you, sir, if the Chair of the committee of the whole was part of getting these amendments prepared, was part of that, or, as she admits, one of the people who filed them, can she indeed chair in the processing of these amendments? Because in standing order 12 it certainly says the Speaker shall not in any way participate in the debate.

I simply leave it to your good judgement. The honourable member admitted to having filed amendments. Then I think the least we could do is find those amendments that were filed by the honourable member who was Chair and have them declared out of order.

The Speaker: The member for Algoma.

Mr Wildman: My friend from the united counties and East Grenville has analysed or put forward the position as occurred in the initial exchange but has not delineated the actual ruling that was challenged. The ruling was that, as per the time allocation motion, as of 5 o'clock on Wednesday the amendments were deemed to have been put and are before us as per the time allocation motion.

The Chair of the committee of the whole House did indeed apologize for any perception of partisanship and indicated that she should have, in referring to the leader of my party, said the leader of the New Democratic Party and has apologized for that and has indicated that it was a slip which she regrets.

I think that in looking at this situation we have to understand, all of us, the context of this. We are in a rather extraordinary situation and all three chairs of the committee of the whole House have done extraordinary service to this Legislature, and they're all, I suspect, rather tired. I think it's quite understandable that one of them, perhaps all three of them, at one time or another, may indeed make a slip. For that she has apologized. The point is, though, the

amendments are before us as per the time allocation motion, not because they were filed by anyone.

Finally the other point I want to make is that in committees generally, committee of the whole House or other committees of the Legislature which are chaired by members of the Legislature, it is not unusual for individuals to occupy the chair of committees, whether it be the committee of the whole House or other committees, that are dealing with amendments that at one time previously may have been filed even by themselves. They are still properly before the committee and can be dealt with in a non-partisan way by the chair of that committee. I would hope that would be an appropriate way of proceeding with this particular situation.

The Speaker: The member for Kingston and The Islands.

Mr Gerretsen: There are basically just two points I would like to make. First of all, I would draw your attention to how this matter started. It was the member for Nepean who specifically asked, and I happened to be watching this on television in my office, "Who filed these amendments?" He, in other words, knowing full well that the debate on all the particular motions that came before us had long ceased, as of 5 o'clock or 6 o'clock on Wednesday — he knew full well that we were no longer in debate and he specifically egged on the Chair at the time by saying, "Who filed these amendments?" That's the first point. If he had not asked the question, then there would have been no need for her to say anything.

1150

The second point I would simply like to make is that I've only been in this House for two years, but as far as I'm concerned, all I've ever heard at any committee is that all amendments are either government amendments, Liberal amendments or NDP amendments. They are not the specific amendments of any specific person who belongs to any one of the parties. So it's totally immaterial as to who actually did the filing. They are filed on behalf of the party or the government that's filing them at that time.

As has been stated in each and every amendment that has been read aloud here, it is not a particular member's motion that is before this House, it is an NDP amendment or a motion to make a change to this particular bill. Quite frankly, I think to take issue with something like this — and I totally concur with my colleague from Algoma that all the Chairs, irrespective of parties, over the last three or four days, have done an excellent and exemplary job. To now somehow take our frustrations out against a Chair who may have inadvertently made a slip of one word by saying "our party" rather than the New Democratic Party I think quite frankly is absurd.

Mr Baird: I think it's important at the outset to put something on the record. I know the member for Riverdale; I work with her every day and I can tell you that she's an honourable person. I don't think we can allow partisan battles to become so mean-spirited that it affects our good relations as legislators to work with one another. So this is not an issue with respect to her integrity or to her status as an honourable member, because I know her to be one.

I would argue that when I rose in my place, I asked and wanted to know who these amendments were made by. At the top of the amendment sheets that were provided to our

party, it says, "I move," and obviously the person in question in the chair, or whoever it is, does on occasion read that. I was told no, the amendments have not been moved by anyone. The Chair at that time ruled that given the terms and conditions of the time allocation motion, they were deemed to have been moved, and she's right, and I acknowledged that the last time I got up.

It comes to the question of who filed the amendments. I didn't know who filed the amendments. I know in the case of our amendments, they were filed by the minister and his parliamentary assistant. So I asked in this place who filed the amendments. She at that occasion said parties presented amendments. "No particular person I can designate." I said parties can't present amendments; they have to be members of the Legislative Assembly to present these amendments. For example, community associations can't present amendments; associations, Citizens for Local Democracy, Citizens in Support of One Toronto can't present amendments; businesses can't present amendments; unions can't present amendments. They have to be presented by members of the Legislative Assembly in this place.

Given that fact, I asked point blank at 1007, "Who are they filed by?" Response — I quote, and this is directly taken from the videotape: "I can tell you that I was one of the people who filed these, as well as the leader of our party and several other members of the NDP caucus." She filed those amendments. It's further in black and white, in colour, in picture, a picture of her filing the amendments, which is important to note. She filed these amendments and she knew that she would be in a position that she would be called upon under the terms and conditions of the time allocation motion she would be in a position to adjudicate these in committee of the whole, because we knew it was going to committee of the whole in a time allocation motion which was before the members presented the amendments. Obviously, there's a very strong need to have independent adjudication. That is represented as a part of natural justice in virtually every adjudication body which we have.

There's no Instant Hansard, so I would hope to be listened to.

The Speaker: I appreciate that.

Mr Baird: Would you like me to go over what I said earlier?

The Speaker: There's no need.

Mr Baird: What did I last say?

The Speaker: Member for Nepean, take your seat. I appreciate the time and the effort that you've put into this and I appreciate the time it is now. I'm listening to your submission. Please make it.

Mr Baird: I think it's imperative that these decisions be adjudicated in an independent manner and I believe, sir, that there's no option but to disallow the amendments that were filed by the member, both that these have already been half dealt with by this place and those that are before us, given that this independence has been compromised.

Section 27 of the standing orders has a relevant area to this — not exactly, and I concede that. "27. No member is entitled to vote upon any question in which he or she has a direct pecuniary interest, and the vote of any member who has such an interest shall be disallowed." That's not directly related to the issue at hand, but I think it is

extremely close that in the adjudication of that the individual in question filed the amendments. She says they were partly her amendments. I don't think there's any court or any other adjudicative body where when an individual is supposed to be there to provide independent, non-partisan adjudication, they have a — "pecuniary" I think is a personal interest, if you check the thesaurus or a dictionary.

I think there's no alternative whatsoever but to set those amendments aside that were presented by someone who knew they would be called upon to adjudicate. This is not that we didn't know which committee it would go to. Under the terms of the time allocation motion it was very clear and very specific. For example, a critic would not chair a committee. We would not have the critic — I know the member for Ottawa South, the member for Ottawa Centre at various times, the member for Nickel Belt has at various times chaired a committee. They don't present amendments as the Chair because they know they're going to be called upon to exercise an adjudicative function in the course of clause by clause, in the course of the conduct of the public hearings.

I don't think there's any option for those amendments but to say they've been compromised, those amendments we've dealt with and those amendments before the Clerk, to be set aside and deemed that they have been compromised. The amendments were clearly — the member in question clearly said she had presented them. That's a direct quote. I take her at her word. We've got a picture of her doing it, clearly presenting the amendments. I think there's no other option than that they be put aside.

Mr Cordiano: I think the point of order is completely groundless that's been made by the members for S-D-G and Nepean. In fact, it is beneath members of this House to impute motives as pertains to the standing orders under section 23(i). What is being alleged in fact impugns the motives of the member for Riverdale, who sat in the chair and who I think is by all accounts and from every member of this House, when a member sits in the chair for committee of the whole or sits in fact as a Chair of any committee, we all take it that the member has, as considered by the entire House, the honour to sit in that chair and should be respected.

Again, what is being undertaken here is an undermining of members of this House who sit in the chair. This has been done repeatedly during the time I've been sitting in the House for the last six hours, where members have imputed motives on the part of the member who was sitting in the chair. I think that's unbecoming of any member of this House. It undermines the credibility of this assembly. Therefore, I would ask the members to withdraw their allegations.

Hon Mr Villeneuve: I am not in any way, shape or form imputing motives, absolutely not. Speaker, I ask you — this will not be a precedent setter — to go to the tape. You've gone to the tapes before. I ask you to go to the tape again if you figure I'm imputing motives.

Hon David Johnson: Point of order, Mr Speaker: I think it's very clear that the members of the government are not imputing motives. Indeed, the member for Nepean has indicated his high regard for the member for Riverdale, and I will too indicate my high regard for the member for

Riverdale. Having known the member for several years in political life, I have a very high regard for her.

I think the issue at hand here is the Speaker's position, the Deputy Speaker's position. These are positions that somewhat remind with regard to Caesar's wife: there must not only be the — she must not only be virtuous, but there must be the perception of being virtuous.

1200

The difficulty we have, and particularly in the context of the last several days, Mr Speaker, is because we are involved in very detailed and laborious, and frivolous in many cases, debate. We see decisions that have highlighted the need for absolute independence, absolute unbiased nature not only in reality but in perception. Perhaps that's what we're talking about, perception. Appearance of independence must be fully maintained, and that's what the problem is that we have: a ruling, for example, that was made with regard to when somebody said no in this Legislature a couple of days ago, when a "no" was said but was it before, was it after the word "carried," was it close enough or was it not close enough?

These are becoming important issues, unfortunately, so there is a need to look at this most seriously. It is evident that the member for Riverdale has indicated her involvement to the member for Nepean through filing the amendments, and I think the task is up to you, given the context of what's happened over the last several days, to determine if that doesn't render some doubt, at least in perception, about the independence of the position of the person in the chair. I think that's a most serious consideration, and in view of rulings that have taken place over the last several days I would ask you to give consideration to it.

The Speaker: Just before the member for Yorkview, I have a question to the government House leader. The ramification of that submission you make, the decision that you see to be taken is exactly what? That is what I am seeking. What are you asking me to do?

Hon David Johnson: My understanding is that the member for Nepean is at least asking that the amendments in question when the member was in the chair be set aside and I would think that at least should be investigated. I think you should investigate and take under consideration since the — and this is a position. You know, when we're elected to this House we deal with the integrity officer, we go through a very serious —

The Speaker: The question's very clear. I'm just seeking —

Hon David Johnson: — broader context of, in addition, all of the amendments that have been tabled, given the fact that the Chair has been involved, by her own admission, in filing those amendments, all of them, but specifically if you rule that there is no difficulty in regard to all of the amendments, at the very least you should look at the amendments which were considered when the member was in the chair.

The Speaker: I appreciate your points of order. As I said very early on, I'm willing to hear them all, but if you can, now that we've been around the horn here, give them to me in a very concise and direct manner, I'd really appreciate it, and if you feel that they've been submitted, I'd appreciate that as well.

Mr Sergio: I just want to add my views on this particular challenge to the Chair. I want to go back first of all to what the member for Nepean has said with respect to the member occupying the chair, the present Chair of the committee of the whole. I would say that order 27 does not apply. He has made a reference to voting. I could see if they had a problem if the Chair voted or attempted to vote on one of the amendments, if the Chair, were, let's say, taking sides. But we did not get to that particular point that the Chair was forced to vote.

The other thing is that we have already decided. This is the third time. The amendments have been introduced. To pick, if you will, for lack of better words, on a particular of the Chair of the House, other than the Speaker or some of the other appointed Deputy Speakers — any other member of the House would have exactly the same problems. The amendments introduced by the third party or the opposition, the Liberal Party, are seen as amendments to the bill. No other member of our side should then, if this were to be the case, sit in that particular chair and chair the committee of the whole. For the same case, I would say the same thing would apply as well to Mr Galt, the member for Northumberland, who has been so valiantly chairing the committee of the whole, because there are amendments brought into the House by the government side. Nobody is complaining that he's taking any side with respect to those amendments.

I would say the amendments introduced by the third party are quite in order. They have been here already for awhile. Nobody has complained before. The Chair has made absolutely no attempt whatsoever. Every Chair, including the present Chair, has been very good in calling to the attention of both sides of the House the voting procedures, so I really don't see the benefit of this particular challenge.

Mrs Marland: I will be very brief and I will not repeat something that has been said. I think that the comments from the member for Lawrence about imputing motives were a little regrettable because they taint the point that is being made by a former honourable Speaker. I think that the member for S-D-G and East Grenville has been very clear in his point.

But another point that I hope you will consider is the point made by the member for Algoma, who said that everyone is tired and it is possible to make mistakes when everybody is tired, which I think everyone in this chamber will agree to at this point.

But further to that, the Chair, the member for Riverdale did say she was sorry, she issued her apology while she was still in the chair, whereby she was admitting that she had made a mistake. You know, we're into this situation for different reasons from different sides of the House, and we all understand that, but two days ago, when another Chair took a decision that something had not been said which in fact had been said by three honourable members —

The Speaker: The member for Mississauga South —

Mrs Marland: I haven't finished.

The Speaker: No, with the greatest respect to the member for Mississauga South, I am working on a point of order right now. That's the only reason I am in the House. It's very clear from committee of the whole to the House,

I'm here for one reason and one reason only, and that is to hear points of order on a very specific point. You may try and make the point as germane. If you can tie that in somehow, I would appreciate it, but I would like you to do it very quickly and with some sense of timeliness.

Mrs Marland: Mr Speaker, I think it's very important that you go to the tapes and review for yourself, as you did the other day, around approximately 10:06 this morning. I think you will be able to draw the conclusion yourself which we will be happy with.

Mr John Gerretsen (Kingston and The Islands): Very quickly and just dealing with the point the government House leader brought up, number one, if it all relates to the picture that was in the Toronto Star, that picture was in here three or four days ago and I simply ask the question, why didn't the government members raise this issue before? Why did they wait for three days?

Number two, for him to call into question each and every amendment that was dealt with while the particular Chair was in the chair, if there was no concern about it beforehand, surely to goodness you wouldn't go back to any rulings that she made on those matters prior to this incident arising. That would be absolutely absurd. Because it looks to me as if the government is trying to stall this business when it claims publicly that it wants to move it along. Certainly by calling into question every one of the amendments that she dealt with is just another stalling tactic, as far as I'm concerned.

Hon Mr Leach: Mr Speaker, I'll be very brief. The government amendments were tabled by myself and my two parliamentary assistants — the member for Oxford and the member for Scarborough East. I think that everyone would agree that it would be totally inappropriate for either of these parliamentary assistants who tabled motions to sit in the chair. I think this is a very similar set of circumstances.

The Speaker: Thank you for your submissions, to all sides. If you'd allow me to take 15 minutes to review this, I'll report.

The House recessed from 1211 to 1241.

The Speaker: I would like to thank all the members for their submissions to that particular point of order. Before addressing the special issue raised in this appeal, I think it would be very useful to set the context of where this House and where the committee of the whole is in its proceedings at this point.

A reference to the filing of amendments is a reference to a past proceeding; it is not before us now. A reference to amendments being deemed to have been moved is a reference to a past proceeding; it is not before us now. What is before us now is a very, very specific and detailed process, the process of voting in committee of the whole. I think it is important for all members to focus on what is properly being considered at the current time.

The House cannot function if the impartiality of the presiding officer is questioned. It is fundamental to the progress of business in this place that the committee chairs, the presiding officers and indeed the Speaker are presumed to be neutral and non-partisan when they preside over the proceedings in a Parliament. The system we have that sees presiding officers of all three political parties is

unique and has served in recent years to strengthen the office of Speaker and to strengthen that very presumption of neutrality.

It is my view that the presiding officers have executed their duties, in the past and most specifically over the last several days, with a degree of dignity that reflects well on all of us. My faith in their abilities and in the sensitivity to their unique roles has grown immensely, and I might say that this House owes them a huge debt of gratitude.

As to the issue at hand, I am of the view that simply because the Chair has acknowledged her membership in a particular political party does not mean that she has in any way diminished her ability to preside with fairness and neutrality. To suggest that just because a member has participated in filing of amendments means he or she cannot preside with fairness is a notion that would be tantamount to meaning that this place cannot function at all. Clearly, such a view cannot be allowed to stand. I uphold the ruling of the Chair.

As to the admissibility of amendments filed and now deemed moved by the party of which she is a private member, in view of the foregoing comments, I find them to be in order.

House in committee of the whole.

Mr Bill Murdoch (Grey-Owen Sound): Mr Chair, I just want to bring up a point of order, or a point of privilege, I don't know which it is, but due to all the filibustering and things that have been going on for the last few days, I myself and I think a lot of other people have forgotten about a very important day, and that is today, which is April 6, Tartan Day. I should have had my kilt on, but I want to say my good friend Al McLean is certainly dressed for the day. I wanted to bring that to the House because we've always celebrated and I've always worn my kilt here, and I should have today.

The First Deputy Chair: Thank you. It is certainly not a point of —

Mr Murdoch: Point of interest then.

The First Deputy Chair: Point of interest indeed. That does not mean I am setting a precedent in here, however, for taking points of interest.

I'm sorry, member for Welland-Thorold, do you have a point of order?

Mr Kormos: No, sir.

The Second Deputy Chair: You're standing and you're talking. I'm sorry, I can't tolerate that. As a courtesy I will let you stand, because I realize we're going through a very tedious, long thing and you have to put in many hours here, as I do, but I can't have you talking and standing. You can't stand and talk. I should explain that to you. In this tedious business, there are 249 words, there are 23 numbers, there are 50 punctuation marks and I have to be accurate on every one. I've only done eight now, but what I'm telling you is that my attention cannot be diverted at all. When you're standing and talking, I assume you have a point of order. So I don't mind you standing; I can go with that. But if you're standing and talking, I'm sorry. I don't want to belabour the point —

Mr Kormos: Chair, when I have a point of order I'm going to go, "Point of order," or words to that effect.

The Second Deputy Chair: I'm sorry, no, this is not debate. I'm telling you what the Chair needs and expects. Other than that, I will enforce the rules to every nth of it. I'm letting you stand as a courtesy, sir.

Mr Bisson: Just on the point of order, Speaker: Is it your suggestion that members are not able to stand and speak at the same time?

The Second Deputy Chair: I'll take that in the light sense that I'm sure you mean it.

Where was I?

Interjections.

The Second Deputy Chair: Member for Cochrane South, I'm sorry, but I must address the same comments to you. I don't mind you standing, but there's no talking. I'm sorry.

Mr Bisson: No, I'm just reading the standing orders.

The Second Deputy Chair: "2. The minister has considered all written submissions made by members of the public that his office received within 30 days after the notice was given.

"3. If 10 or more persons requested a public hearing within 30 days after the notice was given, a public hearing has been held and the minister has considered all oral submissions made at the hearing.

Mr Kormos: Chair, point of order.

The Second Deputy Chair: The Chair recognizes the member for Cochrane South on a point of order.

Mr Bisson: No.

The Second Deputy Chair: I'm sorry. I saw somebody standing and I thought I heard somebody say "Point of order."

Mr Bisson: It was the member for Welland-Thorold. When I say "point of order," I would go "point of order," but it was him.

The Second Deputy Chair: I don't want to trivialize this; I don't want to make a mockery of this thing. I saw two people standing; I heard "Chair, point of order," and I didn't know which one said it. I don't want you to make a mockery of this proceeding.

Mr Kormos: Point of order, Chair.

The Second Deputy Chair: Please take your seat. Before I proceed, I thought I came in here and I thought I could extend a courtesy and let you stand and so on. It's not working, so I'm sorry, you will sit in your place.

Mr Bisson: Oh, Bert.

The Second Deputy Chair: I'll change that if I find that you can get along within the rules.

The Chair recognizes the member for Welland-Thorold on a point of order.

Mr Kormos: Please, Chair, with respect to the amendment that you've just read, you read under subsection (4), "(4) Despite subsection (1)," then, with respect, Chair, you moved on to "may affect the residents of," omitting the words "no regulation that."

The Second Deputy Chair: Oh, I'm sorry. Thanks very much for bringing that to my attention, because as you realize, I'm trying to expedite this and I'm liable to make mistakes. I appreciate it. I'll read those back in. Would you like me to just repeat that whole paragraph?

Mr Kormos: Yes, sir.

Mr Kormos: Chair, the next amendment is to be withdrawn, the one that refers to Eagle Lake.

The Second Deputy Chair: That is a point of order. It is done.

Mr Kormos: Thanks. Point of order, Chair.

Member for Welland-Thorold, are you just stretching your legs? I'll extend that courtesy as long as it's not taken advantage of. All of us have those things. I was a little late coming in. I've only been here half an hour; I've only done 20 of these. If you're following closely, I could go a little faster.

Mr Kormos: To be fair, Chair, to respond, 20 isn't bad, but you've done better. Quite frankly, you've done worse, so I'd say that's just fine.

The Second Deputy Chair: Yes, and I may need a courtesy back. I may at some point have to have you lip-read so that when my voice goes you can —

I just had a thought. While we're getting along, member for Welland-Thorold and so on, is there anything in the rules to say that when I'm reading this in the record I have to read it out loud?

Mr Bisson: On that point of order.

The Second Deputy Chair: I haven't ruled.

Mr Bisson: On that particular point of order: Normally when the committee Chair reads the amendment, it is useful for other members to hear it, so yes, you have to read it out loud.

The Second Deputy Chair: I don't want to get into a debate, but it just occurred to me. As I'm going here sometimes I think too.

Mr Bisson: Unless members were to develop extra-sensory perception, ESP, it would be very hard for us to understand what it is you'd be saying, so for that reason you have to read it.

The Second Deputy Chair: You couldn't read my lips?

Mr Bisson: Do you want to read mine?

Mr Kormos: Chair, if I may, it's an interesting proposition, but if you were to do that we would have to enter your mind and there are certain places I simply don't want to go.

The Second Deputy Chair: Just a minute. I need a minute —

Mrs Marland: For rebuttal.

The Second Deputy Chair: No, to compose myself.

Mr David Turnbull (York Mills): On that same point of order, Chair: All of the members are equipped with earpieces. I would suggest if they're having difficulty hearing, they should put it on.

The Second Deputy Chair: That is not a point of order. I don't make a habit of letting people take people on, on the same point of order. It's just not my habit.

Mr Turnbull: Okay.

The Second Deputy Chair: Either you'll have to speak up so I can hear.

Mr Bisson: It looks like you're having fun.

The Second Deputy Chair: We'll talk about that later. I don't want to hold it back.

I'm going to go back to the beginning of paragraph 1.

"1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Earl Road living in the urban area.

"2. The minister has considered all written submissions made by members of the public that his office received within 30 days after the notice was given.

The Second Deputy Chair: Thanks. I thought I was cracking up.

Mr Gravelle: The protest rally is obviously a very large one, and as a result, the noise is coming into the chamber. So I guess I’m asking if you could perhaps speak up. Certainly it is more difficult to hear you and I know that even for those people who are watching on television it’s probably still difficult to hear. I appreciate your sensitivity with that because you made reference to it previously. It would be helpful, I think, if you could do so.

The Second Deputy Chair: I’ll do the absolute best I can. My voice is going but I’ll do the absolute best that I can. The Chair recognizes the member for Cochrane South on a point of order.

Interjection.

The Second Deputy Chair: Then you will please take your seat. I thought we had an understanding that I was extending a courtesy to you and if you’re going to stand, which I didn’t object to, that you weren’t going to talk.

Interjection.

The Second Deputy Chair: You were. I can’t keep track of everything that is going on in this House and now outside too and extend courtesies that go beyond what I’m supposed to be doing if you’re going to abuse it. I’m sorry.

This is an NDP motion:

“I move that section 24 of the bill be amended by adding the following subsection:

“Public consultation

“(4) Despite subsection (1), no regulation that may affect the residents of Earls court living in the urban area shall be made unless the following conditions have first been satisfied.”

I wanted to ask the member for Beaches-Woodbine, you’re following on this, you had been withdrawing all the ones that didn’t have a street designation after them.

Ms Lankin: Yes, you’re quite right, Mr Chair. I will withdraw this one.

The Second Deputy Chair: Earls court is withdrawn. I don't want anybody to think that I'm just going through these in a routine way. There are 249 words in each one and I have to think and keep track of people up and down as well.

This is an NDP motion:

"I move that section 24 of the bill be amended by adding the following subsection:

"Public consultation

"(4) Despite subsection (1), no regulation that may affect the residents of Earls court Avenue living in the urban area shall be made unless the following conditions have first been satisfied:

"1. The minister has given notice of the proposed regulation, in a manner that will come to the attention of the residents of Earls court Avenue living in the urban area.

"2. The minister has considered all written submissions made by members of the public that his office received within 30 days after the notice was given.

"3. If 10 or more persons requested a public hearing within 30 days after the notice was given" —

I'm sorry, I want to address some comments to the member who is out of his seat. I'm doing a very difficult job. I hope it's satisfactory, but if it isn't, please tell me. But I can't have interjections and talking across the floor and interruptions. It's just too difficult for all of the things that I have to keep track of. I would ask that if you're going to be talking, you'll have to go to your own seat and you'll have to conduct yourself in a manner that will be the way this House should be.

Mr Bisson: On a point of order, Chair: Just to be clear, there are three members out of their seats. Which one are you referring to? Just so that I'm clear.

The Second Deputy Chair: That is not a point of order. I'm starting at the word "a" halfway through the sentence in paragraph 3:

— "a public hearing has been held and the minister has considered all oral submissions made at the hearing.

"4. The minister shall give three weeks' notice of a public hearing, in the same manner as the notice under paragraph 1.

"5. The notice under paragraph 1 shall,

"i. include a copy of the proposed regulation,

"ii. tell members of the public where and how to obtain, without charge, a copy of this act together with background material,

"iii. advise members of the public of their rights under paragraphs 2, 3 and 4,

"iv. advise members of the public where their written submissions and requests for a public hearing should be sent."

Is the request of this committee that this motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

Mr Bisson: Just before you take off your jacket, I believe that we do not have a quorum in the House. I would ask that quorum be checked.

Mr Bisson: On a point of privilege, Chair: I’ve been following intently your reading of the amendments and the last couple of amendments have been quite fine. The problem is, however, your voice is going down to the point that it’s very hard to hear you, number one. Number two is that I have had a number of calls at my office about your reading the amendments quickly. There are a large number of people in the francophone community watching this who are not able to keep up with you at that speed. I would ask you to slow down just a bit so that the translators can keep up to you, out of respect for the community.

The Second Deputy Chair: I’ll come to that point of privilege. I want to address members in the gallery. We’re very pleased that you’re here observing the democratic process. This is your provincial Legislature, and we’re very pleased that you’re here. But the rules are that there are absolutely no demonstrations, and that means clapping, waving, talking, anything like that. The rules are very strict. The members down here can do almost anything they please and it’s kind of tolerated. But the rules are very strict and I have to enforce the rules that this Legislature has laid down. They’re very long and tedious and fill volumes of books. I wouldn’t want to see somebody ejected on this nice afternoon. That’s enough notice.

I’m addressing the member for Cochrane South on a point of privilege. Your privilege is?

Mr Bisson: There were two points of privilege. The first one was that as you’re reading these amendments your voice is going down and it’s hard to follow you, hard to listen to what you’re reading. The second point is you’re reading so fast that the translators who are translating for the French language cannot keep up. I’ve had a number of

calls on that. I would ask you, out of respect for the francophones who are watching, to slow down a little bit so that they’re able to follow along, as is anybody else if they’re able to listen to you.

Mrs Marland: Use your earphones.

The Second Deputy Chair: Order. It’s my job to make sure that every rule is obeyed. I have to address things of privilege so I need order in this House when I’m doing that.

The part about my voice going down: The air is very dry in here. I don’t know if you’ve noticed it but I noticed the member for Algoma coughing when he first came in. It’s very dry. I’m trying to have some water to do that. I’m sorry. I can’t do a darn thing about my voice.

The speed and things like that: There are two things. One is that there are a lot of words in this amendment that are repeated. It’s very repetitious, I should say. I have slowed down. I want to address that issue. I have been in this chair just about an hour and 10 minutes. I have done 45 of these now.

1420

Mr Gerretsen: That’s not true. Mr Chair, there’s a sign being held up there.

The Second Deputy Chair: I’m addressing the member for Cochrane South.

Mr Gerretsen: Turn it the other way around.

The Second Deputy Chair: Please come to order.

I can tell you that I have slowed down. I have done 10, 12 or 15 of these two-hour sessions reading these into the record, and that’s what I’m to do. On one two-hour shift I did 103, so I can tell you that I have slowed down tremendously. I find that if I slow down too much I stumble and slur and stuff like that. I’m trying to do the very best I can.

Mr Bisson: I’ve got a further point of order, Chair.

The Second Deputy Chair: That was your point of privilege. The Chair recognizes the member for Cochrane South on a point of order.

Mr Bisson: You would know, Mr Chair, that according to the standing orders it is not in order for members to display signs in the Legislature, and if you’re doing so it is even further out of order if you’re doing it from out of your own seat. The member for Mississauga South is displaying signs in the Legislature —

The Second Deputy Chair: Order.

Mr Gerretsen: On the same point of order, Chair —

The Second Deputy Chair: No. It’s not my habit to take debate on points of order. Please take your seat.

Mr Gerretsen: On a different point of order, Chair.

The Second Deputy Chair: Please take your seat. I’m addressing the member for Cochrane South on a point of order. I don’t want to trivialize this thing. I don’t want to make a mockery of this process. I’m trying to do the absolute very best I can. I make a lot of mistakes, and if I do I’ll do anything I can to fix them, correct them, remedy them or whatever. But I can’t tolerate if anybody is making a mockery of this process. I’m trying to address the member for Cochrane South on a point of order and I’m being interrupted.

Member for Cochrane South, you are absolutely right: That is a point of order. I addressed the demonstration, the sign, and I corrected it. Is there anything else that I should do? I’m sorry, you can’t debate it. Just yes or no. I don’t want to debate it.

Mr Bisson: Yes, there is something you can do.

The Second Deputy Chair: Yes, please tell me then.

Mr Bisson: All you can do is you can bring the member under order. That's all I'm asking.

The Second Deputy Chair: I did that once. Once should be enough. Let me be very clear: You're saying and I'm saying that bringing a person to order once should be sufficient.

Mr Gerretsen: On a point of order, Chair: It deals with the same issue in a slightly different way. The member held up a sign —

The Second Deputy Chair: No. Please take your seat. I want to explain to you. When I'm addressing you, I don't know how you can listen to me when you're talking. I want to be very specific. We are in committee of the whole. We're under a time allocation motion and there is no debate allowed. As far as getting up and somebody on a point of order and somebody on another point of order, it isn't my habit to allow that. That's why I called you to order the first time. Then you got up and you said there was a new point of order. I want to explain to you because maybe we can give some time if I could explain it to you and we could get it without having to make a ruling on it.

A point of order is that we're doing something wrong here. Mostly it's me who's doing something wrong, but it could be other members. If we're doing something wrong, then that's a point of order. Bring it to my attention and I'll try to correct it and fix it up and get it remedied. So when you get up you should be able to tell me what we are doing wrong. Now, the Chair recognizes the member for Kingston and The Islands on a point of order.

Mr Gerretsen: My point of order quite simply is this: First of all, you're not doing anything wrong; the members are doing something wrong. It is wrong for a member to hold up a sign that says that this costs \$10,000 an hour when in fact the costs of this place are continuous —

The Second Deputy Chair: Please take your seat. I think I have already ruled on that twice with the member for Cochrane South, and we already agreed that once was enough. Now this is the third time. Just a moment. Please take your seat. As you realize, I can do everything here, but I cannot do it all at once. No, please take your seat. I'll get back to you.

Mr Dan Newman (Scarborough Centre): On a point of order, Chair: I know that all members would want to abide by the rules of this place and that means the Liberal Party, the NDP, and the Conservative Party. You've made a ruling about signs and other Chairs have. But right beside the member for Beaches-Woodbine is box 2 of the 12,000 or so amendments that clearly has the NDP sign displayed on it in various locations. I would ask you to have that sign removed that sign. I'm sure the phones in my office are ringing right now over this.

Interjections.

The Second Deputy Chair: Order. I'm making a ruling here. I'm trying to listen. Actually I consider this a fairly difficult job. I think anybody can do it but you have to have a little practice. What I'm saying is I need order, and I'm addressing the member for Scarborough Centre on a point of order. I'm sure, after the Speaker's ruling yesterday on political statements in this House, that this will be remedied. If it isn't, I want to know it very quickly.

Mr Newman: It's still there. I can see it. I have very good eyesight.

The Second Deputy Chair: I'm going to address the member for Beaches-Woodbine. I wonder if you could put that box on the other side of you.

Interjections.

The Second Deputy Chair: Order. This is a very difficult job and I'm trying to do it to the best of my ability, as limited as it is, and I want order. The problem that was addressed is being remedied so I'd like to proceed if I could.

Ms Lankin: On a point of order, Chair: I attempted to comply with you. There isn't quite enough room but I've turned it at an angle in which whatever it was that was offensive to the member is not visible. I hope that meets with the intention of your direction.

The Second Deputy Chair: Thank you. Whatever it is, it's fairly bland or whatever.

1430

Mr Newman: On a point of order, Chair: I can see right from this place here "NDP" on the side of that box. You can still see it here and I'd ask you to have that removed, Chair.

The Second Deputy Chair: I would ask the member for Beaches-Woodbine to make it invisible to —

Mr Gerretsen: Shut your eyes; close your eyes, you can't see it.

The Second Deputy Chair: We'll ask the Sergeant at Arms to take a look at it; I'm not going to make that ruling.

My ruling is that it meets the requirements of the Speaker's ruling and if you would like to challenge that, then that is your right under the rules of this House.

Mr Newman: Chair, with all due respect, I must challenge your ruling on this.

The Second Deputy Chair: We'll await the presence of the Speaker.

The committee rose and requested a ruling of the Speaker.

1440

The Speaker: Please be seated.

The Second Deputy Chair: Mr Speaker, we had a point of order raised that regarded the ruling I made on the political signage and statements that were being made in the House. One of the members endeavoured to remedy the situation not exactly the way I might have preferred or that I might have instructed, and the member for Mississauga Centre felt that it didn't meet the standards that he thought I had set. I had a member of the staff look into it and I was assured that it shouldn't be offensive. The member challenged my ruling on that.

Mr Newman: Mr Speaker, I rise today with respect to the NDP having a box in here with the NDP name right on the box and clearly visible. I've risen several times before in the House about issues like this. The box right next to the member for Beaches-Woodbine had "NDP" on it. After I stood on that point of order she removed one of the NDP signs and simply turned the box in another direction with the NDP sign still being there. Although I can't see it from here, Mr Speaker, the fact is that it is here in this House, and I think the member for Beaches-Woodbine admits that it is.

I think you have ruled, and other Chairs have ruled, that political demonstrations are not in order in this House. Simply turning the box doesn't make the problem go away; you simply move the box back and have the NDP signs visible. I wouldn't rise on a frivolous matter, because this isn't, Mr Speaker. I would ask you to rule on this and ask the member for Beaches-Woodbine and all members of not only the NDP but the Liberal Party, and the Conservative Party for that matter, to remove anything that may have their party name on it.

There's nothing on this side of the House that has the party name on it, but I know that members opposite have signs with the NDP name on them.

Ms Lankin: Mr Speaker, I have full respect for the ruling you made with respect, for example, to buttons. As you can see — and I'm someone who wore a button every day in this Legislature — I've ceased that practice as a result of your ruling. I have attempted to ensure that any documents or anything we're using is not in any way material that could be interpreted as a demonstration. I would say that for it to be a demonstration, it has to be demonstrable, which does mean it has to be in sight and being shown and being displayed.

As you know, we have many boxes with thousands of pages in them with copies of the amendment so that we can follow along. I've attempted, not because I thought there was anything wrong, because quite frankly these are down on the floor between desks, to keep them out of sight of the Legislature. In order to facilitate moving along, because it wasn't a big issue to me, I attempted to move the box in such a way that it was no longer offending the member and that the particular label he was objecting to wasn't visible to him or to other members in the Legislature.

I would point out that in his challenge to the Chair he indicated that he could still see it, although he has corrected himself on the record now, indicating he can't see it. I did attempt to comply with the concern that had been raised by the Chair. He seemed to think it was fine.

Last, I just want you to know that I have ensured that nobody has come near this area and I've kept the evidence intact, should you wish to look and see it for yourself. But I assure that it was viewed by the staff at the table, who have looked at it and indicated that there is nothing visible at this point.

The Speaker: The ruling — I don't think I need to recess on it. Actually, I think I do. Let me reconsider that. Let's take a 10-minute recess and just review the submission.

The House recessed from 1446 to 1456.

The Speaker: I'd like to thank those people who made the submissions on the point of order. I want to make two comments with respect to this point of order. The first one is very simple: I'll uphold the ruling of the Chair and I think that's, first and foremost, to say, directly.

Second, I'd like say I've watched these proceedings intermittently for the last few days and I myself have noticed that on some shots that have been taken in here you can see the stickers on the box. I want to say to the opposition, and specifically to the NDP, I think the member for Scarborough Centre is making a very valid point of order, in the respect that if you can see it from the camera, would you please rip the stickers off the box. Thank you.

Ms Lankin: Most of them are gone.

The Speaker: Well, I'm not in the debate here, but let's not do most; let's get them all off the boxes.

House in committee of the whole.

The Second Deputy Chair: We're ready to proceed with this very important business.

This is an NDP motion:

"I move that section 24 of the bill be amended by adding the following subsection:"

Hon Mr Harnick: On a point of order, Mr Chair: I do not believe that it is in order for you to read every amendment, based on the practices of this Legislature. I would ask you to rule on that based on the practices of this Legislature.

The committee recessed from 1500 to 1505.

The Second Deputy Chair: I want to address my ruling to the minister. My ruling is that members have a right to know what they are voting on. I will therefore read the amendments unless the process is dispensed with. That is my ruling. You have a right to appeal this to the Speaker.

Hon Mr Harnick: Mr Chair, I'd like to respectfully appeal that to the Speaker.

The Second Deputy Chair: We await the arrival of the Speaker.

The committee recessed from 1506 to 1523, having requested a ruling of the Speaker.

LEGISLATIVE ASSEMBLY OF ONTARIO

Sunday 6 April 1997

ASSEMBLÉE LÉGISLATIVE DE L'ONTARIO

Dimanche 6 avril 1997

Report continued from volume M.

The committee recessed from 1506 to 1523, having requested a ruling from the Speaker.

The Speaker (Hon Chris Stockwell): Be seated, please.

The First Deputy Chair (Ms Marilyn Churley): Mr Speaker, I have made a ruling in the House that has been challenged. The minister from Willowdale was making a point of order that all of the amendments didn't have to be read in their fullness, based on practices in the House. I ruled that members have a right to know what they are voting on, and I was going to proceed and say that I will therefore read the amendment unless the process is dispensed. My ruling has been challenged.

The Speaker: Thank you.

Hon Charles Harnick (Attorney General, minister responsible for native affairs): Mr Speaker, I would first like to refer you to standing order 26. Standing order 26 states that when the question under discussion does not appear on the Orders and Notices paper or has not been printed and distributed, any member may require it to be read at any time of the debate but not so as to interrupt a member while speaking. I have a couple of submissions to make about that section.

First of all, I submit to you that the amendments have all been printed and distributed to all caucuses in this place, and I don't believe there is any dispute about that fact. I also believe and submit, Mr Speaker, that we are no longer within the time of debate. The debate concluded with the time allocation motion, and the time allocation motion took us into the next or the voting procedural stage of the process.

I also submit to you that the time allocation motion that we are dealing with is on all fours with the time allocation motion that was dealt with under Bill 26. Mr Speaker, the next thing I'd like to refer you to is to the Hansard for the standing committee on general government, Bill 26, the Savings and Restructuring Act, dated January 26, 1996, at page G-1429. I'd just like to read a portion of that to you, to show you what the practice of the House is in the same circumstance that we are now in. It begins under the number 1300, and it says:

"The Chair: Thank you, Mr Silipo. That is not a point of order.

"The beginning place for this is schedule E, amendments to the Capital Investment Plan Act, 1993, and the Highway Traffic Act relating to highway tolls. We will deal with the amendments first. The first amendment is an NDP amendment to subsection 1(1).

"Ms Lankin: Excuse me. What page are you on?

"Mrs McLeod: Just give us a fighting chance to start at the right place, Mr Chair.

"The Chair: Page 11.

"Mrs McLeod: Page 11.

"Mr Clement: Of the amendments.

"Mrs McLeod: Oh. Thank you very much.

"The Chair: All those in favour?

"Ms Lankin: Just a second. I haven't even got to the page, Mr Chair. I know you're certainly anxious, but, you know" —

Then Mr Silipo states:

"Aren't you going to read this, Mr Chair?

"The Chair: By virtue of the fact that they're deemed to have been moved, they're also deemed to have been read.

"Mr Silipo: Okay. So you won't have to read them again" —

Speaker, what I submit to you is that this demonstrates a practice that exists in this Legislature, and I say that by virtue of the practice that took place before the standing committee on general government. I believe that we have a way to deal with now agreeing that all of these amendments that we are now so tediously reading can be deemed to be read, and we can then get on with the voting process and we can in fact identify all of this series of amendments by merely identifying the street, because every one of them is the same, and certainly every member of the Legislature is familiar with the contents of these amendments. We've heard them read now for almost — Thursday, Friday, Saturday, Sunday — we've done about four full days now.

So, Mr Speaker, I submit to you that we can proceed with the amendments without the need to read them in, and I think there is an opportunity now to break the deadlock and move forward and ultimately begin the voting process on Bill 103.

Ms Frances Lankin (Beaches-Woodbine): Mr Speaker, before I begin, could I ask if the member could give us the citation again of the Hansard reference that he just made so that we could take a look at that while we're proceeding? 1530

Hon Mr Harnick: It's the standing committee on general government, Bill 26, Savings and Restructuring Act, 26 January 1996, page G-1429.

Ms Lankin: Thank you very much. Firstly, Mr Speaker, I want to make the point that the Attorney General obviously had a number of references to standing orders and to Hansard transcripts which he believed are in support of the point of order. I would put to you that it would have been appropriate for the Attorney General to make that argument, as well, before the committee of the whole so the committee of the whole had full information when attempting to rule on this and also so that the members of the opposition were aware of the arguments that were being put and would be in a position also to respond, at that time and before you, to those arguments. I believe that is disrespectful of the process.

Secondly, to go to the point of order that has been raised, the minister refers to standing order 26. I would suggest to you that is not relevant to the order at hand. It reads:

"When the question under discussion does not appear on the Orders and Notices paper, or has not been printed and distributed, any member may require it to be read at any time of the debate, but not so as to interrupt a member while speaking."

Firstly, it deals with a question. The question under consideration here is not the amendment. The question under consideration is section 24 of the bill, but more importantly, it deals with during a debate, and as we know, we are not in that stage.

With respect to the Hansard reference that the minister has provided the assembly with, I point out to you that it is a Hansard reference from a standing committee and the procedures there are in fact quite different than the procedures in committee of the whole and in the House.

Just to help you, and to give you an example of another Hansard reference of a committee of the whole, which I believe is more relevant and more to the point, more in keeping with what we have here, I would refer you to the Hansard from Tuesday 6 July 1993, when the assembly was in committee of the whole House dealing with Bill 48. I'm referring now to page 2234. At that time the Chair indicated:

"It is now 5:45 and according to the terms of the order of the House dated July 5, 1993, all remaining amendments are deemed to have been moved. I shall now put every question necessary to dispose of all remaining sections and amendments."

If you look at the pages that follow you will see that when it comes to amendments to particular sections, those are read into the record, actually, to the point where, on page 2236, the Honourable Mr Laughren, the then Minister of Finance, requested "Dispense." At that point in time the Chair, as the practice has been in this committee of the whole, inquired of the members in the committee of the whole, "Dispense?" At that point one member, Mr Stockwell, said, "Read it in." The Chair continued, at that point in time, to read the entire amendment. That process continued for a number of pages, and I guess at some point in time some member of the government — I don't know, it doesn't clearly say whether it was Mr Laughren again or not — at page 2241, requested "Dispense," and the Chair asked "Dispense?" and one member, Mr Stockwell, said, "No, read it in." I won't continue; the record does continue.

Mr Speaker, I am sure you will know exactly what you ruled, but if memory, which is a bit foggy at this point, serves me well, I believe at the beginning of this process you indicated that it would be appropriate for these matters to be read in. It has been indicated that it would be appropriate for it to be read in at this point unless there is unanimous consent to dispense, as well as when we get to the deferred votes.

There have been precedents in the House, during the stacked deferred votes, where members require the amendment to be read in for clarification of the process, and in order for orderly proceedings with respect to the voting, it is entirely possible for it to be read in a second time at that point. Recognizing that with the doors tiled it's a very long

process, on many occasions members have not done that, but I believe it is entirely in order.

I would indicate that I have not yet received a copy of the Hansard transcript that the minister refers to. I've asked staff to get that copy. I don't know whether that would provide any other reasons or arguments that I would wish to put to you. I'm sorry to be in this situation, but as I indicated, the minister chose not to reveal his arguments prior to asking the Chair of the committee of the whole for a ruling.

Mr James J. Bradley (St Catharines): Mr Speaker, clearly those who have been in the House for a number of years would know that the common practice has been to read the amendments unless there was an agreement. It's a rather simple matter that the Attorney General has raised in the House. If there has been unanimous agreement not to read the amendments in the House then that has been allowed. When people say "Dispense" and there's general agreement to dispense, we've always dispensed with the reading of it. When there has been even one person who has objected to the dispensing motion or suggestion, then the presiding officer has in fact had the amendments read. It seems to me you did rule on that earlier, and that has been the practice, to my knowledge, if that's helpful to you, over the years, in any instances when I've been in committee of the whole.

Hon Mr Harnick: Mr Speaker, I think what we're talking about is the issue or the definition of legislative practice. I don't think, and I submit to you, that there is any right or wrong answer to what a practice is. Practices develop in given circumstances. The situation that I referred you to from the general government committee was a practice that developed and in fact worked quite successfully in that process. What I submit to you is that, yes, in certain circumstances, as the member for Beaches-Woodbine outlined, a different practice was used. It doesn't mean that what happened at the general government committee was wrong or that a mistake was made in the case that the member for Beaches-Woodbine sets out. What it does mean, I submit to you, is that you have the flexibility to take a look at how broadly you wish to define practice.

Given the circumstances that we are in today, given the circumstances that today it appears that amendments are created by computer as opposed to by thoughtful drafting, certainly you have a certain latitude to say what the practice should be in conjunction with the particular situation that we are in. I don't think, Mr Speaker, again, that there's a right or wrong answer, but I think the general circumstances that exist should be considered.

Mr Bud Wildman (Algoma): I've listened carefully and I now have the reference that the Attorney General has referred to, of the general government committee. I think it's important to recognize two things. I agree with him that there may not be a right or wrong answer in dealing with practice. We are dealing in this committee of the whole House with the normal practice of this House, and that is, where there is a request for dispensing of reading, the Chair asks if the House agrees, and if there is not unanimous consent then the amendment is read. That is normal practice, a long-time practice that I have been familiar with for 22 years in this Legislature.

If we look at the particular matter in the standing committee on general government that is cited by the Attorney General, you'll see that on G-1429 and on G-1430 there is some discussion in the committee about whether or not the amendments will be read and the Chair says they have been deemed to have been read. I think what is significant is the reaction of other members of the committee to that. They acquiesce. In other words, they agree. It is done by agreement. They agreed.

1540

Mr Silipo said, "Okay. So you won't have to read them again" —

Hon Mr Harnick: Let's hear what Mrs Caplan says.

Mrs Caplan just says, "Now, when you're saying page 11, is that page 11 on the printed page or page 11 —" That's all she says at that point. Then the Chair says, "Page 11 of the amendments."

Then Ms McLeod says on the next page, 1430: "There are pages where the amendments have been renumbered, as you know, including at the nth hour. It is virtually impossible for anybody to have renumbered all these pages, so if you could at least give us some indication of what we're dealing with, it would be helpful."

"The Chair: As we go through, we will try to avoid any conclusion."

So they proceed. I would submit to you that this is done with the acquiescence of the members of the committee.

We have been asked here for unanimous consent repeatedly, and for whatever reason, various members of the committee of the whole House have not agreed to unanimous consent to dispense with the reading.

Hon Ernie L. Eves (Deputy Premier, Minister of Finance): Mr Speaker, if I may briefly address the same point of order, I would like to bring to your attention that the ruling that was given by the Chair of the standing committee on general government that's been alluded to by the Attorney General was agreed to by the member for Oriole, the member for Dovercourt, the member for Beaches-Woodbine —

Mr Wildman: That's my point.

Hon Mr Eves: — who is now speaking in opposition to the argument, and the member for Fort William. All did not unanimously agree, with all due respect, I say to the member for Algoma. They accepted the Chair's ruling.

Mr Wildman: They didn't.

Hon Mr Eves: No, they accepted the Chair's ruling. There was no call for unanimous consent. I invite you to look at Hansard, Mr Speaker, and see if unanimous consent was ever requested or asked for, because they agreed that the Chair had made, in fact, an appropriate and proper ruling.

There is a difference also, I say to the member for Beaches-Woodbine, between the circumstance that the member for St Catharines alluded to, because I believe, if you check the Hansard and the two examples they have chosen, they were not dealing there with a time allocation motion.

The difference is quite precise and to the point, I think. In a time allocation motion, where they have been deemed to have been moved, we have one ruling I know of in the history of the Ontario Legislature where the Chair of a committee has ruled that where they have been deemed to

have been moved, they have also been deemed to have been read. That is the difference between the two circumstances that the member for Beaches-Woodbine was alluding to and that the member for St Catharines was alluding to, and I would respectfully ask you to take those matters under advisement.

Mr John Gerretsen (Kingston and The Islands): Mr Speaker, when we speak about a body of law, such as tradition and precedents, that we have in the House or anywhere else, we're talking about a series of positions that have been taken over a certain period of time, out of which then certain conclusions can be drawn, upon which parliaments in the future can rely.

If the Attorney General and the Minister of Finance point merely to one isolated incident where in one committee of this House — not the committee of the whole, not the House itself but a committee of the House — that has either been unanimously agreed to by that committee or acquiesced in by certain members of that committee, if he relies on that as being the precedent for no longer going through with the standard practice of having the amendments read either in the committee of the whole or before committees, then I would say he is totally wrong in that. Practice and precedent take a lot more than one isolated incident that may have occurred in the past on which to rely for any future ruling. I would suggest and respectfully submit that you uphold the ruling of the Chair.

Ms Lankin: Mr Speaker, I want to come back to again underline the distinction between a ruling that was made by a Chair of a standing committee, in a process in a standing committee, and a process in committee of the whole under a time-allocated bill, which is where we are now. The Hansard reference I provided for you I believe is more to the point. But while I know you have on a number of occasions indicated that you could not overrule what happens in a standing committee, that it's a different process, we do know that there are sometimes decisions taken there that we have all in this assembly questioned but we live with those.

The particular Chair of this standing committee actually liked the concept of deeming, I guess. There was a debate that followed two pages on from where the Attorney General read into the record today which was when the members got into voting on the amendments and the Chair indicated that he would have to read through all 350 amendments, and if there were divisions, the divisions would be stacked to the end and then we would go through them again and would have to vote on them all at that point in time. At that point, given that we weren't reading the text of the amendments in, it would have been a series of, "Amendment 1: ayes, nays, division, deferred; amendment 2: ayes, nays, division, deferred." The discussion that ensued went something like this, and I as a member of the committee at that time, along with a number of others, was trying to bring some reason to the approach and suggested in the middle of the text of my interjection on page 1430:

"So far, you've told us that we've deemed that they've all been moved and we've deemed that they've all been debated, we've deemed that they've all been read into the record. We're doing a lot of deeming, so let's deem one more time. Let's deem that they have all been read and divided on and deferred and now called back. Let's get

unanimous agreement to deem that they have all had a division requested on each one, deferred and now called back.”

Then there’s a little more debate. Again I’m trying to be helpful at that point and I say: “I respect the rules. Because I have chaired enough” of them. I’m trying to bring some reason. Without reading it to you, I go through the request again and suggest that we “deem that all the amendments have been put to this committee and deem that a division had been requested on each one. That now brings you back to the point of going through them to take a recorded vote. I would hope that’s a helpful suggestion.” The Chair at the time says, “Is everybody in favour of — ” and Mrs Caplan and other members of the committee, government and all, agree, and that is the process that is followed from there on.

I would argue to you it actually is a set of bizarre rulings through the course of that day and I think probably not one of the best examples of appropriate chairing and interpretation of rules of order that could be brought before the House.

But I do return to my primary point, which is that it is not on point and the reference to Bill 48 committee of the whole is a much more relevant precedent for you to review.

Mr Wildman: I won’t prolong this. I just want to clarify one thing. When I was speaking earlier, the Attorney General interjected to quote Mrs Caplan, on G-1430, as saying, “We never agreed to that crap.” She did indeed say that but she wasn’t referring to what he said she was referring to. She was referring to the time allocation motion. Indeed, I think none of the members of the opposition agreed to that “crap” — if I can use the colloquialism — the time allocation motion.

Farther on page 1431, after the reference my colleague from Beaches-Woodbine refers to in which she suggested a way of dealing with this, Mr Silipo says, “That we can do with agreement, Mr Chair.” Mrs Caplan says, “Agreed.”

The Speaker: I appreciate the submissions from all sides. I think I’ll take 30 minutes to review the submissions and other things.

The House recessed from 1549 to 1624.

The Speaker: I will be taking an additional two-hour recess. I’m going to review some materials and I will get back to the House at that time.

The House recessed from 1625 to 1825.

The Speaker: I’m going to ask for another hour. I realize that it’s difficult and it’s time-consuming, but I need another hour.

The House recessed from 1826 to 1932.

The Speaker: I want to thank all members for their submissions on this issue, and in addition, for their patience during the extended recess.

I want to begin by explaining procedures with respect to considerations of motions in the House. A motion must first be moved by a member. It is then read from the chair for consideration and finally a decision by the House. In the case of clause-by-clause consideration of a bill in committee, the same procedures apply. A member moves an amendment and the amendment is then read from the chair. The reason for this is very straightforward. It is a safeguard mechanism in the system that helps to prevent errors from being made. Because we do not require that notice be given for all amendments to bills in committee, at least the com-

mittee of the whole, and do not print or distribute to all members the text of the proposed amendments, several versions of an amendment may exist.

The practice of requiring an amendment to be read provides all members present with the opportunity to hear the proposed amendment. For the Chair, the clerks and those members who have received the printed amendments in advance, it is an opportunity to compare what is being read with the printed text that is before them. The fundamental parliamentary principle behind this procedure is that every member has a right to know what he or she is voting on.

Under a time allocation motion such as we are currently operating under, the procedure is altered somewhat. The first part of the process is eliminated by virtue of the terms of the motions which state the amendments are deemed to have been moved. This does not, however, mean that the amendment is also deemed to have been read from the chair. Indeed, the reading from the chair in this circumstance would be the first time the amendment is ever heard. The Chair may only dispense with the reading of the amendment with unanimous consent, even in the face of a time allocation motion such as the one we are operating under.

The precedent cited by the member for Beaches-Woodbine with respect to the committee of the whole consideration of the Social Contract Act, 1993, bears this out. The excerpt from the standing committee on general government provided by the Attorney General in my view does not convey a definitive ruling to the contrary. Therefore, I find the Chair was absolutely correct in his ruling. Our practices and procedures require the amendments to be read.

However, in considering this point of order, I was struck by the principle behind the practice, that is, that every member has a right to know what he or she is voting on. I, as Speaker, have a responsibility to preserve that right, but I believe that a modern definition of Speaker requires that decisions are taken which are also in the best interests of the institution of Parliament. On occasion, in particular when faced with extraordinary circumstances, Speakers may have to intervene in a way which seeks to enable the parliamentary process to accomplish the business at hand. For example, in 1981, following extended bell ringing in the House of Commons of Canada, Speaker Sauvé intimated that in the future she would be more proactive.

In this House, Speaker Warner, quoting Speaker Fraser, said on May 27, 1991, that the Speaker does have a latitude to act in exceptional instances. I believe this House finds itself in an exceptional circumstance. Committee of the whole is dealing with a extraordinary number of amendments. A substantial number of those amendments are identically worded, with the exception of a street which is different on each.

Over the last several days, I have searched other jurisdictions for solutions to this conundrum that we find ourselves in. To be frank, we have found some solutions that other jurisdictions have developed over the last 20 years because they were faced with very similar dilemmas. These jurisdictions had to work their way through these difficulties and subsequently develop rules to resolve them. The problem we have is that those rules are not applicable to

this Parliament and these particular circumstances. Therefore, I am proposing to do two things. First, in this instance, for the purpose of the balance of the NDP amendments to section 24(4), a copy of the wording of the amendment minus the street name will be made available to each member. The Chair then will be required to read the street name prior to putting the question on each amendment.

Let me be very clear. This process will be applied to this series of amendments only and should not be construed to be a precedent for the reading of amendments in the future. This does not mean that I'm finding these amendments to be frivolous or tendered in a spirit of mockery. The members should understand that this decision will only shorten this process up to a point. You must understand we are still going to be here for an extended period of time.

In closing, I implore the House leaders to begin the process of negotiating an agreement that will resolve this impasse for the benefit of the members, the employees, the citizens of this province and this great institution.

The Chair (Mr Gilles E. Morin): Order. Each member will be receiving a copy of the NDP motion minus the street name, and we'll explain to you after that what will happen.

The Chair: If everybody sits, then I'll be able to listen to your point of order.

Mr Pouliot: Would you kindly repeat, for my edification, the last name of the street, please.

The Chair: Yes, I'll do that: East Whitcomb. Shall the motion carry? All those in favour of the motion will please say "aye." All those opposed will please say "nay." In my opinion, the nays have it. The vote is deferred.

Mr Howard Hampton (Rainy River): On a point of order, Mr Chairman: Would you mind spelling that so I can be sure of it, please?

The Chair: Eastglen Crescent, e-a-s-t g-l-e-n. Shall the motion carry? All those in favour of the motion will please say "aye." All those opposed will please say "nay." In my opinion, the nays have it. The vote is deferred.

1950

NDP motion, subsection 24(4): Easthampton Drive. Shall the motion carry? All those in favour of the motion will please say "aye." All those opposed will please say "nay." In my opinion, the nays have it. The vote is deferred.

The Chair: Eastlea Crescent. Shall the motion carry? All those in favour of the motion will please say "aye." All those opposed will please say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Eastmoor Crescent.

Mr Hampton: On a point of order, Mr Chairman: May I ask for the spelling of that, please.

The Chair: Order. He is totally within his rights. Every member is entitled to know what he is voting for.

Interjections.

The Chair: Order. Take your seat, please. Minister?

Hon Jim Wilson (Minister of Health): Mr Speaker, I thoroughly read the standing orders and some 500 pages of

Beauchesne and Erskine May. I don't see any requirement that if the guy is a poor speller that you're in charge of ensuring that he knows how to spell street names in Toronto — that is, if this street is in Toronto, because so many of them haven't been. Chair, there is no requirement for this and it is making a mockery of this process.

The Chair: I have to reconfirm what I just said: Each member is entitled to know what they're voting for. If a member asks me for the spelling, I have no other choice than to give him or her the spelling.

Mr John R. Baird (Nepean): On a point of order, Mr Chairman.

The Chair: A point of order on this amendment?

Mr Baird: Yes. Could perhaps one of the assistant clerks take the pile and photocopy it and provide the member from Fort Frances the papers so that he will have it right in front of him if he can't spell?

Interjections.

The Chair: Order. The understanding was that each of you were to receive a copy of the amendment without the street on it. That was the understanding, and that is the procedure I'm going to follow.

The member from Durham?

Mr Jim Flaherty (Durham Centre): What has been happening here — we saw it on Friday and Saturday — is that these are NDP motions; they have them there. They've been withdrawing them before they've been even read by the Chair because they're duplicates. They know full well each and every piece of paper you're looking at, sir, and for them to ask them to be read is an insult to the House and an insult to the ruling the Speaker just made. The leader of the NDP has them right beside him in the box and he can look at them, sir.

Interjections.

The Chair: Order. Take your seat, please. Look at the whole thing objectively. Look at the length of time it took before and look at the time it takes now. Let's try it out. If it doesn't work, we'll work —

Interjections.

The Chair: Order. If you don't like my ruling, appeal it — simple as that. Okay, we'll do that.

The committee rose and requested a ruling of the Speaker.

2006

The Speaker: Please be seated.

The Chair: Mr Speaker, I implemented your ruling, then the member stood up on a point of order asking for me to spell the name of the street, which I did, because you said that each member is entitled to know exactly what they are voting for, and there was a member who objected to that. That's why we request your ruling on this.

Mr Flaherty: Mr Speaker, the point of order raised by the member for Rainy River upon which there was a ruling by the Chair was that he needed to have the spelling of the various street names. The reality which is evident from Hansard over the past several days is that these are NDP motions, as you the Speaker have noted.

The boxes of the motions are sitting beside the leader of the third party. They have been going through them motion by motion and withdrawing some of them, because they are either blank or they do not refer to a place that exists in

Toronto; so they are obviously following them along. That has been going on Friday and Saturday and Sunday.

For the leader of the third party to stand here and say he requires spellings of documents that can be handed to him, that are right by his left arm, I submit is not in the spirit of the ruling the Speaker made but 10 or 15 minutes ago, particularly given that some of the motions are clearly out of order and need to be withdrawn in any event. If they have to be withdrawn, that means they're following them. They can't have it both ways, Speaker.

Interjection.

Mr Flaherty: The member for Algoma acknowledges they're following along. If they are following along, they're looking at the spellings. That is why I ask you to exercise your discretion, which you have indicated already you're prepared to exercise to move the process forward, in interpreting the time allocation motion of what's necessary to be put for the members to follow along. I submit that what's necessary to be put is the name, which is clearly being read by the Chair of the committee of the whole House.

Mr Tony Silipo (Dovercourt): Mr Speaker, you have just made only minutes ago a fairly significant ruling, which you yourself categorized as being exceptional to deal with the exceptional circumstance that we find ourselves in. I think it behooves all of us in the spirit of accepting, as we must, your ruling, that that surely still leaves two important things:

First is that these amendments, it should be remembered, are in order. You have ruled on that three or four times at least. For the member for Durham Centre to stand up and still persist in saying that these amendments are out of order is an insult to the Assembly and to the Speaker.

Secondly, and most directly to the point: surely, sir, your ruling has to leave in the hands of the Chair who is chairing the committee of the whole the latitude to on occasion provide the correct spelling of the street name when requested, so that people can be sure which street we are voting on. There are, as you know, being yourself a member from Metropolitan Toronto, many streets which sound similar but have different spellings, because they are different streets. There are many streets that have the same name with different connotations in terms of whether they are roads or crescents, and sometimes in the exchange it's not clear exactly which one it is.

It requires that kind of latitude left in the hands of the Chair. For you to go to the point of prescribing whether or not a request to the Chair on occasion for spelling to ascertain the amendment we are voting on would be really stretching the parameters of the ruling that you have made and the very significant nature of it in a way that would make it unreasonable. I don't think that was the intent of your ruling only moments ago.

Hon Mr Wilson: On the same point, Mr Speaker, your ruling a few minutes ago, I think, was consistent with not only the traditions of the House but also the fundamentals of parliamentary law. If we look at Beauchesne's sixth edition, the very sacred principles of parliamentary law, are listed, and one reads as follows: "To enable every member to express opinions within limits necessary to preserve decorum and prevent an unnecessary waste of time."

Mr Speaker, there also are some principles of some of us who were brought up in this society, and that is that we have responsibility to inform ourselves to a certain degree. I think the honourable member, given that these are his amendments, has a responsibility to inform himself about the correct spelling of the street name contained in the NDP amendments.

I would put to you that this is a waste of time. If the honourable members across the way are going to insist on the spelling of every word in their amendments. I put to you, Mr Speaker, that it is a mockery of this process. You yourself just a few minutes ago tried to shorten the process and said very clearly in your ruling that you do not see the process that you ruled on as a mockery. I think we are getting into the realm of mockery and frivolous if the honourable members are going to insist on spelling everything in their motions.

Secondly, I would hope that if we do not receive a favourable ruling from you on this point, at least in a very few minutes from now you will be back to rule that the points of order we're expecting from across the way are dilatory in nature. I would put to you again, Mr Speaker, that it is a waste of time to spell out these names of streets when they are their motions.

Hon Al Palladini (Minister of Transportation): You would think that the leader of the third party would personally know all the streets that would be directly attached to him. I just don't understand. All it is, Mr Speaker, is simply a tack to stall and waste time, and this is contrary to what you ruled on and what you try to do in this House.

You know, for him to know every street in —

The Speaker: Minister of Transportation, I'm up, and that means you are out of order if I'm up. That wasn't what I ruled. Having me sit here and you telling me that's how I ruled — it isn't. I want to be clear what my ruling was. Continue.

Hon Mr Palladini: It seems to me the leader of the third party would like everyone here to believe that he knows personally every single street, and therefore he would like to have clarification on how a street is spelled. I really think it's somewhat irrelevant to what we are trying to do here.

Mr Hampton: Speaker, a few minutes ago in your ruling, I believe you said that it was essential in this process, which is not a debate process — I believe if you read the citation that the minister of Health cited, it deals with debate. We're not in a debate process. We are in the process now of putting amendments, amendments which will be voted on.

My point would be, Speaker, that following from your ruling of a few minutes ago, we are entitled to know what is now that is in the amendment and what it is that we will eventually be voting on.

I would make the point to you, Speaker, that several of these names have an unusual spelling. Several of these names have a spelling which is somewhat similar to other names. In order that we may be absolutely sure of what it is that is being put before us, and in order that we may be absolutely sure of what it is that we will eventually be voting on, it would seem to me that we would be entitled, as the Chair ruled, to, if we have any doubts, have the particular name spelled for us to lend greater certainty.

That was the point I raised with the Chair and the Chair accepted that point. I would urge in this instance, Speaker, that you uphold the Chair. I think it follows from the ruling which you made earlier, in terms of lending certainty to members, allowing members to be absolutely sure of what it is that is being placed in the form of an amendment, and what we will eventually vote on.

Mr Tony Martin (Sault Ste Marie): Mr Speaker, you'll also know that what we do here in this place is not just for us here, it's for people out there watching who see this as a very important part of the political process in this province. When we often rise in this place to ask questions of clarification, it's not just for us, it's for the folks who are calling us. We know, from the expressions of interest that are being shown and growing in proportion with every day that goes by, that there's a lot of people out there who want to understand and fully participate —

The Speaker: I appreciate your interjection, but we've got to get on topic.

Mr Martin: Previous to this, we were saying the names twice. Now we're saying it once, and there are folks out there who are watching who want to know if it's their street or if it's a street that's close by, and so it's really important that we do all that we can in this place to make sure that they understand what it is that we are talking about.

The Speaker: Thank you very much for your input. I'm going to take just five brief minutes to review the submissions and I'll be back.

The House recessed from 2016 to 2022.

The Speaker: First let me thank the members for their submissions, the member for Durham Centre's submission and the minister of Health.

I'd like to refer back to the ruling I gave just moments ago: The fundamental parliamentary principle behind this procedure is that every member has a right to know what he or she is voting on. The fact is simple: Previous to my ruling, the names could have been spelled. After my ruling, the one portion I left in was the street: that, if a member insists on having it spelled, is allowable. It's practice. It's accepted. It's been done.

I appreciate the fact, and I say to the members asking, that there must be some consideration with respect to requesting the spelling, and I ask all members to allow that to be given. The fact remains that that has been a practice that we have allowed to stand for many, many, many years. I would tell the Chairs that if the request is made, a simple spelling is in order. I uphold the Chair's decision.

House in committee of the whole.

Mr Laughren: Point of order, Chair: Edgecliff Golfway, e-d-g-e-c-l-i-f-f g-o-l-f-w-a-y, is a duplicate and we wish to withdraw it.

2040

The Second Deputy Chair: It is done.

Mr Laughren: And the next one as well, and the one after that as well, all spelled the same.

The Second Deputy Chair: Have we got all three of those withdrawn, then? It is done.

Mr Hampton: On a point of order, Chair: Can you spell that out?

The Second Deputy Chair: Which?

Mr Hampton: The name of the particular street that we're dealing with here.

The Second Deputy Chair: The whole street? E-d-g-e-l-e-y B-l.

Mr Laughren: Mr Chair, I have a point of order too. What is "Bl"? I'm lost.

The Second Deputy Chair: "Bl"? I don't know. I'm just reading what's here, and I spelled it. I said "Edgeley Bull." Member for Nickel Belt, I want to be very clear about this. I think it's my job to read what is here. If you want me to change it, with unanimous consent I can change anything.

Mr Laughren: I'm not toying with you, Mr Chair, because I'm one of your fans, but I think this is a good example of why the opposition in particular, and I suspect some viewers out there, want some of these spelled. A lot of people would see "Bl" as "bluh" as opposed to "bull." We need to make that clear.

The Second Deputy Chair: Would you like me to pronounce "Bl" as "bluh"? I'm sorry. I want to do this job the best I can, and if I'm making mistakes, by all means please correct me. If it's "bluh," then it shall be "bluh."

Is it the wish of this committee that this motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Edgemore Drive.

Mr Hampton: Point of order, Chair: Can we have the spelling of that, please?

The Second Deputy Chair: Which? The name of the street or the "Drive"?

Mr Hampton: The street, please.

The Second Deputy Chair: Have you got a copy of these in front of you?

Mr Hampton: No, I haven't.

The Second Deputy Chair: Would you make available to yourself the list, or get closer to the person? Edgemore, I don't think, can very properly be misspelled.

Mr Hampton: Point of order, Chair.

The Second Deputy Chair: The Chair recognizes the member for Rainy River on a point of order.

Mr Hampton: Sometimes we're asking for the spelling because the spelling is unusual, but sometimes we're asking for the spelling because we cannot make out the word, necessarily, when you first give it.

Hon Mr Wilson: Point of order, Mr Chair.

The Second Deputy Chair: No. I'm sorry. I want to rule on this point of order first. I want to get this very straight. I want to do the very best job that I can here.

My point is that I could spell them all, but it takes a little while, and then we could get into capital letters and so on. But you are not making available to yourself the information that's available to your caucus. It bothers me a little bit

that you want to sit there and listen and ask me how you spell Edgemore when you could make available the list that the member for Nickel Belt has. I'm sorry, but I have a little bit of a problem with that.

Ms Shelley Martel (Sudbury East): We already had a ruling that —

The Second Deputy Chair: No. That is my ruling. If you would like to challenge it, by all means.

Mr Hampton: We'll challenge the Chair.

The committee rose and requested a ruling of the Speaker.

2053

The Speaker: Please be seated.

The Second Deputy Chair: Speaker — and excuse my dress —

The Speaker: Excuse my dress.

The Second Deputy Chair: We had a point of order raised by the leader of the third party on the name of a street. I didn't familiarize myself with the former ruling, and I ruled in what I have since learned is the wrong way, and I'd like to apologize for taking this time and so on and getting you here. I'll correct it.

The Speaker: Thank you very much, to the Chair. I think sometimes these rulings are a little bit fast and furious. I think the ruling I gave probably covered the situation as explained to me by the Chair and we'll go with the original ruling that I gave earlier. I don't need submissions. That means if it needs to be spelled, it will be spelled. Okay? Thank you.

House in committee of the whole.

The Second Deputy Chair: My apologies to the leader of the third party. From now on, I will try to be up to date on every ruling that's been done and be able to expedite in the way this job should be done.

Mr Hampton: On a point of order, Mr Chair: On that point, if you would say the name slowly the first time, we might be able to identify it and avoid having to have it spelled.

The Second Deputy Chair: I'm sorry. Did I say "Edgemore" too quickly?

Mr Hampton: Some of the names we have not been able to make out when you say them very quickly, and therefore we ask you to spell them.

The Second Deputy Chair: Yes. If I ever say them too fast and don't spell them, you'll let me know?

Mr Hampton: Thank you, Mr Chair.

The Second Deputy Chair: I'm here to expedite and I want to do this very difficult job the very best I can. I want to give it all the attention that it needs and requires and deserves.

I think I left off at Edgemore Drive, e-d-g-e-m-o-r-e. Is it the wish of this committee this motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Edgevally Drive, e-d-g-e-v-a-l-l-e-y. Is it the wish of this committee this motion carry? All those in favour say "aye." I'm sorry; I didn't hear an aye.

Interjection.

The Chair: He may have said it; I didn't hear it. All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Edgeware Drive, e-d-g-e-w-a-r-e. Is it the wish of this committee this motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

Mr Monte Kwinter (Wilson Heights): On a point of order, Mr Chair: Just for clarification, the ruling of the Speaker was that you only had to spell them when someone asked for it. You don't have to spell every one as you do them. But that's up to you. I just want to let you know that.

The Second Deputy Chair: I appreciate that. I need all the help I can get at doing this job.

Interjections.

The Second Deputy Chair: Order. This is very serious business and I want to expedite it, I want to get on with it, I want to do it the very best I can, and I can't do it when there are members talking when I'm giving a ruling.

By way of explanation, I have found that it will expedite things a little bit better if I spell each one rather than wait until somebody wants one. So if you find that I overspell, I hope that you'll indulge me.

This is an NDP motion, subsection 24(4): Edgeway Gate, e-d-g-e-w-a-y. Is it the wish of this committee this motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

Mr Laughren: On a point of order, Mr Chair: I believe, and I'm assuming that you have the same stack of amendments I do, that the next one is a duplicate.

The Second Deputy Chair: No, it isn't. That other one was Edgewood Cr, and this one is Edgewood Crescent.

Mr Laughren: Sorry.

The Second Deputy Chair: NDP motion, subsection 24(4): Edgewood Crescent, e-d-g-e-w-o-o-d. Is it the wish of this committee that this motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

Interjections.

The Second Deputy Chair: Order. This is tedious work and I don't want anybody making a mockery of it or rivalizing it. It has to be done. It has to be done, hopefully right. I'll do the best I can, but I can't have talking going on in the background or across the way. I can't concentrate on the job I have to do.

Mr Martin: On a point of order, Madam Chair: You listen to the ayes and the nays here and you, in your wisdom, make your decision. I'm wondering how much weight you put on something like, say, "nay, no," as opposed to "nay" or "yea"? Does it count twice?

Mr Laughren: It's a double negative.

2150

The First Deputy Chair: Please. To the member for Sault Ste Marie, I listen carefully to both sides of the House. If I hear noes and/or nays the same weight is carried, and if I hear yesses, of course, and ayes, I put the same weight on the negative or the affirmative.

Mr Martin: Just further on that point of order, I think the member for Nickel Belt makes an excellent point when he suggests that we have a double negative there. The "nay, no" shouts —

The First Deputy Chair: Order, please.

Mr Laughren: On a point of order, Madam Chair: I trust you will allow me to make my point here. You will recall that a couple of days ago there was a motion passed for Cafon Court in Etobicoke that it would have a public hearing into any aspect or regulations of the bill that would affect the people living on that street. I have in my hand a

petition from people who live on Ennerdale Road, e-n-n-e-r-d-a-l-e, who feel that —

The First Deputy Chair: Member for Nickel Belt —

Mr Laughren: Just a very short conclusion — that since the people in Cafon Court have a right to this hearing, then the people on Ennerdale Road should have a right to no less than that.

The First Deputy Chair: That is not a point of order. You're quite right, yes. It's not a point of order.

The Chair recognizes the member for Sault Ste Marie on a point of order.

Mr Martin: We were wondering which one of us wasn't standing up.

The First Deputy Chair: It's not my job to keep track of who stands and who doesn't. I just have to count side members. You can battle it out among yourselves.

The Chair recognizes the Minister of Education on a point of order.

Hon Mr Wilson: Just to clarify for the member opposite, I believe that the person who didn't stand up was the person who has recently returned from the state of Texas and is still in the state of confusion.

The First Deputy Chair: Okay, thank you for that. It is not a point of order.

The Chair recognizes the member for Sault Ste Marie on a point of order.

Mr Martin: I realize that some of us are taller than others and sometimes it may seem like some are standing and some are sitting when in fact they are standing.

The First Deputy Chair: I am not going to enter into debate on this. I am looking very carefully and I think both sides of the House will say that I pause and I give every opportunity on both sides of the House, and it has to be

done in a timely fashion. There were four people on their feet period.

Interjection.

The First Deputy Chair: No, member for Sault Ste Marie. This is not a point of order. Is it another point? Okay, another point of order. The Chair recognizes the member for Sault Ste Marie on a point of order.

Mr Martin: I am wondering just for my own benefit if when the member from Windsor-Sandwich stands up if perhaps you can't see me? She's tall. She's very tall.

The First Deputy Chair: It's not even 3 o'clock in the morning yet. I am used to this after 3. Let's get back to the motions.

Mr Martin: Point of order.

The First Deputy Chair: Could members take their seats while I take this point of order. Member for Sault Ste Marie on a point of order.

Mr Martin: It's difficult sometimes, Chair, if there's no space between you saying the name and then moving into the vote, to either put in a point of order to remove or withdraw, or for somebody to stand up and perhaps ask that the name be spelled or to get further clarification on the name, because the name, as you know, Chair, has now become of utmost importance in this process, given the ruling of the Speaker this afternoon. I think it's really

important that we protect that little piece now that we have left to make sure we all get a chance to say our piece.

It's a very good point and I now understand the difficulties; I didn't before your raising this point of order. I will endeavour to pause between so people have an opportunity. Mr Jack Carroll (Chatham-Kent): On a point of order, Chair: I wonder if you might help me with this. Does the fact that there are at least all the time five members opposite standing represent an automatic call for a division before you ask for the ayes and the nays?

The Chair: Member for Chatham-Kent, when I ask the question, first of all I hear "yes," and I hear "nay," and then I turn around and I see them standing up and they're all in favour of the vote. It's not the division, it's not a division vote. They stand up because they are in favour of the motion. If you object to it —

Mrs Boyd: We can't hear you, Mr Chair.

The Chair: I'm sorry. The question was asked, how come you're all standing up instead of sitting down and going up and down all the time? What I said was that I hear "aye" and I hear "nay," and at the time I look at the nays I turn around and they're there and they voted. I don't see anything wrong with that.

Mr Carroll: Mr Chair, could I just ask you another thing. Do I understand then from your ruling that if you don't hear any —

The Chair: It's not a ruling, it's just —

Mr Carroll: Your interpretation then — that if you don't hear any nays it's automatically a request for a division anyway because there are five people standing?

The Chair: I do the same thing with you too. I know for a fact that automatically it's going to be a nay, so I don't want to be too technical. Either we go through it and I could take my time and go very slowly at it — if I hear no nays I will assume that the motion's carried.

Mr Carroll: Your ruling is if there are five people standing in their place it's not a request for a division.

The Chair: No.

Mr Carroll: Can you explain why not?

The Chair: I explained well. I try to be fair. I think you must admit that. I don't think I made any mistakes so far and I would like to continue that way. But if you don't like it that way, I'm in your hands. You're the boss; I'm not. So we'll keep on. Are you clear and satisfied?

Mr Doug Galt (Northumberland): On a point of order, Chair: I'm still confused on this particular order, the fact that there are five people standing when you ask "Shall the motion carry?" and they've already asked for a division, I do not understand why it's necessary to ask for the ayes and nays. If they're standing and they've asked for a division, we should just proceed to the fact that the vote is deferred.

The Chair: To the member for Chatham-Kent and the member for Northumberland, when I hear a "nay" here I look there and they're standing up. They're behind their seats and they're just standing up. It's as simple as that.

Mr Len Wood (Cochrane North): On a point of order, Chair: It's quite clear that you've explained this clearly. The way I understand it is if there were no nays over there, you would not have to have a standing vote to have it deferred, on this side. The reason we're standing is because as the vote is called we're standing five members to have

it deferred. If there were no nays, there would be no problem.

The Chair: NDP motion, subsection 24(4): Glebe Road West. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it and the vote is deferred.

NDP motion, subsection 24(4): Glebeholme Boulevard. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it and the vote is deferred.

NDP motion, subsection 24(4): Glebemount Avenue. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it and the vote is deferred.

NDP motion, subsection 24(4): Gledhill Avenue. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it and the vote is deferred.

NDP motion, subsection 24(4): Glen Agar Drive. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it and the vote is deferred.

NDP motion, subsection 24(4): Glen Albert Drive. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it and the vote is deferred.

Mrs Boyd: On a point of order, Mr Chair: We appear to have gone backwards in the alphabet here. There's a problem because we were at "Gr." We did Grittani Lane, if you'll recall. Can we pause for a moment to just figure this one out?

The Acting Chair: Certainly.

Mrs Boyd: Mr Chair, I suggest we go ahead with the h's because they are in order. There is the listing that has from Grittani down through to Gypsy Roseway but we don't seem to have it, and the Clerk doesn't appear to have it here and the listing actually has it, so if we could go ahead with the h's, and if we find the rest of that listing we provided —

The Acting Chair: We can have a minor celebration as we start the h's.

Mr Tony Clement (Brampton South): I just want it confirmed from the Chair that the motions as they are read

are as filed by the parties and that we will not deviate from that — that's the list — unless there's a duplication, which we found in this case.

The Acting Chair: That's my understanding of how it should operate. Some of those missing in the g's may appear elsewhere and have already been registered. If they appear —

Mr Clement: If they've been registered, Mr Chair, I have no problem whatsoever. If they've been registered with the Clerk, registered with the table, then there's absolutely no problem. But we can't go back to search for items which have not been filed and registered. Is that correct, sir?

The Acting Chair: That's my understanding, sir.

Mrs Boyd: On a point of order, Mr Chair: I certainly was not thinking we would find something that hadn't been filed. My concern is that they've been misfiled in terms of the listing. But if they were filed, then we will come upon them as we go through our pile.

The Acting Chair: I think we both have the same understanding. We celebrate as we start into the h's? It's almost like a birthday.

The Chair: No, member for Algoma. I wasn't recognizing you. I was recognizing the member for Cochrane North.

Mr Bisson: South. Thank you very much, Chair. I know it's late.

Mr Michael A. Brown (Algoma-Manitoulin): It is early.

Mr Bisson: It's early, that's right. It is 6 am, not pm. In the vote that we just had, when you went through it you said it was deferred but you didn't say if it was the ayes or the nays that had won the votes. I'm wondering, which way did you defer it?

The Chair: It is one mistake in a thousand. That's not bad.

Ms Lankin: I believe the other members have to be sitting down when I raise a point of order.

On a point of order, Mr Chair: The next amendment, which refers to Kensington, inadvertently is missing the street designation and therefore I would like to withdraw that amendment.

The Chair: Withdrawn.

The Chair: I believe that we're all tired and if somebody sometimes can fall asleep, it's not because they want to, it's because they are no longer capable of staying awake. Honestly, I don't object to it.

Interjections.

Mr Bisson: I didn't hear you.

The Chair: I don't object to it.

Mr Bisson: You don't object. So this is like the Senate, right?

The Chair: I don't object to it because of unusual circumstances.

0610

Mrs Lyn McLeod (Fort William): Mr Chair, on the same point of order: If I could just inquire then whether or not somebody who is clearly sound asleep constitutes part of a quorum.

Interjection: Absolutely.

Ms Lankin: Point of order, Mr Chair: It's on this.

The Chair: I'm answering this.

Ms Lankin: I wanted to add to that point of order.

The Chair: Okay.

Ms Lankin: I just wanted to inform you that this point of order has been raised and was ruled on by a previous Chair around this time last night. I just wanted you to be informed of the previous Chair's ruling. She said that it was not her job to ascertain whether or not members were awake or asleep, dead or alive, as long as there was a body there.

The Chair: Well, if there was a precedent then I should follow it.

NDP motion, subsection 24(4): Kensington Place.

Another point of order?

Mr Bisson: I wouldn't mind if somebody went to check his pulse just to make sure that he's not ill. I wonder if we can — maybe one of the Conservative members can check his pulse to make sure he's still alive because I am concerned for his health and I wouldn't want to see one of my colleagues be ill.

The Chair: There is a nurse in service if you'd like to go and get her and ask.

Mr Bisson: Can we adjourn the House until the nurse comes, Speaker?

The Chair: You can go and fetch her.

Ms Lankin: Mr Chair, this is in Beaches-Woodbine.

The Acting Chair: Great.

Shall the motion carry? All those in favour, please say "aye." All those opposed, please say "nay." In my opinion, the nays have it.

NDP motion, Lawndale Road —

Mr Tony Silipo (Dovercourt): Excuse me. "In my opinion, the nays have it" and?

The Acting Chair: This shall be a deferred vote. Thank you for reminding me.

NDP motion, section 24, sub (4): Lawnmere Crescent. Shall the motion carry?

Ms Lankin: On a point of order, Chair: I just wanted to point out that you read "NDP motion, section 24, sub (4)." It's subsection 24(4).

The Acting Chair: That's not what it says in the paper. The paper says —

Ms Lankin: No, it says "subsection 24" —

The Acting Chair: But it says, "I move that section 24" —

Mr Silipo: Yes, that's right.

The Acting Chair: So which is it, a subsection or section? Above it says "subsection 24" and below it says "I move that section 24...." So is it really a section or subsection?

Mr Silipo: On a point of order, Chair: The section that is being amended is section 24, by the insertion of a subsection which would be 24(4).

Ms Lankin: It would be 24, 24(4).

Mr Silipo: It's subsection 24(4). Section 24, subsection (4), which makes 24(4), subsection 24(4).

Mr Tony Silipo (Dovercourt): Point of order.

The Acting Chair: Oh, I'm sorry. Point of order.

Mr Silipo: Thank you, Chair. I believe this is a duplicate of the one that you just passed, so I would like to withdraw it. You've just done Leonard Avenue, I believe, right? This is the second copy of the same.

The Acting Chair: Thank you very much. Yes.

Mr Silipo: Thank you.

The Acting Chair: Thank you. A duplication there.

Well, we have an NDP motion, subsection 24(4): Leonard Circle. Shall the motion carry? All those in favour, please say "aye." All those opposed, please say "nay." In my opinion, the nays have it, and we have two, three, four, five; there shall be a deferred vote.

Mr Gilles Pouliot (Lake Nipigon): A point of order, Mr Chair.

The Acting Chair: Point of order, member from Nipissing.

Mr Pouliot: No.

The Acting Chair: Lake Nipigon. My apologies.

Mr Pouliot: There is a huge difference, Mr Speaker.

The Acting Chair: Oh, hope he's not watching.

Interjection: Especially at the end of every month.

Mr Pouliot: Mr Speaker, I heard either a sigh of relief on you, but I wonder about your health —

The Acting Chair: Well, my health is just fine.

Mr Pouliot: — if you're well. There's this "ho" and then the name of the street on the previous motion.

The Acting Chair: Sometimes there's a little pronunciation problem, and I hesitate with the pronunciation.

Mr Pouliot: Nipissing.

The Acting Chair: We have an NDP motion, subsection 24(4): Lepus Starway, l-e-p-u-s. Shall the motion carry? All those in favour, please say "aye." All those opposed, please say "nay." In my opinion, the nays have it and there shall be a deferred vote and a new Chair.

Interjection: Speed up the pace a bit, Bert.

The Second Deputy Chair (Mr Bert Johnson): No, no. It's not how fast we go, it's that we do it well.

Interjections: Hear, hear.

The Second Deputy Chair: Thanks very much, Doug. This is an NDP motion, subsection 24(4): Leroy Avenue, l-e-r-o-y. All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Lescon Road, l-e-s-c-o-n. All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it.

Mrs Lyn McLeod (Fort William): Are you not making an assumption, Mr Chair, by pointing to each side in the question?

The Second Deputy Chair: Well, I —

Interjection: It's pretty reliable.

The Second Deputy Chair: I guess I just want to be sure I don't make a mistake.

Interjection: Don't worry.

The Second Deputy Chair: But if you don't want it, I won't.

Mrs McLeod: Well, I just thought it might — for interest, you might want to refer to "all those in favour, say 'aye'" with this hand and "all those —

The Second Deputy Chair: NDP motion, subsection 24(4): Lesgay Crescent, l-e-s-g-a-y. All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Leslie, l-e-s-l-i-e. All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. This vote is deferred.

The Second Deputy Chair: Is there unanimous consent? No.

G-a-r-d-e-n-s. All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

0810

NDP motion, subsection 24(4): Leslie Street, l-e-s-l-i-e. All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Lesmar Drive, l-e-s-m-a-r. All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Lesmill Road, l-e-s-m-i-l-l. All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it.

NDP motion —

Mrs McLeod: On a point of order, Mr Chair: I don't believe you called that as a deferred vote and I believe five people were standing.

The Second Deputy Chair: Oh, I'm sorry. That vote, Lesmill, is deferred.

NDP motion, subsection 24(4): Lesmount Avenue, l-e-s-m-o-u-n-t. All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Lessard Avenue, l-e-s-s-a-r-d. All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

There are too many standing. If there are too many people standing on this side, I can't tell when you're just standing to record your wish to have a division or whether you have a point order.

Mr Michael A. Brown (Algoma-Manitoulin): I much appreciate that, Mr Speaker.

The Second Deputy Chair: I recognize the member for Algoma-Manitoulin on a point of order.

Mr Michael Brown: I don't believe on the last vote you asked if the motion would carry.

Mr Bud Wildman (Algoma): You're skipping a line.

The Second Deputy Chair: Unless I'm mistaken, I haven't done that since I came this morning. I'm sorry, I haven't.

Mr Michael Brown: I think that's part of the procedure, Mr Chair.

The Second Deputy Chair: I would like to address the member for Algoma-Manitoulin on a point of order. It is a point of order. I'm advised by the very best help available in this entire building that indeed I should put the question, "Is it the wish of this committee this motion carry?" and then if it's carried I don't have to go through with the rest. In terms of expediting it, I've been leaving that out. I've done, I think, over a thousand of these and I've never had that occasion come yet, so I just thought it would expedite things to eliminate that. I would ask for unanimous consent for that.

Interjections.

The Second Deputy Chair: Order. I have to have order here. I'm trying to address a point of order over here and I can't have this chattering back and forth.

Interjections.

The Second Deputy Chair: Order. Would the member in his wrong seat and the member for Lake Nipigon come to order. Would you please come to order.

Interjection.

The Second Deputy Chair: Order, I warned the member for Lake Nipigon once. I will not warn you again. I'm addressing a point of order. It's a very important part of this process that it be done properly. I don't want to make a mistake and I'm sure nobody else does.

To finish the point of order from the member for Algoma-Manitoulin: Because it is not used in committee and we're in committee of the whole, I thought it wasn't necessary here. I have obviously blundered. I'm sorry and I will correct it. That's not my only blunder this morning; I've made others and I will make more. I slept in. I'm not infallible. I will do the best to my knowledge to do everything that is right and proper. Does that satisfy your point of order? Are you getting up on something else?

Mr Michael Brown: Yes, thank you. The House needs to understand that there is a reason why we go through the procedure —

The Second Deputy Chair: No, no, I'm sorry. That is not a point of order.

Mrs McLeod: On a point of order, Mr Chair: I just wanted you to clarify the ruling you've given us. I realize some of these things may become rather rote after a while. I thought I was following it fairly closely and I believe you were calling for the question to be carried, whether the committee would carry the question, up until the last two votes. I attempted to interject on the second-last, so I think you have been doing it as we have been following procedure.

Interjection.

The Second Deputy Chair: I am addressing the member for Fort William. I've only done 11 this morning. Like

I said, I overslept. I apologize. We can come to a standstill and I can check that for you.

Mrs McLeod: No need. I just think you have been.

The Second Deputy Chair: Because I am fallible; I have made mistakes. I will almost guarantee that of those 11 I have not done one yet. But I've already explained to the member for Algoma-Manitoulin that I will, and if that's enough, then I would like not to have to go into this any more. I'd like to get on with it. Would that be the wish of everybody here?

Mrs McLeod: Mr Chair, I wasn't suggesting we suspend the proceedings to check the record. I just think you're less fallible than you were suggesting you were.

Interjections.

The Second Deputy Chair: Order.

Mrs McLeod: I was under the impression, Mr Chair, you were doing yourself an injustice by thinking you hadn't followed that procedure all morning. I have no need for you —

The Second Deputy Chair: You were using the "fallible."

Mrs McLeod: I just said you were less fallible than you were suggesting that you were, because you hadn't made the mistake, in my view, earlier on, so no need to correct the record any further.

The Second Deputy Chair: I'll take that in the sense that it was said.

Mr Michael Brown: On a point of order, Mr Chair: Just so we could have this clarified, when the question has not been asked properly, does that affect the vote? I want to know because this could have some ramifications. Clearly we could find a way to maybe fix that if that is the problem.

The Second Deputy Chair: That is not a point of order.

Mr Michael Brown: It isn't?

The Second Deputy Chair: I would like to explain that, if I can, just to clear it up. A point of order is if we're doing something wrong. You stood up and had a point of order that I was doing something wrong. Fine. Right now, you're standing up and we haven't done anything, so how could I do anything wrong?

Mr Michael Brown: On a point of order, Mr Chair: All I was trying to do was to be helpful so that we could understand if the standing order had not —

The Second Deputy Chair: Please take your seat. That is not a point of order, but I'm going to explain because I want to get things right and I want to do things properly; that's my job. I know what your point is and I want to explain the point. First of all, it's not a point of order, but I'm going to explain. The point of order is that we're doing something wrong, so I'm not willing to take a question on a hypothetical thing — "What if you make a mistake in the future? What if you made a mistake in the past?"

0820

If I made a mistake in the past and it's the wish of any member to bring that as a point of order, then by all means bring it up and we'll get it over with and we'll get on. We'll expedite things and we'll get to where we want to go. I was brought up to say that's what the end of the job is.

But this is not question period. You can't ask me, "What will happen?" "What has happened?" "What about...?" or anything else. If I'm doing something wrong, that's a point of order. I will want it to be brought up. Are we clear?

Mr Silipo: This side is clear.

The Second Deputy Chair: Is there anybody else who's not clear? Can I explain it any better so that every person in this House will know exactly the way we want to do it?

Interjection: We're clear. Everyone's clear.

Interjections.

The Second Deputy Chair: Order.

This is an NDP motion, subsection 24(4) Lesskim Court, l-e-s-s-k-i-m. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, Lester Avenue, l-e-s-t-e-r. Shall the motion carry. All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

Mr Silipo: On a point of order, Chair: I would like to withdraw the following amendment, which deals with Lester B. Pearson International. While it's an important airport, I don't believe it's a street, so we will withdraw that.

The Second Deputy Chair: Yes, that is a point of order and I shall withdraw it.

I would like to make a request, and that is that we dispense with withdrawing them. It's faster for me to just go through and do them in their improper form.

Mr Silipo: It may be faster, but I think it would be appropriate that if we have an amendment that we don't think is appropriate we withdraw it as opposed to having a vote on it.

The Second Deputy Chair: If you don't want to do it in the fastest way possible, we'll expedite but we'll do it properly. That's your point?

Mr Silipo: That's my point.

The Second Deputy Chair: That should be all our point. It is done.

NDP motion, subsection 24(4): Lesterwood Crescent, l-e-s-t-e-r-w-o-o-d. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Leswyn Road, l-e-s-w-y-n. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Letchworth Crescent, l-e-t-c-h-w-o-r-t-h. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

Mr Pouliot: On a point of order, Mr Chair: I do not believe the House is duly constituted. Quorum call, please.

The Second Deputy Chair: Are you asking me to ascertain that?

Mr Pouliot: Yes, I'm asking that quorum be taken.

The Second Deputy Chair: Would you determine if there is a quorum.

Clerk at the Table (Ms Lisa Freedman): A quorum is not present, Chair.

The Second Deputy Chair ordered the bells rung.

Clerk at the Table: A quorum is now present, Chair.

The Second Deputy Chair: NDP motion, subsection 24(4): Lethbridge Avenue.

Mr Steve Gilchrist (Scarborough East): On a point of order, Chair: In the interests of both your voice and time,

the Chair had ruled yesterday, in allowing the abbreviation of these, that they need not be spelled unless asked for, and even then his presumption was that would only be occasional, in the case of awkward words. I'm sure on behalf of our members we would be more than happy to have you dispense with the spelling of each of those names.

The Second Deputy Chair: Is it the wish of this committee I dispense with spelling the names? I'm sorry, there is not unanimous consent.

Mr Gilchrist: On a point of order, Chair: With the greatest respect, the Chair said yesterday, and it's not something subject for unanimous consent opposite, that it was not necessary and they would have to ask for it when necessary.

Interjections.

The Second Deputy Chair: Order. I'm addressing the member for Scarborough East on a very important point of order and my ruling is that is not a point of order because it has been ruled on before. You may appeal my decision, but that is my ruling.

Interjections.

The Second Deputy Chair: Order, please. I'd like to get on with this. I'd like to get this expedited. Right now I think I have as many ticks off for motions passing as I do points of order, and that is not expediting this in the best parliamentary manner.

Shall the motion carry? Shall the motion carry? I'm sorry, I'm asking the question. It was deemed by this committee that it is very important that I ask the question, "Shall the motion carry?" There were people talking. There was no response to it —

Mr Silipo: Yes, there was.

The Second Deputy Chair: Pardon me, there was no response until I asked it for the second time. I have to have the attention. If it's important that I read it, that I say it, it's important that it be answered. I want to give every chance that this is fair and I don't think I should have to do it twice.

For the third time, shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Leuty Avenue, l-e-u-t-y. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Leverhume Crescent, l-e-v-e-r-h-u-m-e. Shall the motion carry? All those in favour say "aye." All those opposed — Order. The member for Algoma-Manitoulin is rising on —

Mr Michael Brown: No, just stretching my legs.

The Second Deputy Chair: Oh, I have one member who is stretching — maybe if you would do it one at a time. No, the member for Nickel Belt, you are stretching yours first. If you would do it one at a time — this is kind of a tedious task. I try to use all my senses: my eyesight, my hearing, my voice. When I look around, I see people standing, I hear a little bit of noise and I think they're on a point of order. I don't think we should have to stop every motion for an interruption of that sort. I'm not ruling that you can't ever stand up and stretch your legs. I'm saying that if you need five to be standing, maybe if you did it one at a time, that would be reasonable.

0830

Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Levitt Court, l-e-v-i-t-t. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lewes Crescent, l-e-w-e-s. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

Mr Silipo: Point of order, Mr Chair: I'd like to withdraw the following amendment, which just has the word "Lewis" on it. The one that follows has "Lewis Street," so this is a duplicate, an error.

The Second Deputy Chair: How are you spelling that?

Mr Silipo: L-e-w-i-s. That's all that's there. There's no street designation.

The Second Deputy Chair: Done.

NDP motion, subsection 24(4): Lewis Street, l-e-w-i-s. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lewiston Road, l-e-w-i-s-t-o-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lexfield Avenue, l-e-x-f-i-e-l-d. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lexington Avenue, l-e-x-i-n-g-t-o-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

Mr Silipo: Point of order, Mr Chair: Sorry, I was just a bit slow on this. It's the same issue here. I would like to withdraw the amendment that you're about to read on Leyton, l-e-y-t-o-n, because the following one is Leyton Avenue.

The Second Deputy Chair: It's done.

NDP motion, subsection 24(4): Leyton Avenue, l-e-y-t-o-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lia Crescent, l-i-a. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

Mr Silipo: Point of order, Mr Chair: I would like to withdraw the next amendment, which deals with Liberty, l-i-b-e-r-t-y.

The Second Deputy Chair: It's done.

NDP motion, subsection 24(4): Liberty Street, l-i-b-e-r-t-y. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lichen Place, l-i-c-h-e-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lighthall Crescent, l-i-g-h-t-h-a-l-l. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lighthouse Lane, l-i-g-h-t-h-o-u-s-e. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lightning Point, l-i-g-h-t-n-i-n-g. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lightwood Drive.

Interjection.

The Second Deputy Chair: I have warned the member for Lake Nipigon.

L-i-g-h-t-w-o-o-d. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lilac Avenue, l-i-l-a-c. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lillian Drive, l-i-l-i-a-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lillian Street, l-i-l-i-a-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lillibet Road, l-i-l-i-b-e-t. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lillington Avenue, l-i-l-i-n-g-t-o-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

I'm sorry, are you standing and talking?

Mrs McLeod: Yes.

The Second Deputy Chair: You have a point of order.

Mrs McLeod: No, Chair, I don't.

The Second Deputy Chair: Well, it is confusing to me.

Mrs McLeod: I appreciate that. I will endeavour to make sure that when you're looking, I will not be talking.

The Second Deputy Chair: That's the only time, if you're standing and talking. I can only do three or four things at a time.

NDP motion, subsection 24(4): Lilywood Road, l-i-l-y-w-o-o-d. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lime Treeway, l-i-m-e. Do you want "Treeway" spelled as well? No. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

The member for Wilson Heights, you're standing. Are you stretching your legs too?

Mr Monte Kwinter (Wilson Heights): I'm standing.

The Second Deputy Chair: I have a problem. We've had some members standing and stretching their legs. My wish is that only one be standing and stretching at a time. I like to catch five members standing, and if I don't know if they're standing just to stretch their legs or because they're on a point of order, it is just a little bit disconcerting.

Mr Kwinter: Mr Chair, are you raising a point of order?

The Second Deputy Chair: No, I'm just saying what would be very helpful to expediting this in the most parliamentary manner.

Mr Kwinter: On a point of order, Mr Chair: Yesterday during a similar situation the Chair at the time ruled that because, when she was reading she wasn't doing anything else and couldn't see anybody, as long as when she looked up she saw people standing, she'd consider that people were standing. As a result, many of us during the night decided it was a lot easier for everybody if we just stayed standing, that it did not interfere in any way with the Chair, who was busy reading the amendment and then looked up and could count at least five bodies standing, and that was it. It was on that ruling that I'm standing. If you want to change that ruling, I'd be happy to accede to your wishes.

The Second Deputy Chair: Are you standing now?

Mr Kwinter: I'm absolutely standing now.

The Second Deputy Chair: Then you weren't standing before.

Mr Kwinter: To my knowledge I've been standing all the time that I've been standing.

The Second Deputy Chair: I want to address this very clearly, I want to be very precise: I want to get this job done in the very best way that I can. Before you were still reading, you were slouching over, and when I look over I can — I'm sorry, I may overlook you at some time and make a mistake because I won't count you as one of those five. If you're standing upright, that's fine.

That was a point of order. Have I addressed it in every reasonable way I can?

Mr Kwinter: Yes. Thank you.

The Second Deputy Chair: Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Limerick Avenue, l-i-m-e-r-i-c-k. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

You don't have to be facing me when you're standing, either.

NDP motion, subsection 24(4): Limestone Crescent, l-i-m-e-s-t-o-n-e —

Pardon me. There's someone standing and talking. That is very disconcerting to me.

Shall the motion carry? All those in favour — shall the motion carry?

I asked the question twice. I don't want to make a mistake in this, but I don't think I should have to ask that question twice, to beg an answer for it. I don't want to be biased or overlook anything that I possibly can. When I ask the question, even if only one person says, "Carried," that's enough, and even if they say it a little bit tardily, that's okay, but I want to have a response.

L-i-m-e-s-t-o-n-e. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is — the member for Dovercourt, are you standing?

Mr Silipo: I am standing.

The Second Deputy Chair: I can go as slow or as fast as you want, if that's the wish, to slow this down to a crawl.

The vote is deferred.

NDP motion, subsection 24(4): Limevale Crescent, l-i-m-e-v-a-l-e — the member for Dovercourt, I have requested on numerous occasions that when persons are standing, they don't talk unless —

Mr Silipo: I apologize.

The Second Deputy Chair: Accepted.

NDP motion, subsection 24(4): Limevale Crescent, l-i-m-e-v-a-l-e. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Limoges Court, l-i-m-o-g-e-s. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lincoln Avenue, l-i-n-c-o-l-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lincoln Woods Court, l-i-n-c-o-l-n-w-o-o-d-s. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lindal Avenue, l-i-n-d-a-l. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Linden Avenue, l-i-n-d-e-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Linden Street, l-i-n-d-e-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

The member for Dovercourt. I only need five members. Four won't do, so I'd like to include you, but when you're not standing in your place —

Mr Silipo: This is my place. I am standing.

The Second Deputy Chair: I'm going to rule that you're going to have to be facing me —

Mr Silipo: You said before you didn't need people facing you, sir. That's why I'm doing it.

The Second Deputy Chair: I don't under usual circumstances. These are unusual because you also want to be able to talk and stand at the same time.

I'm sorry. I try to do the best I can. When I ask the question "Carried?" I'm having trouble always getting a response to that. I look up, I scan and I see five, and if you're doing something at the back and bending over and I miss you, I'm awfully concerned that I'll make a mistake. If there are mistakes made here — I don't want to and I make lots of them and I'm sorry. I just wondered if there's any way that you can help me.

Mr Silipo: I'd be happy to help you, sir, if you could just clarify for me: Do you require members to stand facing you? I thought earlier you said it was acceptable that as long as we were standing in our place, it didn't matter whether we were facing you or facing another direction. That's why I haven't turned around. But if you require us to face you, I will do that.

The Second Deputy Chair: No, my question is, if you are leaning over, facing the other way, putting papers in a box or taking them out, then are you standing in your place? I will rule on it, if you want, but the point is I may make a mistake because of that because I don't include you. Then you're going to have some criticism of this Chair, and I want to leave absolutely no room for criticism, if I can possibly help it.

Mr Silipo: I appreciate that. I will stand up straight. But I just want to be clear, as long as I'm standing straight, it doesn't matter which direction I'm facing?

The Second Deputy Chair: I'm sorry, this isn't question period. We're not going to enter into debate.

Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. This vote is deferred.

NDP motion, subsection 24(4): Linderwood Drive, l-i-n-d-e-r-w-o-o-d. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Lindhill Island, l-i-n-d-h-i-l-l. Shall the motion carry? Shall the motion carry? It does not carry. I asked it twice. I got no "carried." It does not carry.

Mr Wildman: That's fine.

Mr Floyd Laughren (Nickel Belt): You are wrong in this case. You are dead wrong.

Mr Wildman: I said "carried."

The Second Deputy Chair: I'm thinking of ruling so you may have the freedom of the House, if that's in order.

Mr Silipo: Chair, what's going on? There was no challenge to you.

The Second Deputy Chair: I'm looking for a ruling.

Mr Mario Sergio (Yorkview): But there was no challenge.

The Second Deputy Chair: Not yet.

Order. The ruling I'm seeking is whether or not I should be soliciting the response "Carried." Up until now I have always, without exception, every time, had the word "carried" given to me by someone. Only this morning have I ever solicited it. When I didn't hear it, I asked for it twice.

1850
A very experienced, respected member of this House indicated that I was doing something wrong, and I don't want to do that. In the fullest respect, I don't want to do that. I was seeking a ruling, and I want to address the member for Nickel Belt because he is absolutely right. I am

absolutely wrong. I do not need to have the word "carried." I thank you for your help on that, because I thought that I wasn't hearing the word "carried." Indeed, I don't need the word "carried." So you can do whatever you like that way.

What I'm telling you is that I go by my senses. I look at things, I go by hearing, I look up to see. I'm trying to do this the very best I can and I didn't want to make a mistake, because I was about to rule that if I had to keep soliciting, I was not going to continue to do that, just on my own. Is that clear?

Mrs McLeod: May I ask for just one further clarification on it?

The Second Deputy Chair: No, it's not question period, but if you're rising on a point of order, then I recognize the member for Fort William.

Mrs McLeod: Yes, then, I am rising on a point of order in direct response to the point of order which I think you just placed, which was to ask whether or not the procedures are clear. It would be my understanding then that you will, as the other Chairs have followed procedure, when the motion is placed say, "Is it the pleasure of the committee that the motion carry?" and that if there is no dissenting voice, then the motion indeed is carried without further procedure. So you don't have to put ayes or nays. If there's no "yes," then you still have to go to ayes or nays, because it's only the dissent that would put it to the next stage in the procedure.

The Second Deputy Chair: I'll address that. If you're asking me for clarification, I don't mind giving it, but it's not a point of order.

Mrs McLeod: Mr Chair, with respect, I do believe that the order in which we carry out the voting procedure is a point of order, and so I'm just wanting to determine that.

The Second Deputy Chair: Absolutely, but asking me about it isn't.

Mrs McLeod: Determining under what rules of procedure we are carrying out our votes is a point of order.

The Second Deputy Chair: I've read a thousand of these. If I'm not doing it right, then stand in your place and bring it to a point and correct me, but I'm not willing to go through and explain and explain what I've been doing. Is that okay?

Mrs McLeod: Mr Chair, I'm not wanting to challenge you in any way. I wanted to be sure that we don't have to go through this on subsequent occasions, because as you've just said, there was about to have been a mistake made, which you corrected, and I appreciate that. You corrected that even though we had not challenged it, and I appreciate the fact that you yourself undertook to clarify the rules of procedure. Rather than wait for a point at which we would have to challenge, I just wanted to be sure that where there is no dissenting vote when you place the question, "Shall this motion be carried?" if you hear no dissenting vote, nobody says no, then the motion carries without any further placing of the ayes or nays, and I believe that is correct procedure.

I know that it would distress you very greatly, Mr Chairman, if a motion had to be called carried because there was not clarity in the procedure, since that has already happened once in the placing of these amendments, not when you were in the chair, but it has happened. It has significance, and I just want to be absolutely sure that

we're clear on the circumstances under which a motion will be considered to be carried with no further steps, including the ayes or nays, and it would be if there was no dissenting voice when you place the question, "Shall this motion be carried?" At that point, if there is no "no," that motion is carried with no further steps. Since it does have significance, I think it's an important point of order to ensure that we are all in agreement as to how we're proceeding.

The Second Deputy Chair: Yes. I'd like to address that. This is not a point of order. Right now we are not in debate, so —

Mrs McLeod: All right, Mr Chair. I will withdraw it, and we will proceed and challenge should the occasion occur, but I believe that since I have not been corrected by point of order, my understanding of the proceedings is correct.

The Second Deputy Chair: No. I want to be very clear about that. Just because somebody gets up and says it and I don't challenge it, I do not accede to it either. If I don't say anything, that means that I have maybe deferred my decision or I've put it off or I'm retaining that right to contradict it or to agree to it later.

Mrs McLeod: That's fine, Mr Chair. You will reserve that right. I was trying to be helpful, but we will proceed, and should there be a point of challenge, I will make the challenge at the time.

The Second Deputy Chair: That would be the proper way.

This is an NDP motion, subsection 24(4): Lindhill Island, l-i-n-d-h-i-l-l. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

Order. Is the member for Lake Nipigon standing in his place? Then you have a point of order?

Mr Pouliot: No, because I would say "Point of order," and then you would recognize me for a point of order.

The Second Deputy Chair: With due respect, if you're standing in your place and talking, I have to know if it's a point of order. I have ruled that you may not stand in your place and talk. It's disconcerting to me, and I will not tolerate it.

Mr Pouliot: I understand that it would be disconcerting.

Mrs McLeod: Mr Chair, on a point of order: May I just determine whether you did hear a dissenting voice when you placed the question?

The Second Deputy Chair: I did. I'm going to rule that that is not a point of order, but I want to explain what I'm doing. I'm using my hearing for that. So if I don't hear it, I don't hear it, and if I do hear it I do hear it. So if I didn't hear a dissenting voice, I would not have proceeded.

NDP motion, subsection 24(4): Lionhead Trail. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it.

Mr Pouliot: Point of order —

Mr Pouliot: My apologies.

The Second Deputy Chair: The vote is deferred.

Ms Annamarie Castrilli (Downsview): A point of order, Mr Chair: You didn't look to see if there was a deferred vote on that.

NDP motion, subsection 24(4): Littles Road, l-i-t-t-l-e-s. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

The First Deputy Chair (Ms Marilyn Churley): Good morning again. Before I begin, let me tell you that when I was here at 3 this morning I thought it was my 9 shift and I was halfway through the vote this morning when I looked at the clock and thought, What? I phoned three people from my office at 3 this morning and left messages on their machines saying, "Hi, it's 9 in the morning, blah blah blah" — and woke them all up, I found out this morning. Anyway, having said that, let's get started.

Mr Ernie Hardeman (Oxford): That's why you kept referring to "this morning."

The First Deputy Chair: That's right. NDP motion, subsection 24(4): Littlewood Crescent. Shall the motion carry? All those in favour say "aye." All those opposed please say "nay." In my opinion, the nays have it. Deferred vote.

NDP motion, subsection 24(4): Littoral Place, l-i-t-t-o-r-a-l. Shall the motion carry? All those in favour

NDP motion, subsection 24(4): Livingstone Avenue. All those in favour of the motion please say "aye." Those opposed please say "nay." In my opinion, the nays have it. The vote will be deferred.

Mr Pouliot: On a point of order, Chair: It has been the practice — Livingstone Avenue has not been spelled. I don't wish to draw you into a spelling bee contest, Madame; however, for the edification of all of us, and those many, many who are listening on television, who are tuned to the parliamentary channel, it is important that people understand which street.

The First Deputy Chair: I'll tell you what I was doing when I came in for this new change in the reading at 3 this morning, which I thought was 9. I was spelling ones that I thought sounded unusual or not clear when I said them, and the ones that seemed to me to be obvious I was not spelling. That worked except on, I think, two or three occasions, when I was asked to spell ones I didn't. I'd prefer to keep going that way and if there's one that is not obvious and you want it spelled, just ask me. That's my ruling, member for Lake Nipigon.

Okay, we shall continue: NDP motion, subsection 24(4): Livonia Place, l-i-v-o-n-i-a. Shall the motion carry? All those in favour please say "aye." Those opposed please say "nay." In my opinion, the nays have it. The vote will be deferred.

Mrs McLeod: On a point of order, Madam Chair.

The First Deputy Chair: I want to continue the vote. I'm in the middle of a vote.

The vote will be deferred.

Yes, now I'm finished the vote. Point of order?

Mrs McLeod: Yes, I just wanted to ask about the rules of order governing the recordings in Hansard. It's my understanding, and I hope it's an accurate understanding and I think all members of the House would hope it's an accurate understanding, that because of the rather unprecedented ruling that the Speaker made in saying that the amendments would not have to be fully read, that the same procedures would apply to Hansard, so that in a recording of Hansard it would be the original amendment and then just the names that are being recorded in Hansard.

It's my understanding that's the way Hansard will proceed and I just wanted to confirm that that was the case. If it is the case, I would then proceed to a second related point of order.

The First Deputy Chair: Okay.

Mrs McLeod: There are no tricks in this, Madam Chair, just in case government members are wondering.

The First Deputy Chair: I think it's fair for people to raise points of order about procedure in this place, especially after a ruling that changes the way we're doing things. I'd like to know, myself, frankly.

To the member for Fort William: The table officer is going to check. He is not sure, but his belief at this time is that whatever is in Hansard is what is read out. Perhaps you want to keep your second point of order, if it's related to this, until we know. That's what I'd prefer to do.

Mrs McLeod: In the interest of actually proceeding with it, if I may, Madam Chair, I would just perhaps indicate that my second point of order was to say that if my under-

standing of that is correct, whether or not it would be in order to seek a unanimous consent of the committee of the whole in order to have that decision, as it applies to the recording in Hansard, retroactive to the point at which Hansard is now, which would save Hansard staff considerable extra hours of transcribing.

I pose it simply because I think it would be helpful, given the nature of the Speaker's ruling. I don't think Hansard is currently at the point at which that ruling was made. If it's not in order I will not proceed with it, but if it can be checked —

The First Deputy Chair: We will check on that.

Mr Pouliot: Madam Speaker, on the same point: Given the crucial and vital importance of the matter that has just been raised by my distinguished colleague, I, too, and my colleagues, would wish to know. Maybe a recess of half an hour would be in order, Madam. An important point has been raised.

The First Deputy Chair: Member for Lake Nipigon, I'm not going to call a recess but I'm going to ask that we get that information as quickly as possible so that we can proceed if indeed somebody wants to move unanimous consent.

Mr Sergio: On a point of order, Madam Chair: I was not in the House when the Speaker rendered the decision yesterday. Did he say that members would be provided with a copy of the amendment or with copies of all the amendments?

The First Deputy Chair: I was not in the House either at that time, so if you will give me a moment here.

Mr Kwinter: On a point of order, Madam Chair: Just for clarification, every member was provided with a copy of the amendment. So they should have it at their desk, and all that's been happening is that the street names are being read out.

The First Deputy Chair: But the member for Yorkview asked if there was a ruling yesterday that all members be provided with a copy or copies of all the amendments.

Mr Sergio: I need to know what the ruling was.

The First Deputy Chair: What the ruling was yesterday is that each member of the House would be provided with a copy of the substantive motion, amendment, with a blank where the street is, and the Chair will read out the street name so you can follow along on your provided amendment. Okay?

Mr Sergio: Any possibility that we can have the decision of the Speaker in writing so I know exactly what the Speaker said yesterday?

The First Deputy Chair: I don't think that the Speaker has provided or is providing all of his decisions in writing, but give me a moment here and I'll get back to you.

The Speaker doesn't normally provide his decision in writing unless it is an appeal to a decision by a Chair. So there is no copy of his decision in writing. It will likely appear when the voting procedure — during votes and proceedings.

Mr Sergio: Would that decision be available from Hansard?

The First Deputy Chair: Anything that's said in this House is in Hansard. I understand that Hansard is a bit behind, for obvious reasons, but of course if it was said in this House, it will be available.

The First Deputy Chair: I have a ruling on the point of order raised by the member for Fort William on Hansard.

On the first point, I should say that the Hansard reflects verbatim what I said in the House earlier. From the outset of this process, what has been spoken by Chairs is what will appear in Hansard. Before the Speaker's ruling yesterday, the full texts of the motions were read and will appear in each case in Hansard. Since the Speaker's ruling, the street names have been read, and that is what will appear in Hansard. Again, the transcript is verbatim.

A full Hansard service is provided for in standing order 132(a). It is beyond the scope of this committee to suspend this, to suspend the applicability of the standing orders, even with unanimous consent. Only the House can do that.

Thank you for your point of order.

Mr Silipo: On a point of order, Chair: I believe there was a comment just made by the member for Ottawa-Rideau which I will take was offered in jest and not seriously, but I think warrants being withdrawn.

The Chair: Let me explain the situation I'm in. You made so much noise that I did not hear what he said. I will ask the member for Ottawa-Rideau to stand up, and if you have made a mistake and if you've said something which is out of order or something which is not accepted in this House, I would ask you to withdraw it. I know that you are an honourable member and you will do so.

Mr Garry J. Guzzo (Ottawa-Rideau): Mr Chair —

The Chair: You will do so — no, no — without any explanation. Yes or no. Do you withdraw your comment?

I would ask you as a courtesy, sir, if you would do that.

Mr Kormos: Chair, on a point of order: I'm not being critical, but I'm here this afternoon, and I hear —

The Chair: Speak a bit louder.

Mr Kormos: Sorry, Chair. I hear the Chair raising these amendments in accordance with the direction of the Speaker. Without being critical, sir, I do note that the Chair calls for "All those in favour say 'aye,'" and indeed the Chair immediately, before giving members an opportunity to say "aye," moves into "All those opposed say 'nay.'" The Speaker was quite clear that this was an abbreviated

form of reading amendments and I understand that and I respect the Speaker's ruling. However, Chair, please, that does not mean that we're dispensing with the seriousness of a vote on each and every one of these. With all due respect, sir, I ask that you follow the traditional role of the Chair in awaiting the ayes and then calling for nays.

Mr Pouliot: On the same point of order, Chair: What my colleague has said is of crucial importance. You have noticed the NDP members that are sponsoring the amendments like soldiers at their posts. We have a meticulous agenda to adhere to, and it is most important, in fact vital, that what my colleague has said be ruled on favourably.

Mr Silipo: Chair, on a point of order: Withdraw the following two amendments both of which have the word Minerva inserted, because they are duplicates of the one that will follow after that.

Mr Silipo: That's not what you have? Do you have a Monclova?

Mr Agostino: The Deputy Speaker just waltzed to the lounge here and made some comment. I want to ask you, did you hear me say, "Go back and do your homework?"

The Chair: No, I didn't hear — honestly. Would you please take your seat, the member for Hamilton East.

Mr Agostino: On a point of order, Mr Chair: The Deputy Speaker just waltzed through —

The Chair: Which Deputy Speaker?

Mr Agostino: Mr Johnson, and said, "Don't make that comment to me." I said, "What comment?" And he said, "The comment you just made to the Speaker, 'Go back and do your homework.'" I certainly never made a comment as such. All I asked was for the spelling of the word and I'm not sure where the Deputy Speaker was hearing that from. I just want to clarify for you, Mr Chair, that certainly that comment was not made.

Interjections.

The Chair: Order. Take your seat, please.

Mr Kormos: A great deal of stress, fatigue — auditory hallucinations are often symptomatic of the stress and fatigue that your colleague Speaker is undoubtedly experiencing. I think that explains and rationalizes his comment.

The Chair: That is totally unfair and I don't accept that. I find this remark totally derogatory and I would ask you to withdraw it.

Interjection: Apologize.

The Chair: I would ask you to withdraw it.

Mr Kormos: I'm just concerned about his health.

The Chair: It's totally not — no, no; withdraw it — totally uncalled for. You know, everybody is tired. And we don't talk about people that way.

NDP motion —

Mr Silipo: A point of order, Mr Chair.

The Chair: A point of order. Take your seat. The member for Welland-Thorold, take your seat. A point of order.

Mr Silipo: Yes, Chair, I would withdraw the following amendment which I know should refer to Montreal Street, but because it doesn't have the street designation, left on its own it might read just as "Montreal," and that would be inappropriate so I would like to withdraw that.

The Chair: NDP motion, subsection 24(4): It could be pronounced either Montessor or Mont-ressor. Shall the motion carry? All those in favour will please say "aye." All those opposed will please say "nay." In my opinion, the nays have it and the motion is lost.

NDP motion, subsection 24(4): Montrose.

Mr Wildman: On a point of order, Mr Chair: Could you ascertain as to whether or not there is a quorum.

The Chair: Please check if there is a quorum.

Clerk at the Table: A quorum is present, Chair.

The Chair: NDP motion, subsection —

Mr Silipo: On a point of order, Mr Chair: I believe that there is a duplicate. There's Montrose, which is the one that's coming up, so I would like to withdraw that because the one that follows has Montrose Avenue.

The Chair: Withdrawn.

An NDP motion, subsection 24(4): Montrose Avenue. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it and the vote is deferred.

NDP motion, subsection 24(4): Montvale Drive. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it and the vote is deferred.

NDP motion, subsection 24(4): Montye Avenue. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the vote is deferred.

Mr Kormos: On a point of order, Mr Chair: Once again, and I understand the difficulty, but the Chair said: "All those in favour say 'aye.' All those opposed say 'nay,'" without giving people an opportunity to respond to the call for "ayes." With respect, sir.

The Chair: I heard people responding but if it is your wish, I will abide to that. I will read it again.

NDP motion, subsection 24(4): Montye Avenue. All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it and the vote is deferred.

The Second Deputy Chair: This is an NDP motion, subsection 24(4): Moon Valley Drive. Shall the motion carry?

Mr Agostino: Speaker, on a point of order: Can you spell that, please?

The Second Deputy Chair: Have you got a copy of these in front of you?

Mr Agostino: No, I don't, Mr Speaker.

The Second Deputy Chair: Would you make available to yourself your caucus copy so that you could use that. No, I will not spell it.

Mr Agostino: It's a point of order.

The Second Deputy Chair: That is not a point of order.

Mr Agostino: On a point of order, Mr Speaker.

The Second Deputy Chair: The chair recognizes the member for Hamilton East on a point of order.

Mr Agostino: Mr Speaker, I would ask for the spelling. The Speaker yesterday, if I remember correctly, in his ruling ruled that if the request was made for the spelling of a word then the chair would proceed to spell that word upon the request of a member, and I have made that request.

The Second Deputy Chair: The Speaker said that if there is a request to have one spelled, it should be done to accommodate something that is difficult, I assume, and so on. My ruling is going to be this: I will spell ones that I think should be difficult, and on request, I will spell others. But if I think that we aren't all here to expedite things — in order words, if I am asked to spell every one or every other one, and people are not using the information that the Legislature has provided for them, then I may have to — quite frankly, it might irritate me or something and I wouldn't want my personal things to come into this chair. So yes, I will spell this one.

Mr Agostino: A point of order, Chair.

The Second Deputy Chair: Pardon me, would you please take your seat. So yes, I will spell this because you have asked for it.

Mr Wildman: On a point of privilege, Chair.

The Second Deputy Chair: Could it please wait until I finish this.

Mr Wildman: Oh sure.

The Second Deputy Chair: M-o-o-n v-a-l-l-e-y.

Mr Wildman: On a point of privilege, Chair.

The Second Deputy Chair: The Chair recognizes the member for Algoma on a point of privilege.

Mr Wildman: As I understand it, Chair, all members were given the copy of the written motion with the spaces under sub (4) and then the first item —

The Second Deputy Chair: What's the privilege?

Mr Wildman: — where the names of the streets are included —

The Second Deputy Chair: I'm sorry, what's the privilege?

Mr Wildman: — where the names of the streets are included is blank and so the privilege is this: If a person does not hear correctly or does not understand or doesn't know what the spelling might be, that person doesn't know exactly what she or he is voting on, and to suggest that the member should get the list I don't think is helpful because it isn't available to all members.

Mr Hampton: On a point of privilege, Mr Chair.

The Second Deputy Chair: I have a point in front of me. Would you please take your seat.

The privilege is this: I don't want to even approach the point where I would impede anybody's privilege. I assume we are all here to expedite things, to get on with the thing, without any delays that would be interrupted as being frivolous or vexatious or make a mockery of this. I'm sure that isn't the intention. I assume we are all honourable and that is why it wouldn't be interrupted that way.

The Speaker has ruled that if I'm requested I will spell them. I can tell you that if it's my pronunciation or my enunciation or something then I'll try to improve that, but I don't think that the interpretation I have of the Speaker's ruling is that I have to spell every one. I don't think it

would even be interrupted that I should have to spell every other one. It would seem to me that —

Interjections.

The Second Deputy Chair: Order, order — if there are ones that require some interpretation. Does that finish that point of privilege?

Mr Wildman: I understand.

Mr Hampton: On a point of privilege, Mr Chair.

The Second Deputy Chair: The chair recognizes the member for Rainy River on a point of privilege.

Mr Hampton: Chair, I want to read for you from Beauchesne's Parliamentary Rules and Forms, 6th edition.

The Second Deputy Chair: Stop. Just a moment. I'm here to hear a point of privilege and I'm not here to have that read into the —

Mr Hampton: This is my point of privilege.

The Second Deputy Chair: No, I'm sorry, your privilege is not to get up and read out of that book. Your privilege is to make me aware of something that is being deprived of you, and if you tell me what that is and —

Mr Hampton: Yes and —

The Deputy Speaker: Pardon me, don't hurry me. If, to help you with that point you need to refer to something, then that I think is quite permissible.

Mr Hampton: It's a brief paragraph which is the foundation of my point of privilege, Chair.

The Second Deputy Chair: What is your point?

Mr Hampton: My point is this, Chair: You continue to emphasize that time is your major consideration. I want to point out to you, Chair: "The principles of Canadian parliamentary law are: To protect a minority and restrain the improvidence or tyranny of a majority." That is a principle, sir. It's not a matter of convenience. It's a principle. To protect —

Interjections.

The Second Deputy Chair: Order. I think you have touched a sore button, maybe not on what you said but, with due respect, on the way you said it. I'm neither hard of hearing nor am I —

1320

Mr Hampton: I'm giving an argument, sir.

The Second Deputy Chair: Yes, okay.

Mr Hampton: I'm not entering into polite discussion. I'm giving an argument, as is my right in this Legislature, sir.

Interjections.

The Second Deputy Chair: Order. This member is addressing this chair on a point of privilege and it is my duty, according to your rules, that I hear it out and that I give him every opportunity to make his point, to back it up, and then I have to make a ruling on it. So if you don't mind, I want your attention.

I would like to ask you if you could — I guess it's something called demeanour; if you could temper that just a little bit then we wouldn't get into all these noisy responses.

Mr Hampton: Let me begin again then, Chair: "To protect a minority and restrain the improvidence or tyranny of a majority;..." That is a principle upon which we operate. Second, "— to secure the transaction of public business in an orderly manner;..." I would assume that being able to hear and discern what is said is taken in to the term

"orderly manner," "...to enable every member to express opinions," and I agree with you, "within [time] limits necessary to preserve decorum," is important, "and prevent any unnecessary waste of time."

I agree with you, that is one of the principles, but I ask you to look at the other principles, "...to give abundant opportunity for the consideration of every measure, and to prevent any legislative action being taken upon sudden impulse."

As I read these principles, sir, one of them refers to a timely manner; five of them refer to "protect a minority," "restrain the improvidence or tyranny of a majority," "secure the transaction of public business in an orderly manner; to enable every member to express opinions" — right? — "to give abundant opportunity for the consideration of every measure" —

The Second Deputy Chair: I'm sorry, pardon me.

Mr Hampton: — "to prevent any legislative action being taken upon sudden impulse."

The Second Deputy Chair: Pardon me, I wanted to ask a question. You used the word "right" in a questionable — is that in that quote?

Mr Hampton: No, that was simply an utterance, a confirmation. My point is simply this, Chair: You seem to be placing one principle far above all of the other principles. You seem not to be worried about the protection of the minority. You seem not to be worried about the improvidence or tyranny of a majority. You seem not to be worried about providing opportunity for consideration. You seem not to be worried about preventing any legislative action being taken upon sudden impulse.

Interjections.

The Second Deputy Chair: Order, order.

Mr Hampton: I simply ask you, Chair: Observe all of the principles of parliamentary law.

The Second Deputy Chair: I have a question for you before I make my ruling. Does it say anything in that book about the protection of the majority or the rights of the majority?

Mr Hampton: In fact, Chair, no it doesn't.

Interjections.

The Second Deputy Chair: Order. I need that information in order to make my decision. If we can have order and decorum, I would like to consult and then I will give you my ruling.

Order. I'm addressing the Leader of the Opposition, the member for Rainy River, I'm sorry, the leader of the third party — my apologies — on his point of privilege. The point of privilege was time, I guess, and your interpretation of me trying to, I don't know if the term I might use would be to make time or to save time, or something, and going too fast, or something like that.

Mr Wildman: Expedite.

The Chair: I don't think I need any help right now, but if I do, I'll ask for it, and I consult with the table here when I need help.

I'd like to tell the member for Rainy River, if he's listening to me, that I've been in this chair 15 minutes now. I have heard two points of order. I've heard two points of privilege and I have not yet finished one item of business. I have never, ever said that it was my responsibility to save time or to make time. It's my job only to rule on your rules

in this House and to expedite the business that's before us. But as a courtesy to you —

Interjections.

The Second Deputy Chair: Order.

As a courtesy to you —

Interjection.

The Second Deputy Chair: I'm sorry, I'm addressing you. As a courtesy to the member of the third party, I will spell every street that is here. Is that —

Mr Wildman: That's not necessary.

Mr Curling: Upon request.

The Second Deputy Chair: No, no. I think it will expedite things in a more businesslike and parliamentary way if I would just do that because there is information that the members have not availed themselves of that would help them with it. I guess, if I have to, I'll bend over backwards in my job to try to help them.

M-o-o-n v-a-l-l-e-y. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

The Second Deputy Chair: It's done.

The Second Deputy Chair: Oh, I'm sorry. I'm trying to do this the very best I can.

Mr Silipo: I appreciate that, sir.

I'm sorry, on these standing votes there are a lot of points of order and a lot of points of privilege coming up, so if you're standing and talking, then I think you want my attention, so I would ask you to desist.

NDP motion, subsection 24(4) —

Mr Curling: On a point of order, Mr Chairman: I just didn't understand what you said. I stood up — could you explain what you said a minute ago?

The Second Deputy Chair: I wasn't talking to you.

Interjection.

Mr Curling: I can't hear with the interruption over —

The Second Deputy Chair: You'd have a heck of a lot better job hearing me if you weren't talking at the same time.

Mr Curling: And if they're not talking too.

The Second Deputy Chair: I said that when somebody is standing in this House in their place and they're speaking when I look up, I assume they want my attention for a point of order. That's the way you got my attention. So that if you're standing on a vote to call a division and you're standing there talking, then I think I should stop everything in this House and give you the attention that I think you're asking for.

Mr Silipo: On a point of order, Chair: You didn't rule on the vote being deferred.

NDP motion, subsection 24(4): Mount Royal Avenue.

Mr Sergio: There are five standing up.

The Second Deputy Chair: I'm sorry. I appreciate the help from the member for Yorkview. There was somebody standing directly in front of —

Mr Sergio: Mr Agostino.

The Second Deputy Chair: The member who I was giving credit for being in his own place properly, but there was somebody in the way, and I'm sorry. I made a mistake. I apologize. We'll get over it, but thanks for your help. The motion is deferred.

Mr Sergio: Correct. Thank you, Mr Chair.

The Second Deputy Chair: I'm here to do the absolute best I can, and thanks for your help.

NDP motion, subsection 24(4): Mount Royal Avenue, m-o-u-n-t r-o-y-a-l. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

Mr Silipo: Mr Chair, on a point of order: The last one you dealt with was Mountview, I believe. Right?

The Second Deputy Chair: Yes.

Mr Silipo: I have in my package an amendment for a street, Mountjoy Avenue, which I believe precedes it. Is that not in your package?

The Second Deputy Chair: Apparently we have already done that one.

Mr Silipo: You've done it?

The Second Deputy Chair: According to the table.

Interjections.

The Second Deputy Chair: I want to explain things. I do my job, you people do your job, and I want to compliment the member for Dovercourt that you are doing your job very well, and I think the rest of the members deserve that too. I think the table people are doing — my help has a motion with "Mountjoy" on it that says "D" on it, and I don't know whether that's defeated or deferred, but that's her coding on it — oh, deferred.

Mr Silipo: The last I had heard was Mountbatten. I didn't hear Mountjoy.

The Second Deputy Chair: I had Mountview too since then.

Mr Silipo: That's what I'm saying. You went from Mountbatten to Mountview, and Mountjoy is in between.

The Second Deputy Chair: I'm not here to argue with you. If you want me to do it again, I'll do it again.

Interjections.

The Second Deputy Chair: I'm sorry. I'm being a little flippant. This is a point of order. I'm making that ruling. If you would like to challenge —

Mr Silipo: No, no. I'm not interesting in challenging you. I just want to be clear. So what you're saying is that Mountjoy has in fact been deferred?

The Second Deputy Chair: Yes.

Mr Silipo: Even though we didn't deal with it. That's fine.

The Second Deputy Chair: I'm saying we dealt with it, to the best of my ability.

The member for Yorkview on a point of order.

Mr Sergio: Not a point of order, just a comment.

The Second Deputy Chair: Oh, no, I'm sorry. We're not here to make comments.

NDP motion, subsection 24(4): Moutray Street, m-o-u-t-r-a-y. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Mowat, m-o-w-a-t —

Mr Silipo: On a point of order, Chair —

The Second Deputy Chair: Withdraw?

Mr Silipo: Yes, withdraw that one please.

The Second Deputy Chair: It's done.

NDP motion, subsection 24(4): Mowat Avenue. Shall the motion carry? All those in favour say "aye." All those opposed say "nay."

I spelled Mowat the time before, so I didn't here. Is there somebody who wants me to spell it again?

Interjection: No.

The Second Deputy Chair: In my opinion, the nays have it. The vote is defeated.

NDP motion, subsection —

Mr Silipo: Mr Chair, on a point of order: I'd like to withdraw the following amendment dealing with Moxlay. 1350

The Second Deputy Chair: It is done.

NDP motion, subsection 24(4): Moyles Court, m-o-y-l-e-s. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it.

NDP motion, subsection 24(4): Moynes Avenue, m-o-y-n-e-s —

Mr Silipo: Mr Chair, on a point of order: On Moyles Court, I didn't hear you say that the vote was deferred or defeated.

The Second Deputy Chair: I may not have, but the vote was — Moyles, was that the last one? Deferred.

Interjection.

The Second Deputy Chair: Order. I have two people standing, two people talking, and I don't know who I'm supposed to recognize. Are you standing on a point of order or a point of privilege?

Mr Sergio: I'm always standing up.

The Second Deputy Chair: Not wanting to give information or break the rules or anything. Fine. You may remain standing. I recognize the member for Rainy River — on a point of privilege?

Mr Hampton: On a point of order: Chair, it's really important that you say whether or not the amendment is deferred or defeated, because if we don't hear it, and on a couple of occasions now we haven't heard it, we've got no choice but to rise on a point of order and ask, so it's really important that in every case you say whether the amendment has been deferred or defeated. That's what we ask of you.

The Second Deputy Chair: M-o-y-n-e-s —

Mrs Helen Johns (Huron): On a point of order: It's my understanding that five people have to be standing on the other side for the amendment to be deferred. In the last section, and I'm sure the honourable member will say that, the member for Scarborough North was not standing, and so the amendment should have been defeated.

Mr Curling: On a point of order —

The Second Deputy Chair: I'd like to address the point from the member for Huron. Yes, that is a point of order. I take a scan. I'm just trying to expedite this thing in the proper way, so I'm using my eyes to see, my ears to hear, and then I change and I look and I take a scan, and if five people are standing, I try to remember to say "deferred," and if they aren't, I try to remember to say "defeated." I'm doing the very best I can, but thanks very much for your help.

Hon Charles Harnick (Attorney General, minister responsible for native affairs): Chair, on a point of order: I notice that there is a pattern developing here where all of the NDP amendments are either being deferred or defeated, and I wonder if I could seek unanimous consent of all members to, in one motion, deal with all of the streets that are remaining so that we can move on to the next section of this bill, in which case none of the NDP streets that they feel so strongly about will be defeated because of their difficulty of standing. Then we could move this on. So it would be my request that we have unanimous consent in one motion to deal with all of the remaining streets that pertain to section 24(4) and then it will be deferred and they won't have to worry about any of their amendments being defeated.

Interjections.

The Second Deputy Chair: Order. It is a point of order. I'll ask the question. Do we have unanimous consent? I'm sorry, there is no unanimous consent.

I'm sorry. I have three people in this chamber standing, talking, and I want to give them the attention that they want. Unless I'm mistaken, the member for Scarborough North was up before you, but I'm addressing myself to different places and so on. Am I correct in that?

Mr Curling: I go by your ruling. If you want me to sit down, I'll sit. If you want me to go ahead —

The Second Deputy Chair: No, no. That isn't my job to tell you whether to — if you're standing on a point of order, then I want to know what the point of order is.

Mr Curling: The point of order is I didn't hear your decision whether it was deferred or it was defeated.

The Second Deputy Chair: Which one?

Interjection.

The Second Deputy Chair: I'm sorry, which motion are you asking about?

Mr Curling: The one that is questioning the fact whether I was standing or not.

The Second Deputy Chair: I'm not going to rule on that. I don't know —

Mr Curling: But it was deferred.

The Second Deputy Chair: I'm sorry. I don't know if you were standing or not.

Mr Bill Murdoch (Grey-Owen Sound): What was the name of the street?

The Second Deputy Chair: No, no, no. Order. The member for Grey-Owen Sound, please come to order.

Mr Murdoch: What was the name of the street?

The Second Deputy Chair: No, no, no. Come to order. I want to explain this because I want this job to get done in the expedient manner that you want it done.

I'm addressing the member for Scarborough North. I want to tell you the process, because maybe you haven't been here before. I've only been at this job for 32 hours. So

I appreciate the help. After the "nays" have been taken, and this is a point of order, then the rules say that five members must be standing in their places to request a division.

Interjections.

The Second Deputy Chair: Order. I don't want to be interrupted. I take a scan and if five members are standing in their places, then I say — I try to remember to say "deferred." I've missed two in the last hour, but they've been corrected, I hope. But I can't tell you who was standing. Heaven's sakes. I'd have to name the members, and you know what that would do. That would cause another problem. So no, if five members are standing, it's deferred. If four or less are standing, it's defeated.

Mr Curling: Right.

The Second Deputy Chair: When there are two people standing I have to try to say who was up first and, yes, the Chair recognizes the member for Dovercourt on a point of order.

Mr Silipo: On a point of order, Chair: I just wanted to be clear that the member for Willowdale, when he made his request, which was obviously appropriate and within the rules if he wants to make that, but he referred to the streets as NDP streets, and I'm sure that he would want to correct the record because these of course are not NDP streets. These are streets in the urban area that we are dealing with.

The Second Deputy Chair: No, it's an NDP motion and then the streets come down within it, but would you like to withdraw or was that just an inadvertent mistake or is it a mistake?

Hon Mr Harnick: No, Chair. There was nothing inadvertent about that. They are NDP amendments, so they are streets that are in the NDP amendments.

Mr Silipo: That clarifies it.

Hon Mr Harnick: Certainly, I think that what I've indicated to the opposition is because a number — right now there are only three members in the Legislature — they can't stand so their amendments are being defeated, and what I'm offering them on the basis of unanimous consent is the opportunity to have all of their amendments pursuant to 24(4) deferred and not defeated, and we're prepared to seek unanimous consent to see if they want to do that, and I renew that.

The Second Deputy Chair: Thank you for that. The member for Dovercourt, the member for Mississauga South was up before you. So the Chair is recognizing the member for Mississauga South.

Mrs Margaret Marland (Mississauga South): The process in this House for voting when you ask for the "ayes" and the "nays" has always been very straightforward and quite traditional, and when you decide that the nays have it, it doesn't matter in what motion, it doesn't matter the nays on one side of the House or the other, the people who do not agree then must stand in their place. And that process, that procedure is well recognized and has been used probably for in excess of 100 years in our parliaments in Upper Canada.

We now have a system where all members on the opposition benches are standing all the time, and I simply ask you, how we have now slid into a process where you don't know if they're standing because they want to stretch or because they can't sit or for some other reason. So unless they make the action of standing to record opposi-

tion and five standing in their places, we're slipping into a very sloppy procedure, and I suggest to you that in order for these votes to be registered properly, it is necessary for members to stand in their place. If they're standing all the time, one of the complications for you is that you don't know whether they're registering their vote or not.

1400

Frankly, I think it's unacceptable for the lame and the maim and so forth to say, "Well, I want special dispensation because I have a problem. Send in someone else from the caucus if that is the case."

The Second Deputy Chair: The Chair wants to address the point of order to the member from Mississauga. I think that is a point of order.

The member for Mississauga South has a point of order, and I'm going to clarify it for all — I was going to say forever, but no. It comes under 28(a). "When a voice vote has been taken on any question, a division may be required by five members standing in their places."

I have interpreted that — they don't have to sit down in between, and so I guess that is my ruling, but you have the ability to appeal to the Speaker if you question my ruling.

Interjection.

The Second Deputy Chair: That is my ruling. So, yes, they may stand all the time, as long as they're in place in a parliamentary way. I'm ruling that that is decorum.

Please take your seats for a minute. Please take your seats. I wanted to get away from this lecturing because I don't feel right that I did it, but I feel that I'm being taken advantage of. Right now, I've been in this Chair for about an hour. I have taken three points of privilege. I've taken at least 10 points of order from one party, six from the other two parties. I think I have two more points of order to deal with, and let me tell you that I have only processed 61 of these amendments.

Let me be very clear that I could do that many when I had to read every word in this 254-word motion. I did 103 in a shift, I did over 50 an hour. I don't want to trivialize this. I don't want to get into this thing about making a mockery of this place or trivializing it. But I want to be very clear that it is my job to let this House proceed at a rate that will expedite its business. If there are members that don't want me to do that, then I wish that they would have a talk with themselves and decide, because if I have to, if I feel that any members are not wanting to expedite the work of this House, then I will be naming them and I will be doing that.

Mr Silipo: On a point of order, Mr Chair: I appreciate your warning, I guess, is what I would take it as to us.

The Second Deputy Chair: Oh, no, I wouldn't warn anybody.

Mr Silipo: Okay, your comments then, but I think you obviously have to deal with each point of order as it is raised and decide whether it's appropriate or not and then determine your actions as a consequence.

I wanted to rise on a point of order to ask that you remind members that it's inappropriate and contrary to the rules to point to the presence or indeed the absence of members, and the member for Willowdale earlier on in a point referred to the absence of members on the opposition bench, and I think that's out of order, and I would ask you to apply the rules in cases like that.

The Second Deputy Chair: I'm sorry, it's not my habit to debate rules of order. I want to be very clear to the member for Dovercourt, because quite frankly I want to point out in a complimentary way the demeanour with which you have conducted yourself over the last 32 hours that I've been in this chair.

Let me be very clear, the rules say, and it is a point of order, that a member cannot make reference to the absence of members. I know of nothing that says that they can't make a reference to the presence of a member. That is my ruling. If you want to appeal?

Mr Silipo: No.

The Second Deputy Chair: Okay, are we ready to proceed?

Mr Agostino: On a point of order, Mr Chair: I'll respond because I think there was a comment made by the member —

The Second Deputy Chair: No, I'm sorry. No. We're not here to debate any responses. You're rising on a point of order.

Mr Agostino: Point of order.

The Second Deputy Chair: Please take your seat for a minute. I want to explain what a point of order is. A point of order is that I'm doing something wrong, there's something wrong going on in the House, but it's not to debate. We're in committee of the whole. We are supposed to be expediting the reading of these —

Mr Agostino: On a point of privilege —

The Second Deputy Chair: Order. We're supposed to be here to expedite the reading of these amendments into the records. That is what I've been told. If I'm doing something wrong, then tell me, but don't ask me to let you discuss something else that's been said or hasn't been said or anything else like that.

Mr Agostino: I had a point of privilege.

The Second Deputy Chair: Sit down, please. Please take your seat.

Mr Agostino: Let me make my point of privilege.

The Second Deputy Chair: Please take your seat. You were on a point of order. I want to make a ruling on that. It was not a point of order.

Mr Agostino: Here's the point: A few minutes ago — and I think a member's privilege has been breached — the member for Mississauga South made reference to members who have been given special circumstances to vote in different ways in this House. This House, by unanimous consent, allowed one member because of an injury to be able to vote in a way different than simply standing up, and I think the questioning of that decision by the member and the insensitivity is totally irresponsible based on a decision that was made by this House as a result of the fact that a member was injured and could not stand up. I think the member for Mississauga South should realize that and show a little bit of common sense rather than simply sit there and take shot at members across the floor who sitting there with a knee injury.

The Second Deputy Chair: Order. That is not a point of privilege.

Mr Sergio: On a point of order, Mr Chair: You have ruled on the point of order by the member for Willowdale as being a good point of order when he suggested that we should vote on all the amendments since he has named the

NDP as willing to let every amendment be defeated. I'd like to recall the ruling of the Speaker yesterday that every amendment must be read by name as it's being considered today.

Therefore, I consider that if a member does not wish to stand in his place and wishes to have the amendment be defeated, so be it. It is your responsibility, as you have been doing, you have been calling for the votes on both sides of the House and if one amendment loses, that's fine. If it's deferred, that's fine as well.

As you have ruled and I accept your ruling, each member should be standing in their place to be eligible to vote, and we have accepted that, but to say that we are going to vote on all the amendments because they are NDP streets or because they are all the same, I think this has already been decided and should not be brought again and continue to waste the time of the House.

The Second Deputy Chair: That is not a point of order, but I want to give an explanation of why it isn't. The member for Willowdale was asking for unanimous consent.

Mr Sergio: We had already decided that.

The Second Deputy Chair: Pardon me, but you can ask for unanimous consent for nearly everything. I was not ruling on whether it was good or not. That's not my point. I'm just ruling on points of order, points of privilege, some interjections and trying to expedite the business of this committee.

If it would expedite things and I could get on with it without points of order and points of privilege and all these interruptions, I would read every one these. I think I could get through them faster. I'm sorry, I apologize. That's a personal comment and I shouldn't get into that. Are we ready to proceed?

Mr Silipo: And further, Chair?

The Second Deputy Chair: Did I forget again? I am sorry. I'm making more mistakes than anybody else here. The vote is deferred. Sorry about that.

NDP motion, subsection 24(4): Murchison Crescent, m-u-r-c-h-i-s-o-n. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it.

Mr Hampton: And?

The Second Deputy Chair: The vote — I'm sorry. The member for Rainy River on a point of order.

Mr Hampton: No, I was waiting.

Mr Curling: Deferred or defeated.

The Second Deputy Chair: No, that isn't — in this House we're allowing you to stand, but if you're standing and talking then I think that you want to be on a point of order or a point of privilege. I don't want to make a mistake. I've already made more than anybody should, but I'm doing the absolutely best that I can and I can't have those kind of interruptions.

Mr Hampton: Very good.

Mr Silipo: On a point of order, Chair —

The Second Deputy Chair: Now, I like that. You're standing and you're talking and I recognize the member for Dovercourt.

Mr Silipo: I said "point of order" even. I thought in fact that's what the member for Rainy River was going to raise as a point of order, that on that last one you did not say, "The vote is deferred," and there were five members standing.

The Second Deputy Chair: I'm not there yet.

Mr Silipo: You're not there yet? Oh, wonderful. Okay.

The Second Deputy Chair: But listen, I'm glad I'm not the only one that slips up once in a while. There were five up so it is deferred.

NDP motion, subsection 24(4): Murdock Avenue —

Mr Murdoch: On a point of order, Chair: Could you spell that, please.

The Second Deputy Chair: The Chair recognizes the member for Grey-Owen Sound on a point of order.

Mr Murdoch: I'd like it spelled.

The Second Deputy Chair: M-u-r-d-o-c-k.

Mr Murdoch: I know in this book of streets there is a Murdoch Drive, which is spelled with an h like the proper spelling, and I wonder if there's a conspiracy here with the opposition because they used to spell their Murdock — and there was a Murdock on their caucus and she spelled her name with a k. Maybe the next one is h. Is the next street Murdock Drive?

1420

The Second Deputy Chair: It is not a point of order.

Mr Silipo: On a point of order, Chair: After we deal with this amendment, I would be happy to move unanimous consent to have Murdoch Drive, that the member for Grey-Owen Sound referred to, added as a further amendment. Of course we would require unanimous consent at this point.

Interjections: No.

The Second Deputy Chair: Member for Grey-Owen Sound, that is not a point of order. Are we ready to get on with things? I've had a really nice rest during all this.

Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Murmouth Road —

Interjections.

The Second Deputy Chair: Order. I can't have members standing and talking. I don't want to have to go down and sit down and up and down. I don't want to go over and over this, but if you're standing and talking — I've already dealt with about 30 points of order, so I'm not about to slow down the business of this House to address this any more — m-u-r-m-o-u-t-h. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

Mrs Marland: No.

Mr Silipo: No, what? The Chair hasn't even asked the question.

The Second Deputy Chair: No, but the end of it says "o-k-a"; okay, eh? Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred. I just did that because I was told one time that I didn't have a sense of humour.

NDP motion, subsection 24(4): Mutual Street, m-u-t-u-a-l. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

The Second Deputy Chair: It's done.

NDP motion, subsection 24(4): Nanton Avenue, n-a-n-t-o-n. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is — the member for Lawrence, are you standing to get my attention or are you standing to call division?

Mr Joseph Cordiano (Lawrence): I'm in my seat, sir. 430

The Second Deputy Chair: Okay. You weren't here before; I'll explain it once more. If you're standing and you're talking, I have a whole lot of things to do. I'm trying to follow the absolute rules of it and the rules that you have, but if you're standing and talking, I think you want me. So I don't know if it's a point of order, a point of privilege, asking to seek unanimous consent or any other reason that you might want my attention. I don't mind a person just standing there to reflect that, but if you're standing and talking, then I think you want my attention and you are distracting me. Is that a problem?

Mr Cordiano: No, that's understood, Mr Chair. If we do want your attention, you'll know it.

The Second Deputy Chair: Very important to have that before this vote is recorded. Did you ask me to find out, or are you just telling me that you don't think there is?

Mr Silipo: I believe quorum is not present, Chair.

The Second Deputy Chair: I will check and make sure, and if it isn't, I'll make sure that it is before I proceed. Would you check and see if there's a quorum here, please.

Clerk Assistant: A quorum is not present, Chair.

The Second Deputy Chair ordered the bells rung.

Clerk Assistant: A quorum is now present, Chair.

Mr Silipo: Point of order, Chair.

The Second Deputy Chair: The vote is deferred. I missed that two times this morning — this afternoon. You do lose track here. So I wanted to get that in. I knew where I'd stopped and so on.

The Chair recognizes the member for Dovercourt on a point of order.

Mr Silipo: I would like to withdraw the following amendment, Nantucket Boulevard, I think, because it's a duplicate. I'm not sure if we've just done one or if you were about to get into the first of the two.

The Second Deputy Chair: Some people consider that a short form. Do you want to do the "Bl" or the "Blvd"?

Mr Silipo: I think we should keep the "Blvd" because that's closer to "Boulevard," or "bulved," as you've decreed it on other occasions.

The Second Deputy Chair: NDP motion, subsection 24(4): Nantucket Blvd, n-a-n-t-u-c-k-e-t. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

The Chair recognizes the member for Dovercourt on a point of order.

Mr Silipo: Point of order, Mr Chair: The next one is just a misprint. I'll withdraw it. It says "NK Address."

The Second Deputy Chair: NDP motion, subsection 24(4): Nobert Road, n-o-b-e-r-t. Shall the motion carry?

Mr Silipo: Point of order, Chair.

The Second Deputy Chair: Don't withdraw that one on me. The Chair recognizes the member for Dovercourt on a point of order.

Mr Silipo: I believe a quorum is not present, Chair.

The Second Deputy Chair: I'll check.

1500

Mr John R. Baird (Nepean): Point of order —

The Second Deputy Chair: No, I'm sorry. I want to explain carefully. I want to be clear about this. I do not take debate on points of order.

Mr Baird: It is the same point.

The Second Deputy Chair: It's not my habit to do that. In this case I am tempted to because I am inquisitive. I recognize the member for Nepean on a point of order.

Mr Baird: On the same point of order as my colleague the member for Dovercourt, Chair: I know it's a serious point of order on his part. Can you count all the Liberal and NDP members who raced out just before he got up? They are all right behind the counter over there.

The Second Deputy Chair: No, I'm sorry. I just had confirmed why I should not have made an exception to my habit. Do we have a count?

Clerk Assistant: A quorum is not present, Chair.

The Second Deputy Chair ordered the bells rung.

Clerk Assistant: A quorum is now present, Chair.

The Second Deputy Chair: We will proceed.

NDP motion, subsection 24(4): Nobert Road. I'm not going to read that one again. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is defeated.

NDP motion, subsection 24(4): —

Mr Baird: Mario was late.

The Second Deputy Chair: Order. We can't have this talking back and forth. This is a tedious job. I'm doing the best I can, but I can't have these kinds of interruptions.

The member for Dovercourt, you'll want to withdraw this one, I believe: Noble.

Mr Silipo: Yes, thank you, Chair. I appreciate that. We were both distracted by someone. I'd be happy to withdraw this one that deals with Noble because it's a duplicate.

The Second Deputy Chair: NDP motion, subsection 24(4): Noble Street, n-o-b-l-e. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Noel Avenue, n-o-e-l. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Noganosh Road, n-o-g-a-n-o-s-h. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Nomad Crescent, n-o-m-a-d. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Nootka Crescent, n-o-o-k-a. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

Order. I can't have people standing at the same time they are talking.

NDP motion, subsection 24(4): Nora Road, n-o-r-a. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Noranda Drive, n-o-r-a-n-d-a. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Norbert Crescent, n-o-r-b-e-r-t. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." The vote is deferred.

Mr Hampton: Important step.

The Second Deputy Chair: Oh, I'm sorry. In my opinion, the nays have it. There were five up, so this is deferred. Sorry to miss that.

Order. Please take your seats. The Chair recognizes the member for Hamilton East on a point of order.

Mr Agostino: Previous to an earlier point of privilege — it's a point of privilege, not a point of order — to the comment made by the member for Mississauga South, we've had two calls from members of the disabled community in reference to that comment seeking an apology. It was a highly offensive comment to people who are disabled.

The Second Deputy Chair: Will you take your seat. I want to make a ruling. I want to do the best I can to make sure it's right. My ruling on your point of order is this: We are in committee of the whole. My purpose here is to read these into the record. We are not in debate. What you are about to want to do is entering into debate, so that is not a point of order.

Mr Agostino: Mr Chair, could I ask you to rule on something?

The Second Deputy Chair: The Chair recognizes the member for Hamilton East on a —

Mr Agostino: On a point of order in regard to the functioning of this Legislature that you're now in charge of. Is it an established principle and practice that all members, regardless of disability or ailment, are allowed to sit in this House and serve as a member of this —

The Second Deputy Chair: Order. Would you take your seat please. That is not a point of order.

NDP motion, subsection 24(4): Norbrook Crescent, n-o-r-b-r-o-o-k. Shall the motion carry? All those in favour

say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Norbury Crescent, n-o-r-b-u-r-y. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

Interjections.

The Second Deputy Chair: Order. I can't have members standing and talking. I've gone through, I would guess, 30 or 40 points of order in less than the last two hours, and the way to get my attention is to stand in your place on a point of order and seek my attention. If you're going to be standing all the time, then I'm sorry, I can't have you talking. I'll bring you to order one more time.

NDP motion, subsection 24(4): Norby Crescent, n-o-r-b-y. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

Interjection.

The Second Deputy Chair: Member for Yorkview, I made a ruling a long time ago and I repeated it a little while ago. I'll need your cooperation on it please.

Mr Sergio: I'm not speaking, Mr Chair.

The Second Deputy Chair: If I have the wrong member, I do apologize, but somebody was standing and talking and I'm distracted by it. I'm making mistakes because of it, and I can't have it.

NDP motion, subsection 24(4): Nordale Crescent, n-o-r-d-a-l-e. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Normana Avenue, n-o-r-m-a-n-a. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

Mr Baird: Point of order, Madam Chair: I would ask, given that motions need a mover and a seconder and given that there is only one NDP member and one Liberal member present, is that in order?

The First Deputy Chair: I want to remind the member for Nepean again that these motions are deemed to have been moved. Also, they don't need a seconder anyway, even if they needed to be moved. Thank you for that point of order.

Mr Cordiano: Madam Chair, I don't believe a quorum is present.

The First Deputy Chair: Is there a quorum?

Clerk at the Table: A quorum is not present, Chair.

The First Deputy Chair ordered the bells rung.

Clerk at the Table: A quorum is now present, Chair.

Mr Silipo: Point of order, Madam Chair: I believe the member for Nepean was out of order when he called to the attention of the House the absence of members. That is contrary to the rules and I would ask you to enforce that rule. We went through this with the previous Chair as well.

Mr Baird: Point of order, Chair: I would like to respond. The member for Dovercourt has been here for one more term than I have and I respect his judgement on this issue. I withdraw those comments. I will not mention the fact that there was only one Liberal member and one NDP member present. I apologize.

The First Deputy Chair: Oh, come on now. Order, please. As everybody here knows, it is the practice around

here that we don't comment on members missing from the chamber, and I would appreciate it if people would bear that in mind.

Okay. Are we ready? I am if you are. Let's go.

NDP motion, subsection 24(4): Normandale Crescent. Shall the motion carry? All those in favour say "aye." All those opposed say "nay." In my opinion, the nays have it. The vote is deferred.

Mr Agostino: Point of order, Chair: Can you continue the practice of the previous Chair? It made it easier for us so we didn't have to get up and ask on individual cases. Can you continue spelling the street names, if that's in order? Rather than us having to get up and ask, it's probably faster.

The First Deputy Chair: If people want me to spell each one, I will, but let me tell you what I've been doing on my previous shifts since this new ruling of just reading the street names. I have been reading the ones that I believe are very obvious, say Main Street or the next one coming up, Normandy Boulevard, and I have been spelling each and every one where I think there might be any question whatsoever. That's been working very well. In my view, spelling out Main Street or something like that is ridiculous because people can understand it. Let's try that for a while and see if it works for people. Okay?

Mr Silipo: Point of order, Chair: I believe that quorum is not present.

The First Deputy Chair: Could you check for a quorum.

Clerk at the Table: Quorum is not present, Chair.

The First Deputy Chair ordered the bells to be rung.

Clerk at the Table: A quorum is now present, Chair.

Mr Baird: Point of order, Mr Chair: I'm referring to standing orders 11(a) and standing orders 19.

If I could draw your attention to standing orders 19 perhaps first, in the column beside section 19 it says, "No strangers on floor, etc." It points to the word "floor" when referring to 19. "Except as provided in standing order 103, no member of the House shall bring any stranger into any part of the House," etc. It uses the word "floor."

I use that terminology to draw that to your attention in relation to number 11(a), which reads as follows, "The presence of at least 20 members of the House, including the Speaker, is necessary to constitute a meeting of the House for the exercise of its powers."

My specific point of order is a genuine one. You may want to reflect on it. I agree with the decisions you raised earlier. I not only accept them but I agree with you on them.

The specific nature of my concern is that if members are in the House, in the confines of the four walls — there are members who, two seconds before a quorum is raised — for example, the member for Rainy River said, "Let's go for a smoke," and all of the Liberal and NDP members, save the member for Dovercourt, departed with him. I am specifically relating to that; given that they are in the House, just over there, they are still in the House, and by relation to the term "floor" in section 19 of the act and in relation to the term "House" in section 11(a), I think a reasonable case could be made that you are in the House if you are within the four walls of this room, of this place, and would submit that to you for your consideration.

The First Deputy Chair: Thank you. Just give me a moment here.

I'd like to tell people I've accepted that as a legitimate point of order from the member for Nepean, and we're in the process of trying to ascertain the actual answer to this.

All right. Thank you for —

Mr Curling: I want to say something before your ruling.

The First Deputy Chair: Okay. On the same point of order?

Mr Curling: I want to bring your attention to the same section, 11(a), as the member for Nepean had mentioned. It expressly says that, "The presence of at least 20 members of the House, including the Speaker" — or the Chairman, would presume — "is necessary to constitute a meeting of the House for the exercise of its powers." We know that there are over 80-odd members of the Tories, and they are complaining that they can't find even sufficient members to constitute a quorum.

Now the other point I want to make: His comment that the leader of the third party said, "Let's go for a smoke," and I and other members followed; now, I want —

Interjections.

The First Deputy Chair: Order, please. I want to hear the point of order.

Mr Curling: The three members in the front there are not even in their seat and they are interrupting us.

The First Deputy Chair: You're not supposed to say that.

Mr Curling: But he keeps on interrupting me.

The First Deputy Chair: Can you continue with your point of order?

Mr Curling: The fact is, Madam Chair, that to say that I followed the honourable member for a smoke, I don't even smoke. So I feel that it is an insult, and my privilege —

Interjections.

Mr Curling: It is an insult to me that he made those comments. I'd like him to withdraw that, to begin with, because I did not follow any member to smoke because I don't even smoke.

The First Deputy Chair: Okay.

Mr Curling: Furthermore —

Interjections.

The First Deputy Chair: Order. Do you have another point?

Mr Curling: Yes. I don't want to take your time, Madam Chair, but the 20 members were not in the House at the time when quorum was checked; not maybe called, but when it was checked, no one was there. So I don't know what he's talking about. He saw members outside there. That's not on the floor.

The First Deputy Chair: Order, please. On the same point, the member for Dovercourt.

Mr Silipo: Well, Chair, I would just like to say first of all that standing order 11 —

The First Deputy Chair: Just a moment. I need to hear points of order. Leader of the third party, please come to order. I need to hear your colleague's point of order here. Order, please.

Mr Silipo: First of all, Chair, I would like to say that standing order 11(a) and standing order 19 have nothing whatsoever to do with each other. Standing order 19 — I know the member from Nepean tried to connect them in trying to get you to give a broad description or a broad definition of what would constitute the House but the point is, standing order 19 deals with the issue of whether strangers, which we know is a traditional term that's used to mean anybody other than a member or the appropriate officials — anyone else is not allowed to be on the floor of the Legislative Assembly, and the only exception that has been made was when we had a member who required interpretation assistance and then there was an exception made in that case.

But that's a very different issue from the issue of quorum, which is, of course, covered under 11(a), and there it says very clearly, "The presence of 20 members is required." It doesn't define what kind of 20 members, it just says 20 members.

So the point is very clear, Chair, that at the point at which quorum is called and you ask the clerk to ascertain whether quorum is present or not, that's the point at which the count is taken and that's very simple; there are or there aren't 20 members in the House, not in the surroundings, not in the committees, not in the lobbies, but in the House.

The First Deputy Chair: Okay. Thank you. Now I have a clearer response to these points of orders, and I thank all the members for your submissions.

Within the rules, what it means to have members in the House is that they have to be within the clerk's view and not in the gallery. If they're in the clerk's view and they're not in the gallery, but they're somewhere within the confines of this area, which includes the — what would you call that? — exits and entrances to the lobbies; if you are in the clerk's view in those areas, you will be counted as the 20, but if you're in the gallery —

Interjections.

1550

The First Deputy Chair: Is that clear to everybody. I also want to respond to, although he's not here, the member for Scarborough North. I believe that he was offended by the implication of your comment, the member for Nepean, that he was going for a smoke. He does not smoke and I believe that he finds it offensive that it was inferred. I suppose it's not unparliamentary, but the member was offended. I would ask the member for Nepean, in the interests of decorum in this place, to withdraw that.

Mr Baird: Because I have so much respect for you personally, Madam Chair, I do.

The First Deputy Chair: Thank you.

I would add to that, the leader of the NDP party in my knowledge does not smoke either.

Mr Baird: On a point of order, Madam Chair: Just to clarify, I do withdraw my remarks with respect to the member for Scarborough North, but the leader of the third party did say, "Let's go for a smoke."

The First Deputy Chair: We'll drop this now and continue with our —

Interjection: The guy left seven times in an hour. One night you couldn't get him to leave all night.

The First Deputy Chair: Order, please. You know, we have gotten into the O's, don't you want to continue?

Mr Sergio: On a point of order, Madam Chair: Did I understand right that the member from Nepean started his point of order that no members of this House shall be allowed to bring strangers into this House?

The First Deputy Chair: Yes.

Mr Sergio: If that is the case, Madam Chair, I would bring to your attention clause 18 which says, "All strangers may be excluded from the House or any committee thereof on a motion properly moved and adopted by the House or the committee as the case may be." With respect to the quorum, my point of order is this.

Interjections.

The First Deputy Chair: Order, please.

Mr Sergio: Madam Chair, my point is this. I'm stating my point of order.

The First Deputy Chair: Go ahead; however, so far I see no connection.

Mr Sergio: I can hear, Madam Chair.

Interjections.

The First Deputy Chair: Order, please. Could you please get to that point of order.

Mr Sergio: Yes, my point of order is: What do strangers in the House — there aren't any — have to do with the call for a quorum?

The First Deputy Chair: Okay, thank you. I understand what you said, you're quite right, there wasn't a connection, but that is not a point of order.

Mr Sergio: But you have accepted —

The First Deputy Chair: Thank you, take your seat. There were, to my knowledge, no strangers in the House. I hope you're satisfied with that.

Mr Silipo: On a point of order, Madam Chair: I would just like to know whether this is the kind of delay tactic we're going to expect after every quorum call.

The First Deputy Chair: That is not a point of order, an interesting question, but not a point of order.

Mr Hampton: On a point of order, Chair: Just for the information of the member for Nepean, I don't smoke either. But the member for Scarborough used to smoke. He informed me now that he doesn't smoke any more.

The First Deputy Chair: Thank you. Okay, NDP motion, subsection 24(4): O'Hara Place. Shall the motion carry? All those in favour please say "aye." Those opposed please say "nay." In my opinion, the nays have it. The vote will be deferred.

The First Deputy Chair ordered the bells rung.

ERRATUM

No.	Page	Column	Lines	Should read:
76H	7995	1	10ff.	

The committee recessed from 1730 to 1745.

The Chair: The issue at hand is that since one amendment has now carried which adds a subsection 24(4), the subsequent amendments are rendered out of order since there is now a subsection 24(4) in the bill. It has been a long-standing practice in this House that editorial renumbering is done by legislative counsel under the authority of standing order 138(b), which reads as follows:

"The office of the legislative counsel shall...revise, print and put marginal notes on all public and private bills and generally be responsible for the correctness of all such bills in their various stages."

This is the very situation that is contemplated by that standing order. I therefore find that the amendment is in order.

Hon David Johnson: Mr Chair, thank you for your ruling, but I do challenge that ruling.

The Chair: I will suspend the proceedings and contact the Speaker.

Mr Mario Sergio (Yorkview): On a point of order, Madam Chair: I didn't catch you in the middle of a roll. A previous one, the second to this one here, was withdrawn by the member of the NDP as being a misspelled or incorrect name. Omagh is in my riding and I know it's a correct name and the correct spelling. I know it's a correct name, it's the correct spelling, and I wouldn't want the people living on Omagh to think that they're living on a wrong or misspelled street. I would like to have that for the record because it does exist. It's the proper spelling.

1620

The First Deputy Chair: Thank you. Can we have unanimous consent? No? Okay. It's on the record. Thank you very much for pointing that out. I urge all members to point out any inconsistencies in that way. It's important to have them on the record.

Mr Wayne Wettlaufer (Kitchener): Point of order, Madam Chair: I was just wondering who raised that last

point of order. My understanding of the rules is that everyone is supposed to sit down when there's a point of order. I wonder whether the member for Lawrence was reading that point of order or whether he was throwing his voice.

The First Deputy Chair: Member for Kitchener, the only time, as far as I understand, where the rules are clear about members standing is when the Speaker is standing. We all know that at that time everybody else should be sitting. It is my discretion as the Chair when I'm taking a point of order, to determine whether the person is actually making a point of order, notwithstanding that somebody else may be standing. It was obvious to me that the member for Yorkview was making the point of order. Thank you, however, for your point of order.

Mr Marchese: Point of privilege, Madam Chair: I have to say I felt sincerely that I had made an error. Omaha and Omagh may have appeared to be the same to me, so I want to apologize to the residents of Omagh, because they do indeed exist, according to what the member says. I apologize to the residents of Omagh for that mistake.

The First Deputy Chair: Thank you very much. It's not a point of order but I think it's good to have it on the record.

NDP motion, subsection 24(4): Onondaga Road, o-n-o-n-d-a-g-a. Shall the motion carry? All those in favour please say "aye." Those opposed please say "nay." In my opinion, the nays have it. Deferred vote.

Mr Marchese: Point of order, Madam Chair: I would like to withdraw the following motion, which has as the designation "Ontario." I know all the residents of Ontario are impacted by this, but it doesn't have the full designation. I'll withdraw it.

The First Deputy Chair: Ontario shall be withdrawn.

Mr Marchese: Point of order, Madam Chair: I would like to withdraw the following motion that has as the designation "Ontario Food Terminal." I know there are people there and possibly living there, but to avoid making a mistake I'm going to withdraw it.

The First Deputy Chair: I will withdraw Ontario Food Terminal.

Mr Marchese: Point of order, Madam Chair: I would like to withdraw this motion as well. It says "Ontario Place," and I know that a lot of homeless people go there, but they don't count.

The First Deputy Chair: It's withdrawn.

Mr Marchese: Point of order, Madam Chair: I would like to withdraw this motion, which reads, "the residents of Oregon Trail."

Mr Marchese: He did say it.

The First Deputy Chair: I'm sorry, but I really didn't hear it.

The Chair: Order. Please take your seats. The member for Brantford, I would just ask you to give me a bit of cooperation. It makes my job easier. Mr Gilles Bisson (Cochrane South): On a point of order, Mr Chair: We're just changing shifts here, if you'd give me a second to get organized. You read a street and I did not catch it. I was just picking up the amendments here from my colleague the member for Cochrane North.

The Acting Chair: Redway Road.

Mr Bisson: That's r-e-d-w-a?

The Acting Chair: W-a-y.

The Acting Chair: NDP motion, subsection 24(4): Redway Road. Shall the motion carry? All in favour say "aye."

Interjections.

Interjection: We can't hear. If the opposition wants to make a lot of noise, we can ask you to repeat it.

The Acting Chair: Okay, order. Order. I'm sure it's in everyone's best interests that we get through this as quickly as we can, so if we can keep the noise to a minimum, it would sure facilitate the hearing on the part of the members of the opposition. I'd appreciate that.

Mr Bisson: You're on Redwillow Drive? What did you just read? I did not hear you, seriously.

The Acting Chair: The one I spelled for you?

Mr Bisson: Redway Road? You read another one after, and it's not in sequence with what I have.

The Acting Chair: The only one I've read since you've come in, sir, is Redway Road.

Mr Bisson: Okay, I've got you. Thank you.

Mr Len Wood: On a point of order, Chair: I'm a witness that it's very hard to hear with all the heckling that's going on from all the Conservative members on the other side. I know that we're expected to speak up, but you're going to have to speak up louder to get above the noise that's coming from the Tory backbenchers there.

The Acting Chair: I promised the member for Perth I would do my very best here tonight, and it's really difficult with all the noise, so I would really appreciate it if we could keep the noise down.

Mrs Margaret Marland (Mississauga South): On a point of order, Mr Chair: Could you clarify for me whether this is a stance of the leader of the third party showing his disdain to Parliament, that he's standing with his back voting? Is that appropriate?

Interjections.

The Acting Chair: This is becoming increasingly more difficult for me to carry on this job, especially with this group here. So I would appreciate it if you would be silent while we're doing this. That is not a point of order.

Mr Hampton: Point of order — although I doubt it's a point of order.

The Acting Chair: I ruled it's not a point of order.

Mr Hampton: A point of privilege on my part, then. I want to say to the member, we don't live in such a state yet where you can even prescribe how people have to stand.

The Chair: NDP motion, subsection 24(4): Relroy Court. Shall the motion carry? All in favour say "aye." Opposed, "nay." The nays have it. The vote is deferred.

Mr Bisson: On a point of order, Mr Chair: Normally, when the Chair of the committee of the whole is asking if the vote is deferred — I wouldn't mind my colleagues sitting down. Normally, you look over to see if in fact we are standing. I've noticed for the last three amendments you haven't looked over, so we could be sneaking on you and trying to sit down and you'd never know it. I'd appreciate it if you'd at least look our way, because we want to make sure as we go through this process that the procedural function is intact.

The Acting Chair: I appreciate your concern for my accuracy. I'll try a little harder from now on, okay?

NDP motion, subsection 24(4): Resolution Crescent. Shall the motion carry? All in favour say "aye." Opposed, "nay." The nays have it. The vote is deferred.

NDP motion, subsection 24(4): Resources.

Mr Bisson: Point of order, Chair.

The Acting Chair: Point of order, the member for Cochrane South.

Mr Bisson: I have to wait for everybody to sit down. I can't have a point of order unless people are sitting, I understand: the ruling of a previous Chair.

I would like to withdraw the following motion, Resources, spelled r-e-s-o-u-r-c-e-s. It does not have a street designation.

The Acting Chair: NDP motion, subsection 24(4): Resources Road. Shall the motion carry? All in favour say "aye." Opposed, "nay." The nays have it. The vote is deferred.

2010

Mr Bisson: On a point of order, Mr Chair: The following amendment, Restoule, is spelled r-e-s-t-o-u-l-e. It doesn't have a street designation and I would like to withdraw that amendment on behalf of my caucus.

Mr Bisson: On a point of order, Mr Chair: The following amendment, Rexdale B1, spelled r-e-x-d-a-l-e b-1, does not have a proper abbreviation and you'll note that the following amendment does, so I would like to withdraw Rexdale B1, r-e-x-d-a-l-e b-1.

Mr Bisson: On a point of order, Mr Chair: The pronunciation for r-i-c-h-e-l-i-e-u is Richelieu.

The Acting Chair: That's not a point of order.

NDP motion, subsection 24(4): Richmond Park Boulevard. Shall the motion carry? All in favour say "aye." Opposed "nay." The nays have it. The vote is deferred.

Mr Bisson: Point of order, Chair: You'll note that the following amendment has the following: Richmond Street and Richmond Court — r-i-c-h-m-o-n-d street and Richome, spelled differently, r-i-c-h-o-m-e, Court. It looks like the IBM PC broke down just like normal and the PC printed two of them at the same time. So if we used the Mac maybe this wouldn't have happened. It's a PC problem. I'd like to withdraw that amendment.

The Acting Chair: Thank you. NDP motion, subsection 24(4): Richview Avenue. Shall the motion carry? All in favour say "aye." Opposed "nay." The nays have it. The vote is deferred.

Mr Kwinter: On a point of order, Mr Chair: As a 30-year resident of Richview Avenue, I think I'd be remiss

if I didn't say what a great street it is and what a wonderful bunch of neighbours I have.

The Acting Chair: Thank you very much. It's not a point of order but it's good information.

Mr Bisson: Point of order, Chair: I would ask for unanimous consent that we allow this amendment to pass on behalf of the member of distinction who has served this Legislature for so long.

Mr Bisson: On a point of order, Mr Chair: I was told that the following amendment is Ridge Drive Park. It's not the same as the last one, so I would not withdraw it.

2020

Mr Bisson: Point of order, Chair: We just did Ridgetop. I'm sorry, but we seem to have skipped or I missed Ridgemount and Ridgemoor just proceeding. Did I miss it or was it not read?

The Acting Chair: On that point, we're taking them as they were filed with us.

Mr Bisson: I recognize that. Maybe I made the error and maybe I didn't hear them or you read them. I'm asking which one it is so I know what to do here. Have you read Ridgemount Road?

Mr Gilles Pouliot (Lake Nipigon): Pretty weak nay.

The Acting Chair: You're right; pretty weak nay.

Mr Bisson: Point of order, Chair — I'm waiting for my colleagues to sit again. Chair, I do believe as the Chair of the committee of the whole you want to be unbiased and you want to be fair, but you certainly did give the government an opportunity to lead them into a "no" and I would ask you not to do that. If we miss one, that's our fault, but it should be the same for them. Chair, that was a bit leading.

The Acting Chair: I appreciate that, member for Cochrane South. I have been a little lenient on the votes and I try to be fair on both sides. I appreciate your point of order and I'll try not to do it again.

The Acting Chair: Would you like to withdraw it?

Mr Bisson: I'm asking members across the way if they know if there's such a thing.

The Acting Chair: The members across the way are not allowed to give a comment. Would you like to withdraw the amendment?

Mr Bisson: On a point of order, Mr Chair: The following amendment is an amendment that refers to a man who used to steal from the rich to give to the poor. Not that I'm opposed to that concept, but I would like to remove Robin Hood, not from the records or from history, but just from this amendment.

The Acting Chair: I appreciate that. Thank you.

NDP motion, subsection 24(4): Robin Hood Road. Shall the motion carry? All in favour say "aye." Opposed, "nay." The nays have it. The vote is deferred.

Mr Bisson: On a point of order, Chair: I again have to wait for my colleagues to take their place. Thank you. On the point of order, the following amendment, "Robinson," without a street designation, I would like to withdraw.

Mr Bisson: On a point of order, Chair: I'm beginning to think you're like the former Chair who was able to read minds. This one is "Robson" without a street designation and I would like to withdraw that amendment.

The Acting Chair: Thank you very much.

Mr Bisson: You're quite perceptive, sir.

Interjection.

Mr Bisson: Not at all. I think it's quite good.

NDP motion, subsection 24(4): Rochdale Avenue. Shall the motion carry? All in favour say "aye." Opposed "nay." The nays have it. The vote is deferred.

Mr Bisson: On a point of order, Chair: I know you would want to entertain this point of order. I have here a note from the former Minister of Municipal Affairs, Ed Philips, who sends this note to me saying that the former amendment, "Riverhead Road" is not in fact an amendment. It should have been "Riverhead Drive," and we should remove that particular amendment because it's not Riverhead Drive, it's road.

The Acting Chair: This is not a point of order. Thank you very much.

Mr Bisson: The former Minister of Municipal Affairs would take exception to that.

The Acting Chair: It's not a point of order. Thank you very much.

The Acting Chair: Thank you.

NDP motion, subsection 24(4): Rockaway Cres. Shall the motion carry? All in favour say "aye." Opposed "nay." The nays have it. The vote is deferred.

Mr Bisson: On a point of order, Chair: Actually, we should have withdrawn this particular amendment. We'll keep it, but the next one we'll have to withdraw, because the first one you read was Rockaway abbreviation "Cres," and this one is "Crescent" written out in full. So I would like to withdraw the second one that's "Crescent" in full.

The Acting Chair: Thank you very much.

Mr Bisson: On a point of order, Chair: I will draw your attention to the standing orders, standing order 28(e), which talks about the ability of members to pair themselves in the time of a vote. I would like to know if any of the Conservative members would like to pair with me so that we only need four to divide. I'd like to get your ruling on that.

Interjections: No.

The Acting Chair: I don't hear anybody volunteering to do that.

Mr Bisson: On a point of order, Chair: I believe the one that you read prior — you went a little bit fast there — was Rodeo Path Way. The following amendment is Rodeo Pathway. It's the abbreviation.

The Acting Chair: Thank you.

The Acting Chair: Rosedale Heights Drive, you don't want to withdraw?

Mr Bisson: That's right. Rosedale Heights Drive should have stayed, and the one that we passed — I was not very quick on the draw.

The Acting Chair: We've already passed it, so we'll go on to the next one.

Mr Bisson: All right. We'll get two of them, then, that's all.

Mr Bisson: On a point of order, Mr Chair: You will note that on the previous amendment I was trying to point something out to you and I yelled, "Point of order," to which point, correctly, the members of the opposition sat, and you said, "The vote is defeated." In fact, I was getting the floor on a point of order. The standing orders are quite clear: When a member yells, "Point of order," everything stops, you get off the merry-go-round. I called, "Point of order."

The Acting Chair: There's only one problem with that. I appreciate your point, but unfortunately I had not recognized you before I said the vote was defeated. Do you have a point of order now?

Mr Bisson: All right. Point of order, Mr Chair: Where are you at now at this point?

The Acting Chair: I'm at Rosscowan Crescent.

Mr Bisson: Spell it, please?

The Acting Chair: Rosscowan Crescent.

Mr Bisson: I can't hear you. I'm serious. I need my hearing piece. I cannot hear you from here. Try that again. I'm not playing with you.

The Acting Chair: Rosscowan Crescent.

Mr Bisson: Ri — count, you said?

The Acting Chair: Rosscowan.

Mr Bisson: Cowan. Thank you very much. I have found your spot.

The Acting Chair: NDP motion, subsection 24(4): Rosscowan Crescent. Another point of order, member for Cochrane South?

Mr Bisson: Backing up so that I can keep track. What amendment did we lose there? Was it Rossander Court that we lost? I need to keep track of this.

The Acting Chair: Rosscowan Drive.

Mr Bisson: It was Rosscowan Drive that we lost? Thank you very much, Chair.

The Acting Chair: Shall the motion carry? All in favour say "aye." Opposed, "nay." The nays have it. The vote is deferred.

Mr Bisson: On a point of order, Mr Chair: I would note that the Conservative Party supports the Rotary Club 100%, and I would hope they would do it on this —

The Acting Chair: That's not a point of order.

NDP motion, subsection 24(4): Rotary Drive. Shall the motion carry? All in favour say "aye." Opposed, "nay." The nays have it. The vote is deferred.

NDP motion, subsection 24(4): Rotherham Avenue. Shall the motion carry? All in favour say "aye." Opposed, "nay." The nays have it. The vote is deferred.

The Acting Chair (Mr Rosario Marchese): One second. Before I start with the privilege of being here in the chair, I just want to note for the record and for the purposes of avoiding misunderstandings that I normally have a very good strong voice, but it is not an enduring one. Some have been blessed of course to have an enduring voice and a voice that can carry on in almost irregular speeds, like the members for Chatham-Kent and Perth, but I happen not to be one of them. The Second Deputy Chair (Mr Bert Johnson): NDP motion, subsection 24(4): Stormy Lake. Shall the motion carry? All those in favour, say "aye."

Mr Silipo: On a point of order, Mr Chair: Did you say Stormy Lake?

The Second Deputy Chair: I said Stormy Lake.

Mr Silipo: Then I'd like to withdraw that, if I may.

The Second Deputy Chair: You may. It is done.

NDP motion, subsection 24(4): Storer Drive.

Mr Bisson: On a point of order, Chair: What is "er"? You said "Ston-er." Is that a separate word? Is it part of the same word?

The Second Deputy Chair: Tell me what I said again.

Mr Bisson: You said "Ston-er." Is that one word?

The Second Deputy Chair: I didn't say "Stoner." I said "Storer."

Mr Bisson: Can you spell it, please.

The Second Deputy Chair: S-t-o-r-e-r.

Mr Bisson: Chair, I didn't hear you. The members were heckling across the way.

The Second Deputy Chair: Pardon me, they were not. When I said "Storer" the first time, there was no heckling. Storer, s-t-o-r-e-r.

Mr Bisson: Oh, it is one word. That's what I was asking.

The Second Deputy Chair: I'm sorry, I didn't hear what you said.

Mr Bisson: It is one word. I thought there were two separate words in there somehow.

The Second Deputy Chair: There are: Storer Drive.

Interjection.

The Second Deputy Chair: Order. Would the member for Scarborough North come to order.

Storer Drive is two words. I spelled "Storer." Do you need me to spell "Drive"?

Mr Bisson: What are the two words. Are "Storer" and "Drive" two words? Is "Stor-er" two words? That's what I'm asking.

Interjections.

The Second Deputy Chair: Order. This is a point of order and this is important legislation that this committee is working on, and I don't want anybody to trivialize it.

Mr Bisson: I'm not.

The Second Deputy Chair: I'm not talking to you. I'm talking to the ones who were starting to heckle. I'm afraid that they were trying to give you a hard time.

Mr Bisson: They were.

The Second Deputy Chair: I'm here to protect your rights, the member for Cochrane South. I said that this NDP motion is Storer Drive and I spelled the word "Storer" and I'm not going to spell the word "Drive."

Mr Bisson: I don't want the word "Drive," Chair. My point is real simple: Is "Stor-er" two words or is "Storer" one word? That's all I'm asking.

The Second Deputy Chair: I'm sorry, the member for Dovercourt has a list of these with this on it, and I would give you permission to go down. I have made exceptions to solve other problems. I would let you go down so that you can —

Mr Bisson: Will you not call the next vote so I can go take a look at it? That's all I want.

The Second Deputy Chair: Whoa, stop. I'm not going to allow you to go down and then back on every one. If you want to see what they are, then you can go down and sit beside him.

Mr Bisson: But I'd be out of order. I couldn't vote and defer a vote from down there.

The Second Deputy Chair: I might overlook that.

Mr Bisson: Chair, I would like to report that —

The Second Deputy Chair: No, no, we're not going to make a mockery of this.

Mr Bisson: I'm not making a mockery.

The Second Deputy Chair: We are not. It is my business to try to run this committee in a businesslike manner and I will not allow anyone to make a mockery of it, to try to trivialize it in any way.

Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Stormont Avenue. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Stornoway Court. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is defeated.

NDP motion, subsection 24(4): Strachan Avenue. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is —

Mr Bisson: On a point of order, Mr Chair: I was trying to assist. You asked me a little while ago, if I was not sure of the spelling, to go down and take a look, which I did, and that you would recognize me if I went and deferred the vote there to check the spelling, which I did. I was trying to help.

The Second Deputy Chair: I'm sorry. How was it spelled?

Mr Bisson: That was two amendments ago. No, I am perfectly serious.

Interjections.

The Second Deputy Chair: Order. I'm trying to make a proper ruling on this and I want to address the member for Cochrane South. I want to get on with the business of this and I'll not tolerate these interruptions. I want to be very clear. I'm going to rule on your point of order, but I want to be very clear that I want to get on. If I have a sense that every person in here is not about getting this job done, then I'm sorry, I will start to lose patience and things like that.

0120

Now, on your point of order I'm not sure what the point of order is, so I'm going to say it's not a point of order.

Interjection: Hold on a second.

Interjections: Oh, come on.

The Second Deputy Chair: I'm sorry? If somebody wants to express a point of order, you stand on your feet and you address the Chair.

Mr Bisson: Point of order.

The Second Deputy Chair: The Chair recognizes the member for Cochrane South on a point of order.

Mr Bisson: Thank you very much, Chair. Earlier, you read an amendment to which I asked you the spelling and there was some difficulty trying to figure out how it was spelled. You suggested that if I was unsure I could go to the next bench, I could read the amendment, which I did, and that you would acknowledge my deferral of the vote from the front bench, and that's what I did. Rather than trying to interrupt you to ask you for the spelling, I went down there to look at the spelling.

The Second Deputy Chair: I said I could. I didn't say I did.

Mr Bisson: So when will I know? Chair, in all fairness, when am I going to know I can go down there?

The Second Deputy Chair: As soon as you have unanimous consent to recognize others in your place.

Mr Bisson: But that's not what you told me the last time, Chair. I need —

The Second Deputy Chair: Stop. I'm sorry. I'm trying to do this job the best I can, and I'm trying to keep all the details in place. I read 1,176 of these motions. I can't remember every one. But I think you said that that wasn't what I told you before, and it is my ruling that it is. If you would like to challenge the ruling, we will ask the Speaker to come in.

Are we ready to proceed? Now, where was I?

All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): What is that, Strachan Street? Are there two of those? I have two.

Mr Silipo: Chair, on a point of order.

The Second Deputy Chair: If you'd like another one, I'd give you this one. I don't want to do them twice.

Mr Silipo: No. I don't have a duplicate, but if there is on your list then I'd be happy to ask that that be withdrawn. There should only be one Strachan Avenue.

The Second Deputy Chair: I suspected such.

Interjections.

The Second Deputy Chair: Order. As you can see, this is not easy. I not only have to read these, I have to keep track of the words of nearly every one, and by the way, the member from Dovercourt, you have been excellent on catching those.

Mr Silipo: Thank you, sir.

The Second Deputy Chair: NDP motion, subsection 24(4): Strada Drive. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it.

The Chair recognizes the member for Sudbury on a point of order.

Mr Bartolucci: No, Mr Chair. I was just explaining the name of the street to the member for Scarborough North.

The Second Deputy Chair: Please don't.

Interjections.

The Second Deputy Chair: Order. I want to get on with the business of this Legislature. I have made a ruling

several times that if you're standing and you're speaking, then I have no alternative to think that you might be talking to me. I have a lot of other things to do. You might think about it.

Mr Bartolucci: I was standing for the vote, and I apologize. I was just naming the street to the member for Scarborough North. If it disturbed you or if it interrupted you, I apologize because that's not my intent.

The Second Deputy Chair: It does.

Mr Bartolucci: So I want you to know that.

The Second Deputy Chair: It absolutely does.

Mr Bartolucci: I was just trying to help the process.

The Second Deputy Chair: Would you please take your seat?

Mr Bartolucci: Yes.

The Second Deputy Chair: What I said is that when you're standing and talking, that's very disturbing to me. So if you'd try to only do one at a time, it would be very helpful to this Chair, and if you don't, then I will consider it a disruption of the proceedings.

This vote is deferred.

The Second Deputy Chair: I will not warn the member for Sudbury again. I asked you once, and twice, that when you're standing, please don't talk. It's disturbing to me, and I'll not warn you again.

Mr Bartolucci: Okay.

The Second Deputy Chair: NDP motion, subsection 24(4): Strathavon Drive, s-t-r-a-t-h-a-v-o-n. Shall the motion carry? All those in favour, say "aye." All those

opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Strathburn Boulevard, s-t-r-a-t-h-b-u-r-n. Shall the motion carry?

There's a banging in here, a constant banging. It sounds like somebody is dropping their desk. It seems to be to my left. Would you please check it out?

NDP motion, subsection 24(4) —

Interjections.

The Second Deputy Chair: Yes? I'm sorry, who has a point of order here?

Mr Silipo: I do, Chair.

The Second Deputy Chair: The Chair recognizes the member for Dovercourt on a point of order.

Mr Silipo: Chair, how could that vote have been defeated? There were five members standing.

The Second Deputy Chair: There were four members standing in their places.

Mr Silipo: Okay.

0130

The Second Deputy Chair: NDP motion, subsection 24(4): Strathmore Boulevard.

Mr Curling: Point of order.

The Second Deputy Chair: The Chair recognizes the member for Scarborough North.

Mr Curling: Who do you reckon wasn't in their —

The Second Deputy Chair: I'm not going to keep track of them all. When I take a look around, if there are five standing in their places, I say "deferred." I try to give a person a little bit of chance if they are wavering a little bit.

If they're getting close, I give them — in the last five or six days, the last 34 hours that I have sat here, I have not gyped anybody of a vote by hurrying it, by rushing it, by anything. If there are five in their places, I pass it. If not, I don't. But I can't keep track of all the members in here. I can hardly keep track of these motions and all the words in them and all the procedures, the punctuation and everything else. That is not a point of order.

Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4) —

Mr Silipo: Point of order.

The Second Deputy Chair: The Chair recognizes the member for Dovercourt on a point of order.

Mr Silipo: Chair, I believe that the next one you are about to call is Strathmore Boulevard, which is a duplicate of the one that we've just dealt with.

The Second Deputy Chair: Boulevard, yes. Withdrawn.

NDP motion, subsection 24(4): Strathnairn Avenue.

Mr Bisson: Point of order, Chair: I just want to be clear what latitude you're giving us and where we can stand to defer the vote. Is it immediately in the centre of your desk, or am I allowed to move to the side of my desk? Just so that I know that I won't get in any trouble, because the member for Scarborough North was standing just slightly to the side of his desk and I want to know if that's acceptable. If it's not, I accept your ruling.

The Second Deputy Chair: I'm sorry. I thought you were on a point of order. This is not question period. I am not here to answer questions. I have other things to do. If you stand in your place to be recognized, then you will be recognized. If I ever miss it, then stop me. But in the meantime, I'm not here to answer questions.

Mr Bisson: Are you here to deal with points of order?

The Second Deputy Chair: Order. The member for Cochrane South, do you have something that you want to address to this Chair?

Mr Bisson: No, I wasn't being facetious, Chair.

The Second Deputy Chair: No. I'm sorry. You're standing in your place and you're talking. I assume that you have a point of order or a point of privilege. If not, then you are out of order, and I will not warn you again.

Mr Bisson: I'm standing waiting for the deferral.

The Second Deputy Chair: I'm sorry, you were standing talking.

Mr Bisson: Well, Mr Chair —

The Second Deputy Chair: You are doing it again.

Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Stratton Avenue. Shall the motion carry? All those in favour, say "aye." All those opposed, say "nay." In my opinion, the nays have it. The vote is defeated.

NDP motion, subsection 24(4): Strawberry Hills Drive, s-t-r-a-w-b-e-r-r-y h-i-l-l-s. Shall the motion carry?

Mr Curling: Point of order, Chair.

Interjections.

The Second Deputy Chair: Order. I want the members on this side to give me the attention that the Chair deserves, and both sides. I am dealing with a point of order. It's an

important part. I don't want to breach anybody's privilege, and I want to get this done according to the rules that you have laid out for yourselves.

The Chair recognizes the member for Scarborough North on a point of order.

Mr Curling: Mr Chair, I think the last vote you had there, I did not hear you say "deferred" or "defeated."

The Second Deputy Chair: That is not a point of order.

Mr Curling: Well, I question it. Did you say "deferred" or "defeated"?

The Second Deputy Chair: No. I'm sorry. You're standing and you're talking. Why are you —

Mr Curling: You're saying that now.

The Second Deputy Chair: I've ruled on that point of order. I said it is not a point of order.

Mr Curling: So was it defeated or deferred?

The Second Deputy Chair: I'm here trying to do the absolute best: that we not only do the rules but that you understand what is going on.

Mr Curling: Mr Chair —

The Second Deputy Chair: You want to ask me something.

Mr Curling: I think you moved on to the other motion without saying "deferred" or "defeated."

The Second Deputy Chair: I'm not even there yet. I want to rule on this point of order because it is a point of order. My ruling is that if I make a mistake, if I overlook something, if I don't say it's deferred, when I don't do those things in order, then please rise, get my attention and say, "Mr Chair, point of order," whatever a person is used to doing that way, and I'll recognize you, but you'll have to stop me at the time. I can't go back. I've gone through literally thousands of these things and I'm not going to go back and do them all retroactively or find mistakes. If I make a mistake, by all means, and I've made a lot — I make more than anybody here — let me know at the time and I'll do it, I'll correct it, but I'm not going to go back into other ones. I'm dealing now with Strawberry Hills Drive.

I want to get this cleared up and I've explained it I think very clearly, but I'm not going to get into giving lectures for the whole day.

Mr Curling: I don't think you should.

The Second Deputy Chair: I'm sorry. You're standing and you're talking.

Interjection.

Mr Curling: Will you shut up.

Interjections.

The Second Deputy Chair: Order. The member for Scarborough North, I'd like you to take a second or two to think about that and then I will ask you to withdraw. Thank you.

Mr Curling: Could I just —

The Second Deputy Chair: I'm sorry. Why are you standing and talking?

Mr Mario Sergio (Yorkview): On a point of order, Mr Chair —

The Second Deputy Chair: No. I'm sorry, I think I have something here.

Mr Curling: Mr Chair, I —

The Second Deputy Chair: No. Why are you standing?

Mr Curling: This is on the point of order.

The Second Deputy Chair: Well, you didn't tell me that. If you stand and talk, I have to know why. Just say, "I stand on a point of order," and then we'll get on with it.

Mr Curling: On a point of order, Mr Chair —

The Second Deputy Chair: Order. I think I detected my mannerisms in yours and I know that you didn't mean to mimic me, and I will ask you not to use that kind of gesturing, please.

You have stood and now have asked for a point of order. Would you let me know what I'm doing wrong.

Mr Curling: You're not doing anything wrong, so to speak, Mr Chair. What I said when I stood up on the point of order was that you moved on to the next motion without saying, "Deferred." That's all I was saying, and you got into some explanations which I wasn't at all addressing. I was just saying that in that one you did not say, "Deferred."

The Second Deputy Chair: Okay. That is a point of order, except — my ruling is this: Right now I am halfway through Strawberry Hills Drive, and if I do something wrong on a former one, tell me about it then; don't wait until I'm halfway through this one. I want to be very clear on it. That is my ruling. As for speaking, I'm doing a lot of speaking, I'm doing a lot of talking; I do this two hours out of every six. I speak here, because we are reading these into the record, for two hours and then I try to rest for four hours, rest my vocal cords, so I can come back in and do this job the very best way I can. I'll rule that as not a point of order.

0140

We are halfway through Strawberry Hills Drive. I was to that point where I should say:

Shall the motion carry? All those in favour, say aye. All those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Stratham Place, s-t-r-a-t-h-a-m. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. Deferred vote.

NDP motion, subsection 24(4): Strickland Avenue. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Strode Drive. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it.

You want to withdraw the second Strode Avenue? There are two.

Mr Silipo: No, Mr Chair, I don't have a Strode Avenue here.

The Second Deputy Chair: Pardon me: Strode Drive. If there are two with Strode Drive, we'll withdraw one?

Mr Silipo: My package only has one, but if your package has two, then I'll withdraw one of them.

The Second Deputy Chair: Which package are we going by here?

Mr Silipo: Obviously your is the one that counts. Why don't we just make it easy and withdraw the second Strode Drive?

The Second Deputy Chair: Okay. It's done.

Mr Michael A. Brown (Algoma-Manitoulin): On a point of order, Mr Chair: On the last motion you did not indicate "defeated" or "deferred."

Interjection: I heard it.

The Second Deputy Chair: I have help here so I'm able to keep track of some of those things that you aren't. Did I not say "deferred" on Strickland Avenue? I'm sorry. I have a lot of things to keep track of and I apologize. The vote on that is deferred.

NDP motion, subsection 24(4): Strode Drive. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Struthers Street. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Stuart Avenue. Shall the motion carry? All those in favour, please say "aye." Those opposed, please say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Stuart Crescent. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Stuart Crescent.

Mr Silipo: On a point of order, Mr Chair: That's duplicate. I'll withdraw that.

The Second Deputy Chair: Done. I try to correct as many as I — you understand I can't —

Mr Silipo: I appreciate that, Chair. In the copies that were made I don't have duplicates. That's why I haven't caught them, as you have there, so I apologize for that. I think that's happening in the printing.

The Second Deputy Chair: Okay.

NDP motion, subsection 24(4): Stubbs Drive. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is defeated.

NDP motion, subsection 24(4): Stubbswood Sq, s-t-u-b-b-s-w-o-o-d. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Stubbswood Sq, s-t-u-b-b-s-w-o-o-d. That sounds awful like the last one.

The Chair recognizes the member for Cochrane South on a point of order.

Mr Silipo: Point of order, Mr Chair: I withdraw it.

Mr Bisson: It's no longer a point of order. He withdrew the amendment. I was going to ask what "Sq" was.

The Second Deputy Chair: That's not a point of order.

NDP motion, subsection 24(4): Sturgeon Lake, s-t-u-r-g-e-o-n. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is defeated.

NDP motion, subsection 24(4): Sturton Road, s-t-u-r-t-o-n. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

Mr Curling: On a point of order, Mr Chair: Could you explain to me about my position? When the member for Cochrane South moves, that's okay. Am I in order for that, sir? I stepped away because I have a footstool here, and then —

The Second Deputy Chair: If you want to do that, that's fine, but that's not a point of order.

NDP motion, subsection 24(4): Sturton Road, s-t-u-r-t-o-n. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Subway Crescent. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is deferred.

NDP motion, subsection 24(4): Sudbury Street. Shall the motion carry? All those in favour, say "aye." Those opposed, say "nay." In my opinion, the nays have it. The vote is —

Mr Bartolucci: Is that Sudbury?

The Second Deputy Chair: I am naming the member for Sudbury.

The committee rose and requested a ruling of the Speaker.

0248

The Second Deputy Chair: Speaker, I'm sorry to disturb you so late at night. I have been chairing the committee of the whole and I have tried to do it in a fair and reasonable manner. It's a tedious task but I do it the best I can. I have been patient and tolerant. There has been disorder. One member I had warned on at least four occasions. The last time when I warned him I told him that I would not warn him again. I discerned more disorder, so I named him.

The Speaker (Hon Chris Stockwell): The member for Sudbury, I take it.

The Second Deputy Chair: Yes.

The Speaker: I'll take the time to read the standing orders:

"15(c) When a member has been named by the Chair when the House is meeting in committee, the Chair shall forthwith suspend the proceedings of the committee," which we've done, "and report the circumstances to the House and the Speaker shall then proceed as in clause (b), as if the offence had been committed in the House itself."

Clause (b): "When a member is named by the Speaker, if the offence is a minor one, the Speaker may order the member to withdraw for the balance of the sessional day."

I have no choice but to simply name the member for Sudbury.

Interjection.

The Speaker: Member from Algoma, there are no submissions; there are no points of order.

Mr Michael Brown: Mr Speaker, it's standing order 100?

The Speaker: The one I quoted was standing order 15.

Mr Michael Brown: Standing order 100 —

The Speaker: Member from Algoma, I appreciate what you're trying to do but it's not in order. I'm only in the House to implement the standing order. Member for Sudbury.

Mr Bartolucci left the chamber.

Mr Gilchrist: You're going to read in —

Mrs Marion Boyd (London Centre): On a point of order, Madam Chair: On the next one, frankly, I'm not sure what it actually means, so we're withdrawing it.

The First Deputy Chair: We will be withdrawing Terr C P R whatever.

Hon Norman W. Sterling (Minister of Environment and Energy): On a point of order, Madam Chair: It's getting late in the evening and late in the proceedings with regard to the streets. We are willing at this point, because it is that way for the members of the opposition, to deem them sitting as long as that's good for any proceeding in this matter, provided that the party identify the number there and the members are actually in their seats, so they won't have to stand at the time at which you want them deemed standing. For instance, Mr Silipo might say, "We have four members in the Legislature in their seats." They should be deemed standing when it's the time to force a vote.

The First Deputy Chair: That's very generous of you. Thank you for that point of order and that very generous offer to the members of the opposition. It would be awkward, I think, to have the number called every time.

Hon Mr Sterling: Could I just expand? If Mr Silipo said, "We have four members in the Legislature," who would be standing at that point, as long as those four members were in their seats, then that would be acceptable to us, that they would be standing when the time was appropriate. If one left, Mr Silipo would have to stand up and say, "We now have three members."

The First Deputy Chair: I presume that you want to do it that way so that, for instance, instead of me just looking, you want it on the record or something.

Hon Mr Sterling: No, just when the membership changed. Mr Brown has two members here at this time, and as long as Mr Curling and Mr Brown are in their seats then that's as good as standing.

Mr Bisson: As long as there are five in their seats?

Hon Mr Sterling: Yes.

The First Deputy Chair: Does that sound workable?

Mr Silipo: I think that's very workable. Thanks.

The First Deputy Chair: Do we have unanimous consent? Agreed. Let's try. I hope that it doesn't make me stumble in my rhythm.

NDP motion, subsection 24(4): Terrace Avenue. Shall the motion carry? All those in favour, please say "aye."

Those opposed, please say "nay." In my opinion, the nays have it.

I have to be given a number.

Mr Silipo: There are four members from our caucus present.

Mr Michael Brown: There are two members in our caucus.

The First Deputy Chair: The vote will be deferred.

So now, just so I can be clear, as long as the numbers don't change, we'll continue. You are deemed.

NDP motion, subsection 24(4) — I'm just going to stop for a minute. Already, member for Carleton — and I'm just trying to make sure this works — a member got up out of his seat. I would assume that as soon as somebody is actually out of their seat, if they're not back in their seat, somebody would have to change that number.

Hon Mr Sterling: Yes, that's right.

The First Deputy Chair: Okay.
